This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

SPECIAL CONSULAR REPORT

# TARIFFS OF FOREIGN COUNTRIES.

VOL. XVI.

## Part 2—AMERICA.

REPORTS FROM DIPLOMATIC AND CONSULAR OFFICERS IN AN
TO INSTRUCTIONS FROM THE DEPARTMENT OF STATE.

Issued from the Bureau of Foreign Commerce,
Department of State.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1899.

Digitized by Google

## PUBLICATIONS OF THE BUREAU OF FOREIGN COMMERCE.*

The publications of the Bureau of Foreign Commerce, Department of State, are:

I.—COMMERCIAL RELATIONS, being the annual reports of consular officers on the commerce, industries, navigation, etc., of their districts.

II.—CONSULAR REPORTS, issued monthly, and containing miscellaneous reports from diplomatic and consular officers.

III.—ADVANCE SHEETS, CONSULAR REPORTS, issued daily except Sundays and legal holidays, for the convenience of the newspaper press, commercial and manufacturing organizations, etc.

IV.—EXPORTS DECLARED FOR THE UNITED STATES, issued quarterly, and containing the declared values of exports from the various consular districts to the United States for the preceding three months.

V.—SPECIAL CONSULAR REPORTS, containing series of reports from consular officers on particular subjects, made in pursuance to instructions from the Department.

Following are the special publications issued by the Bureau prior to 1890:

Labor in Europe, 1878, one volume; Labor in Foreign Countries, 1884, three volumes; Commerce of the World and the Share of the United States Therein, 1879; Commerce of the World and the Share of the United States Therein, 1880–81; Declared Exports for the United States, First and Second Quarters, 1883; Declared Exports for the United States, Third and Fourth Quarters, 1883; Cholera in Europe in 1884, 1885; Trade Guilds of Europe, 1885; The Licorice Plant, 1885; Forestry in Europe, 1887; Emigration and Immigration, 1885–86 (a portion of this work was published as CONSULAR REPORTS No. 76, for the month of April, 1887); Rice Pounding in Europe, 1887; Sugar of Milk, 1887; Wool Scouring in Belgium, 1887; Cattle and Dairy Farming in Foreign Countries, 1888 (issued first in one volume, afterwards in two volumes); Technical Education in Europe, 1888; Tariffs of Central America and the British West Indies, 1890.

The editions of all these publications, except Tariffs in Central America, etc., are exhausted and the Department is therefore unable to supply copies.

In 1890, the Department decided to publish reports on special subjects in separate form, to be entitled SPECIAL CONSULAR REPORTS. There are now the following SPECIAL CONSULAR REPORTS:

*Vol. 1 (1890).*—Cotton Textiles in Foreign Countries, Files in Spanish America, Carpet Manufacture in Foreign Countries, Malt and Beer in Spanish America, and Fruit Culture in Foreign Countries.

*Vol. 2 (1890 and 1891).*—Refrigerators and Food Preservation in Foreign Countries, European Emigration, Olive Culture in the Alpes Maritimes, and Beet-Sugar Industry and Flax Cultivation in Foreign Countries.

*Vol. 3 (1891).*—Streets and Highways in Foreign Countries.

*Vol. 4 (1891).*—Port Regulations in Foreign Countries.

*Vol. 5 (1891).*—Canals and Irrigation in Foreign Countries.

*Vol. 6 (1891 and 1892).*—Coal and Coal Consumption in Spanish America, Gas in Foreign Countries, and India Rubber.

*Vol. 7 (1892).*—The Stave Trade in Foreign Countries and Tariffs of Foreign Countries.

*Vol. 8 (1892).*—Fire and Building Regulations in Foreign Countries.

*Vol. 9 (1892 and 1893).*—Australian Sheep and Wool, and Vagrancy and Public Charities in Foreign Countries.

*Vol. 10 (1894).*—Lead and Zinc Mining in Foreign Countries and Extension of Markets for American Flour.

*Vol. 11 (1894).*—American Lumber in Foreign Markets.

*Vol. 12 (1895).*—Highways of Commerce.

*Vol. 13 (1896 and 1897).*—Money and Prices in Foreign Countries.

*Vol. 14 (1898).*—The Drug Trade in Foreign Countries.

*Vol. 15 (1898 and 1899).*—Part I. Soap Trade in Foreign Countries; Screws, Nuts, and Bolts in Foreign Countries; Argols in Europe, Rabbits and Rabbit Furs in Europe; Cultivation of Ramie in Foreign Countries. Part II. Sericulture and Silk Weaving, Cultivation of the English Walnut.

*Vol. 16 (1899).*—Tariffs of Foreign Countries—Part I, Europe.

Of these SPECIAL CONSULAR REPORTS, Australian Sheep and Wool, Cotton Textiles in Foreign Countries, Files in Spanish America, Fire and Building Regulations, Gas in Foreign Countries, Highways of Commerce, Lead and Zinc Mining, Malt and Beer in Spanish America, Port Regulations, Refrigerators and Food Preservation, Vagrancy, etc., are exhausted, and no copies can be supplied by the Department.

Of the monthly CONSULAR REPORTS, many numbers are exhausted or so reduced that the Department is unable to accede to requests for copies. Of the publications of the Bureau available for distribution, copies are mailed to applicants without charge. In view of the scarcity of certain numbers, the Bureau will be grateful for the return of any copies of the monthly or special reports which recipients do not care to retain. Upon notification of willingness to return such copies, the Department will forward franking labels to be used in lieu of postage in the United States, Canada, the Hawaiian Islands, and Mexico.

Persons receiving CONSULAR REPORTS regularly who change their addresses should give the old as well as the new address in notifying the Bureau of the fact.

In order to prevent confusion with other Department bureaus, all communications relating to CONSULAR REPORTS should be carefully addressed, "Chief, Bureau of Foreign Commerce, Department of State, Washington, U. S. A."

---

* Formerly Bureau of Statistics. Name changed to Bureau of Foreign Commerce by order of the Secretary of State July 1, 1897.

# EXPLANATORY.

A clause in the general deficiency bill of July 19, 1897, authorized the Department of State to print a compilation of the tariffs of foreign countries, and on July 29, 1897, a circular, signed by the Acting Secretary of State, Mr. Adee, was mailed to the diplomatic representatives of the United States in foreign countries and the consular officers resident in countries where there were no diplomatic representatives, instructing them to obtain, with the least possible delay, copies of the tariffs of the several countries, customs regulations, and bounty legislation relating to the export of domestic products and transmit them to the Department, as printed in the original official publications, with accurate translations where the matter was printed in foreign languages. The earlier publication of these tariffs has been impracticable because of the labor entailed upon diplomatic and consular officers in translating the tariffs and customs regulations and reducing weights and moneys to United States equivalents, and the omission of some officers to transmit to the Department tariffs in either their original or translated forms, entailing the necessity of supplying such deficiencies. For this purpose tariffs published by the International Tariffs Customs Bureau of Brussels and old tariffs published by the Bureau of the American Republics and by the Department of State were used as bases, all subsequent changes being incorporated therein from such official data as could be obtained. All foreign moneys have been reduced to United States equivalents, except in case of currencies so fluctuating that such reductions would be of no lasting value.

Instead of issuing these tariffs in one volume, as was done in the case of the publication by the Department in 1892 (Tariffs of Foreign Countries, Special Consular Reports, vol. 7), it has been considered more convenient and useful to issue them in five parts, each part covering a continent, viz: 1, Europe; 2, America; 3, Asia; 4, Africa, and 5, Australasia and Polynesia, with continuous pagination.

In this volume, the tariff of the United States is inserted for purposes of reference.

In most cases an alphabetical index, by articles and tariff numbers, follows the tariff schedules. Where such is not the case, classes of goods with tariff numbers covering the same are given, the aim being to enable the importer and exporter to find the information sought with the least possible delay or trouble.

It need hardly be stated that owing to continual tariff and customs changes in the greater number of the countries this publication is only to be relied upon to date, but if those interested will watch the monthly consular reports as they are issued they will be enabled to keep fully posted in regard to this important and intricate subject. The United States ministers and consuls are instructed to immediately report all tariff and customs changes within their respective jurisdictions, and such changes are at once published upon their receipt at the Department.

BUREAU OF FOREIGN COMMERCE,
*June 30, 1899.*

# VALUES OF FOREIGN COINS AND CURRENCIES.[1]

The following statements show the valuation of foreign coins, as given by the Director of the United States Mint and published by the Secretary of the Treasury, in compliance with the first section of the act of March 3, 1873, viz: "That the value of foreign coins, as expressed in the money of account of the United States, shall be that of the pure metal of such coin of standard value," and that "the value of the standard coins in circulation of the various nations of the world shall be estimated annually by the Director of the Mint, and be proclaimed on the 1st day of January by the Secretary of the Treasury."

In compliance with the foregoing provisions of law, annual statements were issued by the Treasury Department, beginning with that issued on January 1, 1874, and ending with that issued on January 1, 1890. Since that date, in compliance with the act of October 1, 1890, these valuation statements have been issued quarterly, beginning with the statement issued on January 1, 1891.

The fact that the market exchange value of foreign coins differs in many instances from that given by the United States Treasury has been repeatedly called to the attention of the Bureau of Foreign Commerce. An explanation of the basis of the quarterly valuations was asked from the United States Director of the Mint, and under date of February 7, 1898, Mr. R. E. Preston makes the following statement:

"When a country has the single gold standard, the value of its standard coins is estimated to be that of the number of grains fine of gold in them, 480 grains being reckoned equivalent to $20.67 in United States gold, and a smaller number of grains in proportion. When a country has the double standard, but keeps its full legal-tender silver coins at par with gold, the coins of both gold and silver are calculated on the basis of the gold value.

"The value of the standard coins of countries with the single silver standard is calculated to be that of the average market value of the pure metal they contained during the three months preceding the date of the proclamation of their value in United States gold by the Secretary of the Treasury. The value of the gold coins of silver-standard countries is calculated at that of the pure gold they contain, just as if they had the single gold standard.

"These valuations are used in estimating the values of all foreign merchandise exported to the United States. The value of the Indian rupee, although calculated according to law at the value of the pure metal contained therein, has a commercial value above the value of the silver bullion; consequently the value for customs purposes is determined in each case by the consular certificates attached to the invoice of exports from that country to the United States."

The following statements, running from January 1, 1874, to January 1, 1899, have been prepared to assist in computing the values in American money of the trade, prices, values, wages, etc., of and in foreign countries, as given in consular and other reports. The series of years are given, so that computations may be made for each year in the proper money values of such year. In hurried computations, the reductions of foreign currencies into American currency, no matter for how many years, are too often made on the bases of latest valuations. When it is taken into account that the ruble of Russia, for instance, fluctuated from 77.17 cents in 1874 to 37.4 cents in April, 1897, such computations are wholly misleading. All computations of values, trade, wages, prices, etc., of and in the "fluctuating-currency countries" should be made in the values of their currencies in each year up to and including 1890, and in the quarterly valuations thereafter.

To meet typographical requirements, the quotations for the years 1876, 1877, 1879, 1881, 1882, and 1891–95 are omitted, these years being selected as showing the least fluctuations when compared with years immediately preceding and following.

To save unnecessary repetition, the estimates of valuations are divided into three classes, viz: (A) Countries with fixed currencies; (B) countries with fluctuating currencies, and (C) quarterly valuations of fluctuating currencies.

[1] Corrected to April 1, 1899.

A.—*Countries with fixed currencies.*

The following official (United States Treasury) valuations of foreign coins do not include "rates of exchange."

| Countries. | Standard. | Monetary unit. | Value in United States gold. | Coins. |
|---|---|---|---|---|
| Argentine Republic[1] | Gold and silver | Peso | $0.96,5 | Gold—Argentine ($4.82,4) and ½ Argentine; silver—peso and divisions. |
| Austria-Hungary[2] | Gold | Crown | .20,3 | Gold—20 crowns ($4.05,2) and 10 crowns. |
| Belgium | Gold and silver | Franc | .19,3 | Gold—10 and 20 franc pieces; silver—5 francs. |
| Brazil | Gold | Milreis | .54,6 | Gold—5, 10, and 20 milreis; silver—½, 1, and 2 milreis. |
| British North America (except Newfoundland). | do | Dollar | 1.00 | |
| British Honduras | do | do | 1.00 | |
| Chile | do | Peso | .36,5 | Gold—escudo ($1.25), doubloon ($3.65), and condor ($7.30); silver—peso and divisions. |
| Costa Rica | do | Colon | .46,5 | Gold—2, 5, 10, and 20 colons; silver—5, 10, 25, and 50 centisimos. |
| Cuba | Gold and silver | do | .92,6 | Gold—doubloon ($5.01,7); silver—peso (60 cents). |
| Denmark | Gold | Crown | .26,8 | Gold—10 and 20 crowns. |
| Egypt | do | Pound (100 piasters). | £ 94,3 | Gold—10, 20, 50, and 100 piasters; silver—1, 2, 10, and 20 piasters. |
| Finland | do | Mark | .19,3 | Gold—10 and 20 marks ($1.93 and $3.85,9). |
| France | Gold and silver | Franc | .19,3 | Gold—5, 10, 20, 50, and 100 francs; silver—5 francs. |
| Germany | Gold | Mark | .23,8 | Gold—5, 10, and 20 marks. |
| Great Britain | do | Pound sterling | 4.86,6½ | Gold—sovereign (pound sterling) and half sovereign. |
| Greece | Gold and silver | Drachma | .19,3 | Gold—5, 10, 20, 50, and 100 drachmas; silver—5 drachmas. |
| Haiti | do | Gourde | .96,5 | Silver—gourde. |
| Italy | do | Lira | .19,3 | Gold—5, 10, 20, 50, and 100 lire; silver—5 lire. |
| Japan[3] | Gold | Yen | .49,8 | Gold—1, 2, 5, 10, and 20 yen. |
| Liberia | do | Dollar | 1.00 | |
| Netherlands[4] | Gold and silver | Florin | .40,2 | Gold—10 florins; silver—½, 1, and 2½ florins. |
| Newfoundland | Gold | Dollar | 1.01,4 | Gold—$2 ($2.02,7). |
| Portugal | do | Milreis | 1.08 | Gold—1, 2, 5, and 10 milreis. |
| Russia[5] | do | Ruble | .51,5 | Gold—imperial ($7.718), ½ imperial ($3.80), and 1 ruble; silver—¼, ½, and 1 ruble. |
| Spain | Gold and silver | Peseta | .19,3 | Gold—25 pesetas; silver—5 pesetas. |
| Sweden and Norway | Gold | Crown | .26,8 | Gold—10 and 20 crowns. |
| Switzerland | Gold and silver | Franc | .19,3 | Gold—5, 10, 20, 50, and 100 francs; silver—5 francs. |
| Turkey | Gold | Piaster | .04,4 | Gold—25, 50, 100, 200, and 500 piasters. |
| Uruguay | do | Peso | 1.03,4 | Gold—peso; silver—peso and divisions. |
| Venezuela | Gold and silver | Bolivar | .19,3 | Gold—5, 10, 20, 50, and 100 bolivars; silver—5 bolivars. |

[1] In 1874–75 the gold standard prevailed.
[2] The gold standard was adopted Oct. 1, 1892. (See Consular Reports, No. 147, p. 623.) Values are still, however, frequently expressed in the florin or gulden, which is worth 2 crowns, or 40.6 cents.
[3] Gold standard adopted Oct. 1, 1897. (See Consular Reports, No. 201, p. 259.)
[4] See note to table of fluctuating currencies.
[5] For an account of the adoption of the gold standard, see Review of the World's Commerce, 1896–97, p. 254.

[1] The silver standard prevailed in Austria-Hungary up to 1892. The law of August 2 of that year (see Consular Reports, No. 147, p. 623) established the gold standard.
[2] The Egyptian pound became fixed in value at $4.94.3 in 1887.
[3] The Netherlands florin fluctuated up to the year 1880, when it became fixed at 40.2 cents.

# FORE'GN WEIGHTS AND MEASURES.

The following table embraces only such weights and measures as are given from time to time in Consular Reports and in Commercial Relations:

*Foreign weights and measures, with American equivalents.*

| Denominations. | Where used. | American equivalents. |
|---|---|---|
| Almude | Portugal | 4.422 gallons. |
| Ardeb | Egypt | 7.6907 bushels. |
| Are | Metric | 0.02471 acre. |
| Arobe | Paraguay | 25 pounds. |
| Arratel or libra | Portugal | 1.011 pounds. |
| Arroba (dry) | Argentine Republic | 25.3175 pounds. |
| Do | Brazil | 32.38 pounds. |
| Do | Cuba | 25.3664 pounds. |
| Do | Portugal | 32.38 pounds. |
| Do | Spain | 25.36 pounds. |
| Do | Venezuela | 25.4024 pounds. |
| Arroba (liquid) | Cuba, Spain, and Venezuela | 4.263 gallons. |
| Arshine | Russia | 28 inches. |
| Arshine (square) | do | 5.44 square feet. |
| Artel | Morocco | 1.12 pounds. |
| Baril | Argentine Republic and Mexico | 20.0787 gallons. |
| Barrel | Malta (customs) | 11.4 gallons. |
| Do | Spain (raisins) | 100 pounds. |
| Berkovets | Russia | 361 12 pounds. |
| Bongkal | India | 832 grains. |
| Bouw | Sumatra | 7,096.5 square meters. |
| Bu | Japan | 0.1 inch. |
| Butt (wine) | Spain | 140 gallons. |
| Caffiso | Malta | 5.4 gallons. |
| Candy | India (Bombay) | 529 pounds. |
| Do | India (Madras) | 500 pounds. |
| Cantar | Morocco | 113 pounds. |
| Do | Syria (Damascus) | 575 pounds. |
| Do | Turkey | 124.7036 pounds. |
| Cantaro (cantar) | Malta | 175 pounds. |
| Carga | Mexico and Salvador | 300 pounds. |
| Catty | China | 1.333⅓ (1⅓) pounds. |
| Do[1] | Japan | 1.31 pounds. |
| Do | Java, Siam, and Malacca | 1.35 pounds. |
| Do | Sumatra | 2.12 pounds. |
| Centaro | Central America | 4.2631 gallons. |
| Centner | Bremen and Brunswick | 117.5 pounds. |
| Do | Darmstadt | 110.24 pounds. |
| Do | Denmark and Norway | 110.11 pounds. |
| Do | Nuremberg | 112.43 pounds. |
| Do | Prussia | 113.44 pounds. |
| Do | Sweden | 93.7 pounds. |
| Do | Vienna | 123.5 pounds. |
| Do | Zollverein | 110.24 pounds. |
| Do | Double or metric | 220.46 pounds. |
| Chih | China | 14 inches. |
| Coyan | Sarawak | 3,098 pounds. |
| Do | Siam (Koyan) | 2,667 pounds. |
| Cuadra | Argentine Republic | 4.2 acres. |
| Do | Paraguay | 78.9 yards. |
| Do | Paraguay (square) | 8.077 square feet. |
| Do | Uruguay | Nearly 2 acres. |
| Cubic meter | Metric | 35.3 cubic feet. |
| Cwt. (hundredweight) | British | 112 pounds. |
| Dessiatine | Russia | 2.6997 acres. |
| Do | Spain | 1.599 bushels. |
| Drachme | Greece | Half ounce. |
| Egyptian weights and measures | (See Consular Reports, No. 144.) | |

[1] More frequently called "kin." Among merchants in the treaty ports it equals 1.33⅓ pounds avoirdupois.

## METRIC WEIGHTS AND MEASURES.

**Metric weights:**

Milligram ($\frac{1}{1000}$ gram) equals 0.0154 grain.
Centigram ($\frac{1}{100}$ gram) equals 0.1543 grain.
Decigram ($\frac{1}{10}$ gram) equals 1.5432 grains.
Gram equals 15.432 grains.
Decagram (10 grams) equals 0.3527 ounce.
Hectogram (100 grams) equals 3.5274 ounces.
Kilogram (1,000 grams) equals 2.2046 pounds.
Myriagram (10,000 grams) equals 22.046 pounds.
Quintal (100,000 grams) equals 220.46 pounds.
Millier or tonnea—ton (1,000,000 grams) equals 2,204.6 pounds.

**Metric dry measures:**

Milliliter ($\frac{1}{1000}$ liter) equals 0.061 cubic inch.
Centiliter ($\frac{1}{100}$ liter) equals 0.6102 cubic inch.
Deciliter ($\frac{1}{10}$ liter) equals 6.1022 cubic inches.
Liter equals 0.908 quart.
Decaliter (10 liters) equals 9.08 quarts.
Hectoliter (100 liters) equals 2.838 bushels.
Kiloliter (1,000 liters) equals 1.308 cubic yards.

**Metric liquid measures:**

Milliliter ($\frac{1}{1000}$ liter) equals 0.0388 fluid ounce.
Centiliter ($\frac{1}{100}$ liter) equals 0.338 fluid ounce.
Deciliter ($\frac{1}{10}$ liter) equals 0.845 gill.
Liter equals 1.0567 quarts.
Decaliter (10 liters) equals 2.6418 gallons.
Hectoliter (100 liters) equals 26.418 gallons.
Kiloliter (1,000 liters) equals 264.18 gallons.

Digitized by Google

**Metric measures of length:**

Millimeter ($\frac{1}{1000}$ meter) equals 0.0394 inch.
Centimeter ($\frac{1}{100}$ meter) equals 0.3937 inch.
Decimeter ($\frac{1}{10}$ meter) equals 3.937 inches.
Meter equals 39.37 inches.
Decameter (10 meters) equals 393.7 inches.
Hectometer (100 meters) equals 328 feet 1 inch.
Kilometer (1,000 meters) equals 0.62137 mile (3,280 feet 10 inches).
Myriameter (10,000 meters) equals 6.2137 miles.

**Metric surface measures:**

Centare (1 square meter) equals 1,550 square inches.
Are (100 square meters) equals 119.6 square yards.
Hectare (10,000 square meters) equals 2.471 acres.

# INSTRUCTION TO DIPLOMATIC AND CONSULAR OFFICERS.

DEPARTMENT OF STATE,
*Washington, July 29, 1897.*

*To the diplomatic officers of the United States and to the consular officers of the United States in countries where there are no diplomatic representatives.*

GENTLEMEN: The general deficiency act approved July 19, 1897, authorizes the Department of State to print a compilation of the tariffs of foreign countries. It is the desire of the Department to obtain, with the least possible delay, accurate copies, in English, of the tariff laws of all the countries of the world, together with an intelligent synopsis of the customs regulations actually in force. You are therefore requested to forward to the Department, as soon as practicable, a copy of the tariff, including export duties, if any, as well as import duties, the customs regulations, and any bounty legislation relating to export of domestic products in the country or countries to which you are accredited. The matter asked for should be sent as printed in the language of the country, with an accurate translation, unless it be already in English.

The Department hopes to be able to publish the compilation by the 1st of December next, in order that it may be available for the use of members of Congress at the coming session.*

Respectfully, yours,

ALVEY A. ADEE,
*Acting Secretary.*

*As far as was practicable, the information has been supplied to members of Congress in advance of publication.

# TARIFFS OF FOREIGN COUNTRIES.

## DOMINION OF CANADA.[1]

### TARIFF OF 1897.

[Corrected up to June 30, 1899.]

**Following is the text of the new Canadian tariff, with index, as issued from the customs department, Ottawa, June 29, 1897:**

[60-61 VICTORIA, CHAP. 16.]

AN ACT to consolidate and amend the acts respecting the duties of customs. [Assented to June 29, 1897.]

Her Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:

1. This act may be cited as the customs tariff, 1897.

2. In this act, and in any other act relating to customs, unless the context otherwise requires—

(*a*) The initials "n. e. s." represent and have the meaning of the words "not elsewhere specified;"

(*b*) The initials "n. o. p." represent and have the meaning of the words "not otherwise provided for;"

(*c*) The expression "gallon" means an imperial gallon;

(*d*) The expression "ton" means 2,000 pounds avoirdupois;

(*e*) The expression "proof" or "proof spirits," when applied to wines or spirits of any kind, means spirits of a strength equal to that of pure ethyl alcohol compounded with distilled water in such proportions that the resultant mixture shall at a temperature of 60° F. have a specific gravity of 0.9198 as compared with that of distilled water at the same temperature;

(*f*) The expression "gauge," when applied to metal sheets or plates or to wire, means the thickness as determined by Stubbs's standard gauge;

(*g*) The expression "in diameter," when applied to tubing, means the actual inside diameter;

(*h*) The expression "sheet," when applied to metals, means a sheet or plate not exceeding three-sixteenths of an inch in thickness;

(*i*) The expression "plate," when applied to metals, means a plate or sheet more than three-sixteenths of an inch in thickness.

3. The expressions mentioned in section 2 of the customs act, as amended by section 2 of the customs amendment act, 1888, whenever they occur herein or in any act relating to the customs, unless the context otherwise requires, have the meaning assigned to them respectively by the said sections 2; and any power conferred upon

[1] *Canadian preferential tariff.*—Consul-General Turner sends from Ottawa, under date of July 29, 1898, copy of a recent amendment to the Canadian tariff, affecting the preferential duty for Great Britain and colonies. By the Canadian tariff which went into effect April 23, 1897 (see Consular Reports No. 205, October, 1897), the reduction of duty in favor of "favored nations" was one-eighth, or 12½ per cent, from April 23, 1897, to June 30, 1898. This applied to Great Britain, Belgium, Germany, France and colonies, Algeria, Tunis, Austria, Sweden and Norway, Denmark, Persia, Russia, Switzerland, Argentina, Bolivia, Colombia, and Venezuela. It did not apply to the United States. On July 1, 1898, the reduction was to be increased to one-fourth, or 25 per cent; the date for this second change was afterwards extended to August 1, 1898. According to the amendment transmitted by the consul-general, the countries which will receive the benefit of the 25 per cent reduction of duty on August 1, 1898, are limited to the United Kingdom, Bermuda, British West Indies, British Guiana, and other British possessions which grant Canada preferential rates. Under this last clause the minister of customs has extended the benefit of the reduction to British India, Ceylon, Straits Settlements, and New South Wales. (See Schedule D, British preferential tariff, page 37.)

Digitized by Google

the governor in council by the customs act to transfer dutiable goods to the list of goods which may be imported free of duty is not hereby abrogated or impaired.

4. Subject to the provisions of this act, and to the requirements of the customs act, chapter 32 of the revised statutes as amended, there shall be levied, collected, and paid upon all goods enumerated, referred to as not enumerated, in Schedule A to this act, the several rates of duties of customs set forth and described in the said schedule and set opposite to each item respectively or charged thereon as not enumerated, when such goods are imported into Canada or taken out of warehouse for consumption therein.

5. Subject to the same provisions and to the further conditions contained in Schedule B to this act, all goods enumerated in the said Schedule B may be imported into Canada or may be taken out of warehouse for consumption in Canada without the payment of any duties of customs thereon.

6. The importation into Canada of any goods enumerated, described, or referred to in Schedule C to this act is prohibited; and any such goods imported shall thereby become forfeited to the Crown and shall be destroyed or otherwise dealt with as the minister of customs directs; and any person importing any such prohibited goods, or causing or permitting them to be imported, shall for each offense incur a penalty not exceeding $200.

7. The whole or part of the duties hereby imposed upon fish and other products of the fisheries may be remitted as respects either the United States or Newfoundland, or both, upon proclamation of the governor in council, which may be issued whenever it appears to his satisfaction that the Governments of the United States and Newfoundland, or either of them, have made changes in their tariffs of duties imposed upon articles imported from Canada, in reduction or repeal of the duties in force in the said countries respectively.

8. The export of deer, wild turkeys, quail, partridge, prairie fowl, and woodcock, in the carcase or parts thereof, is hereby declared unlawful, and prohibited; and any person exporting or attempting to export any such article shall for each such offense incur a penalty of $100, and the article so attempted to be exported shall be forfeited, and may, on reasonable cause of suspicion of intention to export, be seized by any officer of the customs, and, if such intention is proved, shall be dealt with as for breach of the customs laws: *Provided*, That this section shall not apply to the export, under such regulations as are made by the governor in council, of any carcase or part thereof of any deer raised or bred by any person, company, or association of persons upon his or their own lands.

9. Regulations respecting the manner in which molasses and sirups shall be sampled and tested for the purpose of determining the classes to which they belong with reference to the duty chargeable thereon shall be made by the controller of customs, and the instruments and appliances necessary for such determination shall be designated by him and supplied to such officers as are by him charged with the duty of sampling and testing such molasses and sirups; and the decision of any officer (to whom is so assigned the testing of such articles) as to the duties to which they are subject under the tariff shall be final and conclusive, unless, upon appeal to the commissioner of customs within thirty days from the rendering of such decision, such decision is, with the approval of the controller, changed; and the decision of the commissioner with such approval shall be final.

10. In the case of all wines, spirits, or alcoholic liquors subject to duty according to their relative strength of proof, such strength shall be ascertained either by means of Sykes's hydrometer or of the specific-gravity bottle, as the controller of customs directs; and in case such relative strength can not be correctly ascertained by the direct use of the hydrometer or gravity bottle, it shall be ascertained by the distillation of a sample and the subsequent test in like manner of the distillate.

11. All medicinal or toilet preparations imported for completing the manufacture thereof, or for the manufacture of any other article by the addition of any ingredient or ingredients, or by mixing such preparations, or by putting up or labeling the same, alone or with other articles or compounds under any proprietary or special name or trade-mark, shall be valued for duty under the provisions of subsection 2 of section 65 of the customs act, as amended by section 15 of chapter 14 of the statutes of 1888.

12. All medicinal preparations, whether chemical or other, usually imported with the name of the manufacturer, shall have the true name of such manufacturer and the place where they are prepared, and the word "alcoholic" or "nonalcoholic" permanently and legibly affixed to each parcel by stamp, label, or otherwise; and all medicinal preparations imported without such names and word so affixed may be forfeited.

13. Packages shall be subject to the following provisions:

(*a*) All bottles, flasks, jars, demijohns, carboys, casks, hogsheads, pipes, barrels, and all other vessels or packages manufactured of tin, iron, lead, zinc, glass, or any other material capable of holding liquids, and all packages in which goods are

Digitized by Google

commonly placed for home consumption, including cases, not otherwise provided for, in which bottled spirits, wines, or malt liquors or other liquids are contained, and every package being the first receptacle or covering inclosing goods for the purpose of sale, shall, in all cases not otherwise provided for, in which they contain goods subject to an ad valorem duty or a specific and ad valorem duty, be charged with the same rate of ad valorem duty as is to be levied and collected on the goods they contain, and the value of the packages may be included in the value of such goods;

(*b*) All such packages as aforesaid containing goods subject to a specific duty only, and not otherwise provided for, shall be charged with a duty of 20 per cent ad valorem;

(*c*) Packages not hereinbefore specified, and not herein specially charged with or declared liable to duty, and being the usual and ordinary packages in which goods are packed for exportation, according to the general usage and custom of trade, shall be free of duty;

(*d*) All such special packages or coverings as are of any use, or apparently designed for use other than in the importation of the goods they contain, shall be subject to the same rate of duty as would therein be levied if imported empty or separate from their contents;

(*e*) Packages (inside or outside) containing free goods shall be exempt from duty when the packages are of such a nature that their destruction is necessary in order to release the goods.

14. Any person who, without lawful excuse, the proof of which shall be on the person accused, sends or brings into Canada, or who, being in Canada, has in his possession, any billheading or other paper appearing to be a heading or blank capable of being filled up and used as an invoice, and bearing any certificate purporting to show, or which may be used to show, that the invoice which may be made from such billheading or blank is correct or authentic, is guilty of an indictable offense and liable to a penalty of $500, and to imprisonment for a term not exceeding twelve months, in the discretion of the court, and the goods entered under any invoice made from any such billheading or blank shall be forfeited.

15. With respect to goods imported for manufacturing purposes that are admissible under this act for any specific purposes at a lower rate of duty than would otherwise be chargeable, or exempt from duty, the importer claiming such exemption from duty, or proportionate exemption from duty, shall make and subscribe to the following affidavit or affirmation before the collector of customs at the port of entry, or before a notary public or a commissioner for taking affidavits:

I, (name of importer) the undersigned, importer of the (names of the goods or articles) mentioned in this entry, do solemnly (swear or affirm) that such (names of the goods or articles) are imported by me for the manufacture of (names of the goods to be manufactured) in my own factory, situated at (name of the place, county, and province), and that no portion of the same will be used for any other purpose or disposed of until so manufactured.

16. Nothing contained in the foregoing provisions shall affect the French treaty act, 1894, or chapter 3 of the statutes of 1895, intituled an act respecting commercial treaties affecting Canada.

17. Articles which are the growth, produce, or manufacture of any of the following countries may, when imported direct into Canada from any of such countries, be entered for duty or taken out of warehouse for consumption in Canada at the reduced rate of duty provided in the British preferential tariff set forth in Schedule D to this act:

(*a*) The United Kingdom.

(*b*) The British colony of Bermuda.

(*c*) The British colonies commonly called the British West Indies, including the following: The Bahamas, Jamaica, Turks and Caicos islands, the Leeward Islands (Antigua, St. Christopher-Nevis, Dominica, Montserrat, and the Virgin Islands), the Windward Islands (Grenada, St. Vincent, and St. Lucia), Barbados, Trinidad, and Tobago.

(*d*) British Guiana.

(*e*) Any other British colony or possession the customs tariff of which is on the whole as favorable to Canada as the British preferential tariff herein referred to is to such colony or possession.

*Provided, however,* That manufactured articles to be admitted under such preferential tariff shall be bona fide the manufactures of a country or countries entitled to the benefits of such tariff, and that such benefits shall not extend to the importation of articles into the production of which there has not entered a substantial portion of the labor of such countries. Any question arising as to any article being entitled to such benefits shall be decided by the minister of customs, whose decision shall be final.

(2) *Raw sugar,* including all sugar described in item 436 of Schedule A, may.

Digitized by Google

when imported direct from any British colony or possession, be entered for duty or taken out of warehouse for consumption in Canada at the reduced rate of duty provided in the British preferential tariff.

(3) The minister of customs, with the approval of the governor in council, shall determine what British colonies or possession or possessions shall be entitled to the benefits of the preferential tariff under paragraph (*e*) of subsection 1 of this section.

The minister of customs may, with the approval of the governor in council, make such regulations as are deemed necessary for carrying out the intention of this section.

18. Whenever the governor in council has reason to believe that with regard to any article of commerce there exists any trust, combination, association, or agreement of any kind among manufacturers of such articles or dealers therein to unduly enhance the price of such article or in any other way to unduly promote the advantage of the manufacturers or dealers at the expense of the consumers, the governor in council may commission or empower any judge of the supreme court or exchequer court of Canada or of any superior court in any province of Canada to inquire in a summary way into and report to the governor in council whether such trust, combination, association, or agreement exists.

(2) The judge may compel the attendance of witnesses and examine them under oath and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the governor in council for the purposes of such inquiry.

(3) If the judge reports that such trust, combination, association, or agreement exists, and if it appears to the governor in council that such disadvantage to the consumers is facilitated by the duties of customs imposed on a like article when imported, then the governor in council shall place such article on the free list or so reduce the duty on it as to give to the public the benefit of reasonable competition in such article.

19. The following acts are hereby repealed: The customs tariff, 1894, being chapter 33 of the statutes of 1894; chapter 23 of the statutes of 1895, intituled an act to amend the customs tariff, 1894; and chapter 8 of the statutes of 1896, intituled an act further to amend the customs tariff, 1894.

20. All orders in council and all departmental regulations inconsistent with any of the provisions of this act are hereby repealed.

21. The foregoing provisions of this act shall be held to have come into force on the 23d day of April in the present year, 1897, and to apply and to have applied to all goods imported or taken out of warehouse for consumption on or after the said day: *Provided*, That in the case of goods which were imported or taken out of warehouse for consumption, and on which duty was paid, on or after the 23d day of April, 1897, in accordance with the rate of duty set forth as payable on such goods in the resolutions respecting the duties of customs introduced in the House of Commons on the 22d day of the said month, or in any such resolutions subsequently introduced in the said House, the duty so paid shall not be affected, nor shall the person paying it be entitled to any refund or be liable to any further payment of duty by reason of such rate of duty being altered by any resolution introduced subsequently to that in accordance with which such duty was paid and before the passage of this act.

### SCHEDULE A.—GOODS SUBJECT TO DUTIES.

*Ales, beers, wines, and liquors.*

| | | |
|---|---|---|
| 1. Ale, beer, and porter, when imported in casks or otherwise than in bottle | per gallon | $0.16 |
| 2. Ale, beer, and porter, when imported in bottles (6 quart or 12 pint bottles to be held to contain 1 gallon) | per gallon | .24 |
| 3. Cider, not clarified or refined | do | .05 |
| 4. Cider, clarified or refined | do | .10 |
| 5. Lime juice and fruit juices: | | |
| Fortified with or containing not more than 25 per cent of proof spirits | do | .60 |
| Containing more than 25 per cent of proof spirits | do | 2.00 |
| 6. Lime juice and other fruit sirups and fruit juices, n. o. p., 20 per cent ad valorem. | | |

7. Spirituous or alcoholic liquors, distilled from any material, or containing or compounded from or with distilled spirits of any kind, and any mixture thereof with water, for every gallon thereof of the strength of proof, and when of a greater strength than that of proof, at the same rate on the increased quantity that there would be if the liquors were reduced to the strength of proof. When the liquors are of a less strength than that of proof the duty shall be at a rate herein provided, but computed on a reduced quantity of the liquors in proportion to the lesser degree of strength: *Provided, however*, That no reduction in quantity shall be computed or made on any liquors below the strength of 15 per cent under proof, but all such liquors shall be computed as of the strength of 15 per cent under proof, as follows:

(*a*) Ethyl alcohol, or the substance commonly known as alcohol, hydrated oxide of ethyl, or spirits of wine; gin of all kinds, n. e. s.; rum, whisky, and all spirituous or alcoholic liquors, n. o. p.; amyl alcohol or fusel oil, or any substance known as potato spirit or potato oil; methyl alcohol, wood alcohol, wood naphtha, pyroxylic spirit, or any substance known as wood spirit or methylated spirits, absinthe, arrack or palm spirit, brandy, including artificial brandy and imitations of brandy; cordials and liqueurs of all kinds, n. e. s.; mescal, pulque, rum shrub, schiedam, and other schnapps; tafia, angostura, and similar alcoholic bitters or beverages..per gallon.. 2.40

136. Paper sacks or bags of all kinds, printed or not, 25 per cent ad valorem.
137. Playing cards ..... per pack.. .06
138. Paper hangings or wall papers, borders or bordering, and window blinds of paper of all kinds, 35 per cent ad valorem.
139. Printing paper and paper of all kinds, n. e. s., 25 per cent ad valorem.
140. Ruled and border and coated papers, papeteries, boxed papers, pads not printed, papier-mâché, ware, n. o. p.; envelopes, and all manufactures of paper, n. e. s., 35 per cent ad valorem.

*Chemicals and drugs.*

141. Acid, acetic acid and pyroligneous, n. e. s., and vinegar:
For each gallon of any strength not exceeding the strength of proof ..... per gallon.. .15
For each degree of strength in excess of the strength of proof ..... per degree.. .02
The strength of proof shall be held to be equal to 6 per cent of absolute acid, and in all cases the strength shall be determined in such manner as is established by the governor in council.
142. Acid, acetic and crude, and pyroligneous crude, of any strength not exceeding 30 per cent, 25 per cent ad valorem.

SCHEDULE A.—GOODS SUBJECT TO DUTIES—Continued.

*Chemicals and drugs*—Continued.

143. Acid, muriatic and nitric, and all mixed or other acids, n. e. s., 20 per cent ad valorem.
144. Acid, sulphuric, 25 per cent ad valorem.
145. Acid phosphate, n. o. p., 25 per cent ad valorem.
146. Sulphuric ether, chloroform, and solutions of peroxides of hydrogen, 25 per cent ad valorem.
147. All medicinal, chemical, and pharmaceutical preparations, when compounded of more than one substance, including patent and proprietary preparations, tinctures, pills, powders, troches, lozenges, sirups, cordials, bitters, anodynes, tonics, plasters, liniments, salves, ointments, pastes, drops, waters, essences, and oils, n. o. p.; provided that drugs, pill mass, and preparations, not including pills or medicinal plasters, recognized by the British or the United States pharmacopœia or the French Codex as officinal, shall not be held to be covered by this item; all liquids containing alcohol, 50 per cent ad valorem, and all others, liquids or not, 25 per cent ad valorem.
148. Pomades, French or flower odors preserved in fat or oil for the purpose of conserving the odors of flowers which do not bear the heat of distillation, when imported in tins of not less than 10 pounds each, 15 per cent ad valorem.
149. Perfumery, including toilet preparations (nonalcoholic), viz: Hair oils, tooth and other powders and washes, pomatums, pastes, and all other perfumed preparations, n. o. p., used for the hair, mouth, or skin, 30 per cent ad valorem.
150. Licorice paste and licorice in rolls and sticks, 20 per cent ad valorem.
151. Paraffin wax, 30 per cent ad valorem.
152. Antiseptic surgical dressing, such as absorbent cotton, cotton wool, lint, lamb's wool, tow, jute, ganzee, and oakum, prepared for use as surgical dressings, plain or medicated; surgical belts and trusses, electric belts, pessaries, and suspensory bandages of all kinds, 20 per cent ad valorem.
153. Surgical and dental instruments (not being furniture) and surgical needles, 10 per cent ad valorem until January 1, 1898; thereafter free.
154. Cod-liver oil, 20 per cent ad valorem.

*Opium.*

| | | |
|---|---|---|
| 155. Opium, crude, the outward ball or covering to be free of duty | per pound.. | $1.00 |
| 156. Opium, powdered | do.... | 1.35 |
| 157. Opium, prepared for smoking | do.... | 5.00 |

*Colors, paints, oils, varnishes, etc.*

158. Dry white and red lead, orange mineral and zinc white, 5 per cent ad valorem.
159. Ochers, ochrey earths, raw siennas, and colors, dry, n. e. s., 20 per cent ad valorem.
160. Oxides, umbers, burnt siennas, and fireproofs, n. e. s.; laundry bluing of all kinds, rough stuffs and dry liquid fillers, anticorrosive and antifouling paints commonly used for ships' hulls, and ground and liquid paints, n. e. s., 25 per cent ad valorem.
161. Paints and colors, ground in spirits, and all spirit varnishes and lacquers.....per gallon.. 1.12½
162. Paris green, dry, 10 per cent ad valorem.
163. Ink for writing, 20 per cent ad valorem.
164. Blacking, shoe, and shoemakers' ink; shoe, harness, and leather dressing, harness soap, and knife or other polish or composition, n. o. p., 25 per cent ad valorem.
165. Putty, of all kinds, 20 per cent ad valorem.
166. Turpentine, spirits of, 5 per cent ad valorem.
167. British gum, dextrin, sizing cream, and enamel sizing, 10 per cent ad valorem.
168. Varnishes, lacquers, japans, japan driers, liquid driers, and oil finish, n. e. s....per gallon.. .20
And 20 per cent ad valorem.
169. Linseed or flaxseed oil, raw or boiled, lard oil, neat's-foot oil, and sesame-seed oil, 25 per cent ad valorem.
170. Illuminating oils, composed wholly or in part of the products of petroleum, coal, shale, or lignite, costing more than 30 cents per gallon, 25 per cent ad valorem.
171. Lubricating oils, composed wholly or in part of petroleum, costing less than 25 cents per gallon.....per gallon.. .05
172. Crude petroleum, fuel, and gas oils (other than naphtha, benzine, or gasoline) when imported by manufacturers (other than oil refiners) for use in their own factories for fuel purposes or for the manufacture of gas.....per gallon.. .02½
173. Oils, coal and kerosene distilled, purified or refined, naphtha and petroleum, and products of petroleum, n. e. s .....per gallon.. .05
174. Barrels, containing petroleum or its products, or any mixture of which petroleum forms a part, when such contents are chargeable with a specific duty.....each.. .20
175. Lubricating oils, n. e. s., and axle grease, 25 per cent ad valorem.
176. Olive oil, n. e. s., 20 per cent ad valorem.
177. Essential oils, 10 per cent ad valorem.
178. Vaseline, and all similar preparations of petroleum for toilet, medicinal, or other purposes, 35 per cent ad valorem.

*Coal.*

179. Bituminous slack coal, such as will pass through a half-inch screen, subject to regulations to be made by the controller of customs, 20 per cent ad valorem, but not to exceed 13 cents per ton of 2,000 pounds (being the equivalent of 15 cents per ton of 2,240 pounds): *Provided*, That if the United States Congress fixes the duty on such slack coal at a rate not exceeding 15 cents per ton of 2,240 pounds, then the duty on such coal imported into Canada, as provided in this item, shall be the minimum duty on such coal from all countries, notwithstanding section 17 of this act.
180. Coal, bituminous, round and run of mine, and coal, n. e. s., 53 cents per ton of 2,000 pounds (being the equivalent of 60 cents per ton of 2,240 pounds): *Provided*, That if the United States Congress fixes the duty on such coal at a rate not exceeding 40 cents per ton of 2,240 pounds, the governor in council may by proclamation reduce the duty mentioned in this item to 40 cents per ton of 2,240 pounds, or the equivalent thereof per ton of 2,000 pounds, and the duty declared by such proclamation shall then be the minimum duty on such coal from all countries, notwithstanding section 17 of this act.

SCHEDULE A.—GOODS SUBJECT TO DUTIES—Continued.

*Earthenware, cements, slate, and stoneware.*

181. Building brick, paving brick, stove linings, and fire brick, n. e. s., and manufactures of clay or cement, n. o. p., 20 per cent ad valorem.
182. Earthenware and stoneware, viz, demijohns, churns, or crocks, 30 per cent ad valorem.
183. Drain tiles, not glazed, 20 per cent ad valorem.
184. Drain pipes, sewer pipes, chimney linings or vents, chimney tops and inverted blocks, glazed or unglazed, and earthenware tiles, 35 per cent ad valorem.
185. China and porcelain ware, also earthenware and stoneware, brown or colored, and Rockingham ware, white granite or iron stoneware, "c. c." or cream-colored ware, decorated, printed, or sponged, and all earthenware, n. e. s., 30 per cent ad valorem.
186. Baths, tubs, and washstands of earthenware, stone, cement, or clay, or of other material, n. o. p., 30 per cent ad valorem.
187. Cement, Portland and hydraulic or water lime, in bags, barrels, or casks, the weight of the package to be included in the weight for duty.....per 100 pounds.. $0. 12½
188. Plaster of paris, or gypsum, ground, not calcined, 15 per cent ad valorem.
189. Plaster of paris, or gypsum, calcined or manufactured, the weight of the package to be included in the weight for duty.....per 100 pounds.. .12½
190. Lithographic stones, not engraved, 20 per cent ad valorem.
191. Grindstones, not mounted, and not less than 36 inches in diameter, 15 per cent ad valorem.
192. Grindstones, n. e. s., 25 per cent ad valorem.
193. Flagstone, sandstone, and all building stone, not hammered or chiseled; and marble and granite, rough, not hammered or chiseled, 15 per cent ad valorem.
194. Marble and granite, sawn only; flagstone and all other building stone, dressed; and paving blocks of stone, 20 per cent ad valorem.
195. Marble and granite, n. e. s., and all manufactures of marble or granite, n. o. p., 35 per cent ad valorem.
196. Manufactures of stone, n. o. p., 30 per cent ad valorem.
197. Roofing slate, 25 per cent ad valorem; provided that the duty shall not exceed 75 cents per square.
198. Slate mantels and other manufactures of slate, n. e. s., 30 per cent ad valorem.
199. Slate pencils and school writing slates, 25 per cent ad valorem.
200. Mosaic flooring of any material, 30 per cent ad valorem.

*Glass and glassware.*

201. Common and colorless window glass, and plain colored, opaque, stained or tinted, or muffled glass, in sheets, 20 per cent ad valorem.
202. Ornamental, figured, and enameled colored glass, vitrified or painted, chipped, figured, enameled, and obscured white glass; stained glass windows, and memorial or ornamental window glass, n. o. p., and rough rolled plate glass, 30 per cent ad valorem.
203. Plate glass, not beveled, in sheets or panes, not exceeding 25 square feet each, n. o. p., 25 per cent ad valorem.
204. Plate glass, not beveled, in sheets or panes, n. e. s., 35 per cent ad valorem.
205. Plate glass, beveled, in sheets or panes, n. o. p., 35 per cent ad valorem.
206. Silvered glass, beveled or not and framed or not, 35 per cent ad valorem.
207. German looking-glass plate (thin plate), unsilvered or for silvering, 20 per cent ad valorem.
208. Glass demijohns or carboys, empty or filled, bottles, decanters, flasks, phials glass jars and glass balls, lamp chimneys, glass shades or globes, cut, pressed or molded crystal or glass tableware, decorated or not, and blown-glass tableware, 30 per cent ad valorem.
209. Bent plate or other sheet glass, and all other glass, and manufactures of glass, n. o. p., 20 per cent ad valorem.
210. Spectacles and eyeglasses, 30 per cent ad valorem.
211. Spectacle and eyeglass frames, and metal parts thereof, 20 per cent ad valorem.

*Leather, rubber, and manufactures of.*

212. Dongola, cordovan, calf, sheep, lamb, kid or goat, kangaroo, alligator, or other upper leather, and all leather dressed, waxed, glazed or further finished than tanned, n. e. s.; harness leather, and chamois skin, 17½ per cent ad valorem.
213. Skins for morocco leather, tanned but not further manufactured; sole leather and belting leather of all kinds; tanners' scrap leather; and leather and skins, n. o. p., 15 per cent ad valorem.
214. Glove leathers, tanned or dressed, colored or uncolored, when imported by glove manufacturers for use in their own factories in the manufacture of gloves, 10 per cent ad valorem.
215. Japanned, patent or enameled leather, and morocco leather, 25 per cent ad valorem.
216. Leather board, leatheroid, and manufactures thereof, n. o. p., 25 per cent ad valorem.
217. Whips of all kinds, including thongs and lashes, 35 per cent ad valorem.
218. Belting, of leather or other material, n. e. s., 20 per cent ad valorem.
219. Boots and shoes, and slippers, of any material, n. e. s., 25 per cent ad valorem.
220. Manufactures of rawhide, and all manufactures of leather, n. o. p., 25 per cent ad valorem.
221. India rubber boots and shoes; rubber belting, rubber cement, and all manufactures of india rubber and gutta-percha, not otherwise provided, 25 per cent ad valorem.
222. India-rubber clothing and clothing made waterproof with india rubber, rubber or gutta-percha hose, and cotton or linen hose lined with rubber, rubber mats or matting, and rubber packing, 35 per cent ad valorem.

*Metals and manufactures of.*

223. Iron or steel scrap, wrought, being waste or refuse, including punchings, cuttings or clippings of iron or steel plates or sheets having been in actual use; crop ends of tin-plate bars, or of blooms, or of rails, the same not having been in actual use .....per ton.. 1.00
Nothing shall be deemed scrap iron or scrap steel except waste or refuse iron or steel fit only to be remanufactured in rolling mills.
224. Iron in pigs, iron kentledge, and cast scrap iron.....per ton.. 2.50
225. Ferrosilicon, ferromanganese, and spiegeleisen, 5 per cent ad valorem.

SCHEDULE A.—GOODS SUBJECT TO DUTIES—Continued.

*Metals and manufactures of*—Continued.

226. Iron or steel ingots, cogged ingots, blooms, slabs, billets, puddled bars and loops or other forms, n. o. p., less finished than iron or steel bars but more advanced than pig iron, except castings ..... per ton.. $2.00
227. Rolled iron or steel angles, tees, beams, channels, girders, and other rolled shapes or sections, weighing less than 35 pounds per lineal yard, not punched, drilled, or further manufactured than rolled, n. o. p. ..... per ton.. 7.00
228. Rolled iron or steel angles, tees, beams, channels, joists, girders, zees, stars or other rolled shapes, or trough, bridge, building, or structural rolled sections or shapes, not punched, drilled, or further manufactured than rolled, n. e. s., and flat eye-bar blanks not punched or drilled, 10 per cent ad valorem.
229. Bar iron or steel, rolled, whether in coils, rods, bars, or bundles, comprising rounds, ovals and squares, and flats; and rolled shapes, n. o. p.; and rolled iron or steel hoop, band, scroll, or strip, 8 inches or less in width, No. 18 gauge and thicker, n. e. s. ..... per ton.. 7.00
230. Universal mill or rolled-edge bridge plates of steel when imported by manufacturers of bridges, 10 per cent ad valorem.
231. Rolled iron or steel plates, not less than 30 inches in width and not less than one-quarter of an inch in thickness, n. o. p., 10 per cent ad valorem.
232. Rolled iron or steel sheets or plates, sheared or unsheared, and skelp iron or steel, sheared or rolled in grooves, n. e. s ..... per ton.. 7.00
233. Skelp iron or steel, sheared or rolled in grooves, when imported by manufacturers of wrought-iron or steel pipe for use only in the manufacture of wrought iron or steel pipe in their own factories, 5 per cent ad valorem.
234. Rolled iron or steel sheets, No. 17 gauge and thinner, n. o. p.; Canada plates; Russia iron; flat galvanized iron or steel sheets, terne plate, and rolled sheets of iron or steel coated with zinc, spelter, or other metal, of all widths or thickness, n. o. p., and rolled iron or steel hoop, band, scroll, or scrip, thinner than No. 18 gauge, n. e. s., 5 per cent ad valorem.
235. Chrome steel, 15 per cent ad valorem.
236. Steel, in bars, bands, hoops, scroll or strips, sheets or plates, of any size, thickness, or width, when of greater value than 2¼ cents per pound, n. o. p., 5 per cent ad valorem.
237. Swedish rolled iron and Swedish rolled steel nail rods under half an inch in diameter, for the manufacture of horseshoe nails, 15 per cent ad valorem.
238. Iron and steel railway bars or rails of any form, punched or not, n. e. s., for railways, which term for the purposes of this item shall include all kinds of railways, street railways, and tramways, even although they are used for private purposes only, and even although they are not used or intended to be used in connection with the business of common carrying of goods or passengers, 30 per cent ad valorem.
239. Railway fish plates and tie plates ..... per ton.. 8.00
240. Switches, frogs, crossings, and intersections for railways, 30 per cent ad valorem.
241. Locomotives for railways, n. e. s., 35 per cent ad valorem.
242. Iron or steel bridges, or parts thereof; iron or steel structural work, columns, shapes, or sections, drilled, punched, or in any further stage of manufacture than as rolled or cast, n. e. s., 35 per cent ad valorem.
243. Forgings of iron or steel, of whatever shape or size or in whatever stage of manufacture, n. e. s.; and steel shafting, turned, compressed, or polished; and hammered iron or steel bars or shapes, n. o. p., 30 per cent ad valorem.
244. Iron or steel castings, in the rough, n. e. s., 25 per cent ad valorem.
245. Stove plates, stoves of all kinds, for oil, gas, coal, or wood, or parts thereof, and sad or smoothing, hatters', and tailors' irons, plated wholly or in part, or not, 25 per cent ad valorem.
246. Springs, axles, axle bars, n. e. s., and axle blanks, and parts thereof, of iron or steel, for railway or tramway or other vehicles, 35 per cent ad valorem.
247. Cart or wagon skeins or boxes, 30 per cent ad valorem.
248. Cast iron pipe of every description ..... per ton.. 8.00
249. Wrought-iron or steel boiler tubes, n. e. s., including flues and corrugated tubes for marine boilers, 5 per cent ad valorem.
250. Tubes of rolled steel, seamless, not joined or welded, not more than 1½ inch in diameter, and seamless steel tubes for bicycles, 10 per cent ad valorem.
251. Wrought-iron or steel tubing, plain or galvanized, threaded and coupled or not, over 2 inches in diameter, n. e. s., 15 per cent ad valorem.
252. Wrought-iron or steel tubing, plain or galvanized, threaded and coupled or not, 2 inches or less in diameter, n. e. s., 35 per cent ad valorem.
253. Other iron or steel pipe or tubing, plain or galvanized, riveted, corrugated, or otherwise specially manufactured, n. o. p., 30 per cent ad valorem.
254. Iron or steel fittings for iron or steel pipe, of every description, and chilled iron or steel rolls, 30 per cent ad valorem.
255. Iron or steel cut nails and spikes (ordinary builders'), and railroad spikes .... per pound.. .00½
256. Wrought and pressed nails and spikes, trunk, clout, coopers', cigar box, Hungarian, horseshoe, and other nails, n. e. s.; horse, mule, and ox shoes, 30 per cent ad valorem.
257. Wire nails of all kinds, n. o. p ..... per pound.. .00⅞
258. Composition nails and spikes and sheathing nails, 15 per cent ad valorem.
259. Iron or steel shoe tacks, and ordinary cut tacks, leathered or not, brads, sprigs, and shoe nails, double-pointed tacks, and other tacks of iron and steel, n. o. p., 35 per cent ad valorem.
260. Screws, commonly called "wood screws," of iron or steel, brass or other metal, including lag or coach screws, plated or not, and machine or other screws, n. o. p., 35 per cent ad valorem.
261. Coil chain, coil-chain links, and chain shackles, of iron or steel, five-sixteenths of an inch in diameter and over, 5 per cent ad valorem.
262. Barbed wire; and galvanized wire for fencing, Nos. 9, 12, and 13 gauge, 15 per cent ad valorem, until January 1, 1898; thereafter free.
263. Buckthorn-strip fencing, woven-wire fencing, and wire fencing of iron or steel, n. e. s., 15 per cent ad valorem.
264. Wire, single or several, covered with cotton, linen, silk, rubber, or other material, including cable so covered, n. e. s., 30 per cent ad valorem.
265. Brass wire, plain, 10 per cent ad valorem.

SCHEDULE A.—GOODS SUBJECT TO DUTIES—Continued.

*Metals and manufactures of*—Continued.

266. Copper wire, plain, tinned, or plated, 15 per cent ad valorem.
267. Wire cloth, or woven wire of brass or copper, 25 per cent ad valorem.
268. Wire of all metals and kinds, n. o. p., 20 per cent ad valorem.
269. Wire rope, stranded or twisted wire, clothesline, picture or other twisted wire, and wire cable, n. e. s., 25 per cent ad valorem.
270. Wire cloth or wove wire, and wire netting, of iron or steel, 30 per cent ad valorem.
271. Needles, of any material or kind, and pins manufactured from wire of any metal, n. o. p., 30 per cent ad valorem.
272. Lead, old, scrap, pig, and block, 15 per cent ad valorem.
273. Lead, in bars, and in sheets, 25 per cent ad valorem.
274. Lead pipe, lead shot, and lead bullets, 35 per cent ad valorem.
275. Lead, manufactures of, n. o. p., 30 per cent ad valorem.
276. Brass and copper nails, tacks, rivets, and burrs or washers; bells and gongs, n. e. s., and all manufactures of brass or copper, n. o. p., 30 per cent ad valorem.
277. Zinc, manufactures of, n. o. p., 25 per cent ad valorem.
278. Nickel anodes, 10 per cent ad valorem.
279. Iron or steel nuts, washers, rivets, and bolts, with or without threads, and nut, bolt, and hinge blanks, and T and strap hinges of all kinds, n. e. s.....per pound.. $0.00⅞
(And 25 per cent ad valorem.)
280. Builders', cabinetmakers', upholsterers', harness-makers', saddlers', and carriage hardware, including butt hinges, locks, currycombs, or curry cards, horse boots, harness, and saddlery, n. e. s., 30 per cent ad valorem.
281. Skates of all kinds, roller or other, and parts thereof, 35 per cent ad valorem.
282. Gas meters, 35 per cent ad valorem.
283. Safes, doors for safes and vaults; scales, balances, weighing beams, and strength-testing machines of all kinds, 30 per cent ad valorem.
284. Carvers, knives and forks of steel, butcher and table steels, oyster, bread, kitchen, cooks', butcher, shoe, farrier, putty, hacking, and glaziers' knives; cigar knives, spatulas or palette knives, razors, erasers, or office knives; pen, pocket, pruning, sportsmen's or hunters' knives; manicure files, scissors, trimmers; barbers', tailors' and lamp shears, horse and toilet clippers, and all like cutlery, plated or not, n. o. p.—when any of the above articles are imported in cases or cabinets, the cases or cabinets shall be dutiable at the same rate as their contents—30 per cent ad valorem.
285. Knife blades or blanks, and table forks of iron or steel in the rough, not handled, filed, ground, or otherwise manufactured, 10 per cent ad valorem.
286. Celluloid, molded into sizes for handles of knives and forks, not bored nor otherwise manufactured; also molded celluloid balls and cylinders, coated with tin foil or not, but not finished or further manufactured, and celluloid lamp-shade blanks, 10 per cent ad valorem.
287. Bird, parrot, squirrel, and rat cages, of wire, and metal parts thereof, 35 per cent ad valorem.
288. Files and rasps, n. e. s., 30 per cent ad valorem.
289. Adzes, cleavers, hatchets, saws, wedges, sledges, hammers, crowbars, cant dogs, and track tools; picks, mattocks, and eyes or poles for the same; anvils, vises, and tools of all kinds, for hand or for machine use, including shoemakers' and tinsmiths' tools or bench machines, n. o. p., 30 per cent ad valorem.
290. Axes, scythes, sickles, or reaping hooks, hay or straw knives, edging knives, hoes, rakes, pronged forks, snaths, farm, road, or field rollers, post-hole diggers, and other agricultural implements, n. e. s., 25 per cent ad valorem.
291. Shovels and spades, iron or steel, n. e. s.; shovel and spade blanks, and iron or steel cut to shape for the same; and lawn mowers, 35 per cent ad valorem.
292. Britannia metal, nickel silver, Nevada and German silver, manufactures of, not plated, and manufactures of aluminum, n. o. p., 25 per cent ad valorem.
293. Sterling and other silverware, nickel-plated ware, gilt or electroplated ware, wholly or in part, of all kinds, n. e. s., 30 per cent ad valorem.
294. Telephone and telegraph instruments, electric and galvanic batteries, electric motors, dynamos, generators, sockets, insulators of all kinds, and electric apparatus, n. e. s., 25 per cent ad valorem.
295. Electric-light carbons and carbon points, of all kinds, n. e. s., 35 per cent ad valorem.
296. Carbons over 6 inches in circumference, 15 per cent ad valorem.
297. Lamps, side lights and headlights, lanterns, chandeliers, gas, coal or other oil fixtures and electric-light fixtures, or metal parts thereof, including lava or other tips, burners, collars, galleries, shades and shade holders, 30 per cent ad valorem.
298. Lamp springs, and glass bulbs for electric lights, 10 per cent ad valorem.
299. Babbitt metal, type metal, phosphor tin and phosphor bronze in blocks, bars, plates, sheets, and wire, 10 per cent ad valorem.
300. Type for printing, including chases, quoins, and slugs, of all kinds, 20 per cent ad valorem.
301. Plates engraved on wood, steel, or other metal, and transfers taken from the same, including engravers' plates of steel, polished, engraved or for engraving thereupon, 20 per cent ad valorem.
302. Stereotypes, electrotypes, and celluloids for almanacs, calendars, illustrated pamphlets, newspaper advertisements or engravings, and all other like work for commercial, trade, or other purposes, n. e. s., and matrices or copper shells for the same...per square inch.. .01½
303. Stereotypes, electrotypes, and celluloids of newspaper columns, and bases for the same, composed wholly or partially of metal or celluloid.....per square inch.. .00⅞
And matrices or copper shells for the same.....do.... .01⅞
304. Clothes wringers for domestic use, and parts thereof, 35 per cent ad valorem.
305. Buckles of iron, steel, brass, or copper, of all kinds, n. o. p. (not being jewelry), 30 per cent ad valorem.
306. Guns, rifles, including air guns and air rifles not being toys, muskets, cannons, pistols, revolvers, or other firearms; cartridge cases, cartridges, primers, percussion caps, wads, or other ammunition, n. o. p.; bayonets, swords, fencing foils, and masks; gun or pistol covers or cases, game bags, loading tools, and cartridge belts of any material, 30 per cent ad valorem.
307. Agate, granite, or enameled iron or steel hollow ware, 35 per cent ad valorem.
308. Enameled iron or steel ware, n. e. s.; iron or steel hollow ware, plain black, tinned or coated; and nickel and aluminum kitchen or household hollow ware, n. e. s., 30 per cent ad valorem.

SCHEDULE A.—GOODS SUBJECT TO DUTIES—Continued.

*Metals and manufactures of*—Continued.

309. Tinware, plain, japanned or lithographed, and all manufactures of tin, n. e. s., and manufactures of galvanized sheet iron or of galvanized sheet steel, n. o. p., 25 per cent ad valorem.
310. Signs, of any material, framed or not; and letters of any material for signs or similar use, 30 per cent ad valorem.
311. Fire engines and fire extinguishing machines, including sprinklers for fire protection, 35 per cent ad valorem.
312. Brass pumps of all kinds, and garden or lawn sprinklers, 30 per cent ad valorem.
313. Printing presses, printing machines, lithographic presses, and type-making accessories therefor; folding machines, bookbinders' bookbinding, rul ng, embossing, and paper-cutting machines, and parts thereof, 10 per cent ad valorem.
314. Sewing machines, and parts thereof, 30 per cent ad valorem.
315. Steam engines, boilers, ore crushers and rock crushers, stamp mills, Cornish and belted rolls, rock drills, air compressors, cranes, derricks, percussion coal cutters, pumps, n. e. s.; windmills, horsepowers, portable engines, thrashers, separators, fodder or feed cutters, potato diggers, grain crushers, fanning mills, hay tedders, farm wagons, slot machines and typewriters, and all machinery composed wholly or in part of iron or steel, n. o. p , 25 per cent ad valorem.
316. Machine card clothing, 25 per cent ad valorem.
317. Mold boards or shares, or plow plates, land sides, and other plates for agricultural implements, when cut to shape from rolled plates of steel but not molded, punched, polished, or otherwise manufactured, 5 per cent ad valorem.
318. Mowing machines, harvesters self-binding or without binders, binding attachments, reapers, cultivators, plows, harrows, horse rakes, seed drills, manure spreaders, weeders, and malleable sprocket or link belting chain for binders, 20 per cent ad valorem.
319. Trawls, trawling spoons, fly hooks, sinkers, swivels, and sportsmen's fishing bait, and fish-hooks, n. e. s., 30 per cent ad valorem.
320. Patterns of brass, iron, steel, or other metal (not being models), 30 per cent ad valorem.
321. Manufactures, articles or wares not specially enumerated or provided for, composed wholly or in part of iron or steel, and whether wholly or partly manufactured, 30 per cent ad valorem.

*Vehicles.*

322. Freight wagons, drays, sleighs, and similar vehicles, 25 per cent ad valorem.
323. Buggies, carriages, pleasure carts, and similar vehicles, n. e. s., including cutters, children's carriages and sleds, and finished parts thereof, n. o. p., 35 per cent ad valorem.
324. Railway cars (or other cars), wheelbarrows, trucks, road or railway scrapers, and hand-carts, 30 per cent ad valorem.
325. Bicycles and tricycles, 30 per cent ad valorem.

*Manufactures of wood, cane, cork.*

326. Cane, reed, or rattan, split or otherwise manufactured, n. o. p., 15 per cent ad valorem.
327. Corks, and other manufactures of cork wood or cork bark, n. o. p., 20 per cent ad valorem.
328. Sawed boards, planks, and deals planed or dressed on one or both sides, when the edges thereof are jointed or tongued and grooved, 25 per cent ad valorem.
329. Lumber and timber, manufactured, n. e. s., 20 per cent ad valorem.
330. Pails and tubs of wood, churns, brooms and whisks, washboards, pounders and rolling pins, 20 per cent ad valorem.
331. Veneers of wood, not over three thirty-seconds of an inch in thickness, 7½ per cent ad valorem.
332. Moldings of wood, plain, gilded, or otherwise further manufactured, 25 per cent ad valorem.
333. Wood pulp, 25 per cent ad valorem.
334. Manufactures of wood, n. o. p., 25 per cent ad valorem.
335. Fishing rods, walking sticks and walking canes, of all kinds, n. e. s., 30 per cent ad valorem.
336. Picture frames and photograph frames, of any material, 30 per cent ad valorem.
337. Umbrella, parasol, and sunshade sticks or handles, n. e. s., 20 per cent ad valorem.
338. Coffins and caskets, and metal parts thereof, 25 per cent ad valorem.
339. Show cases, of all kinds, and metal parts thereof, 35 per cent ad valorem.
340. Billiard tables, with or without pockets, and bagatelle tables or boards, cues, balls, cue racks, and cue tips, 35 per cent ad valorem.
341. Vulcanized fiber, kartavert, indurated fiber, and like material, and manufactures of, n. e. s., 25 per cent ad valorem.
342. Blinds of wood, metal, or other material, not textile or paper, 30 per cent ad valorem.
343. House, office, cabinet, or store furniture of wood, iron, or other material, in parts or finished; wire screens, wire doors and wire windows; cash registers; window cornices and cornice poles of all kinds; hair, spring, and other mattresses, bolsters and pillows, including furniture springs and carpet sweepers; 30 per cent ad valorem.
344. Window shade or blind rollers, 35 per cent ad valorem.

*Jewelry and material therefor, etc.*

345. Watch cases, 30 per cent ad valorem.
346. Clocks, watches, watch glasses, clock and watch keys, and clock movements, 25 per cent ad valorem.
347. Watch actions and movements, 10 per cent ad valorem.
348. Precious stones, n. e. s., polished but not set, pierced or otherwise manufactured, and imitations thereof, 10 per cent ad valorem.
349. Composition metal for the manufacture of jewelry and filled gold watch cases, 10 per cent ad valorem.
350. Jewelry, for the adornment of the person, including hat pins, hairpins, belt or other buckles, and similar personal ornamental articles commercially known as jewelry, n. o. p., and all manufactures of gold and silver, n. e. s., 30 per cent ad valorem.

Coins, cabinets of, collections of medals and of other antiquities, including collections of postage stamps; gold and silver coins, except United States silver coin; medals of gold, silver or copper, and other metallic articles actually bestowed as trophies or prizes and received and accepted as honorary distinctions, and cups or other prizes won in bona fide competitions; and medals comemmorating the diamond jubilee of Her Majesty Queen Victoria, until December 31, 1897, and dies for manufacturing such medals.
474. Locomotive and railway passenger, baggage, and freight cars, being the property of railway companies in the United States, running upon any line of road crossing the frontier, so long as Canadian locomotives and cars are admitted free under similar circumstances into the United States, under regulations prescribed by the controller of customs.
475. Models of inventions and of other improvements in the arts; but no article shall be deemed a model which can be fitted for use.
476. Aluminium in ingots, block or bars, strips, sheets, or plates; alumina and chloride of aluminium, or chloralum, sulphate of alumina, and alum cake; and alum in bulk only, ground or unground.
477. Ambergris; ammonia, sulphate of, sal ammoniac, and nitrate of ammonia; arsenic; bromine, burgundy pitch; cinnabar, cochineal, cyanide of potassium, and cyanogen or compound of bromine and potassium for reducing metals in mining operations; iodine, crude; kryolite or cryolite, mineral; oxalic acid; quinine, salts of; saltpeter; calcareous tufa; alizarin and artificial alizarin; aniline oil, crude; aniline salts and arseniate of aniline; annotto, liquid or solid; aniline dyes and coal-tar dyes in bulk or packages of not less than 1 pound weight.
478. Antimony salts; antimony, or regulus of, not ground, pulverized, or otherwise manufactured.
479. Artificial limbs.
480. Asphalt or asphaltum; bone pitch, crude only; and resin or rosin in packages of not less than 100 pounds; and resin oil.
481. Anchors for vessels.
482. Bees.
483. Bells, when imported for the use of churches only.
484. Bismuth, metallic, in its natural state; blood albumen and tannic acid.
485. Blast furnace slag.
486. Blanketing and lapping, and dies or mills for engraving copper rollers, when imported by cotton manufacturers, calico printers, and wall paper manufacturers, for use in their own factories only.
487. Bolting cloth not made up.
488. Bones, crude, not manufactured, burned, calcined, ground, or steamed.
489. Bookbinders' cloth.

SCHEDULE B.—FREE GOODS—Continued.

490. Boracic acid, and borax, ground or unground, in bulk of not less than 25 pounds.
491. Bristles, broom corn, and hair-brush pads.
492. Brass and copper, old and scrap, or in blocks; and brass or copper in bolts, bars, and rods in coil or otherwise, not less than 6 feet in length, unmanufactured, and brass or copper in strips, sheets, or plates not polished, planished, or coated, and brass or copper tubing, in lengths of not less than 6 feet, and not polished, bent, or otherwise manufactured, and copper in ingots or pigs.
493. Britannia metal in pigs, blocks, or bars.
494. Buckram, when imported for the manufacture of hat and bonnet shapes.
495. Bullion, gold and silver, in ingots, blocks, bars, drops, sheets or plates, unmanufactured; gold and silver sweepings, and bullion or gold fringe.
496. Burr stones, in blocks, rough or unmanufactured, not bound up or prepared for binding into millstones.
497. Caplins, unfinished leghorn hats, and manila hoods.
498. Casts, as models for the use of schools of design.
499. Cane and rattans, not manufactured; osiers or willows, and bamboos, unmanufactured, and bamboo reeds, not further manufactured than cut into suitable lengths for walking sticks or canes, or for sticks for umbrellas, parasols, or sunshades.
500. Catgut or gut cord, for musical instruments; and catgut or worm gut, unmanufactured, for whip and other cord.
501. Celluloid, xylonite or xyolite in sheets, and in lumps, blocks, or balls, in the rough.
502. Chloride of lime, in packages of not less than 25 pounds weight; cobalt, ore of; oxide of cobalt, oxide of tin, and oxide of copper; copper, precipitate of, crude; dragon's blood; gypsum, crude (sulphate of lime); lava, unmanufactured; manganese, oxide of; phosphorus; litharge; saffron, saffron cake, safflower, and extract of; sulphate of iron (copperas); sulphate of copper (blue vitriol); sulphur and brimstone, crude, or in roll or flour; tartar emetic and gray tartar; cream of tartar in crystals and argal or argols; verdigris, or subacetate of copper, dry; zinc, salts of, and tartaric acid crystals.
503. Chronometers and compasses for ships.
504. Citron, lemon, and orange rinds in brine.
505. Clays, including china clay, fire clay, and pipe clay; gannister and sand.
506. Coal, anthracite and anthracite coal dust; coke.
507. Coal and pine pitch, and coal and pine tar in packages of not less than 15 gallons.
508. Coir and coir yarn; raw cotton or cotton wool; and cotton waste, not dyed, cleaned, bleached, or otherwise manufactured; cotton yarns, No. 40 and finer; and mohair yarns.
509. Communion plate, when imported for the use of churches.
510. Crucibles, clay or plumbago.
511. Curling stones.
512. Cups, brass, being rough blanks for the manufacture of paper shells or cartridges, when imported by manufacturers of brass and paper shells and cartridges, for use in the manufacture of such articles in their own factories.
513. Diamonds, unset, diamond dust or bort and black, for borers; and diamond drills for prospecting for minerals, not to include motive power.
514. Domestic fowls, pure bred, for the improvement of stock, homing or messenger pigeons, and pheasants and quails.
515. Drugs, crude, such as barks, flowers, roots, beans, berries, balsams, bulbs, fruits, insects, grains, gums and gum resins, herbs, leaves, nuts, fruit and stem seeds—which are not edible and which are in a crude state and not advanced in value by refining or grinding or any other process of manufacture and not otherwise provided for; egg yolk; fuller's earth, in bulk only, not prepared for toilet or other purposes; lead, nitrate and acetate of, not ground; litmus and all lichens, prepared or not prepared; musk, in pods or in grain; roots, medicinal, viz: Alkanet, crude, crushed or ground; aconite, calumba, folia digitalis, gentian, ginseng, jalap, ipecacuanha, iris, orris root, licorice, sarsaparilla, squills, taraxacum, rhubarb and valerian, unground; vaccine and ivory vaccine points; gum chicle or sappato gum, crude; platinum and black oxide of copper, for use in the manufacture of chlorate; potash, chloride of, not further prepared than ground, and free from admixture with any other substance; and bacteriological products or serum for subcutaneous injection.
516. Duck for belting and hose, when imported by manufacturers of such articles for use in the manufacture thereof in their own factories; and canvas or fabric, not frictionized, for the manufacture of bicycle tires when imported by the manufacturers of bicycle tires for use exclusively in the manufacture of bicycle tires in their own factories.
517. Dyeing or tanning articles, in a crude state, used in dyeing or tanning, n. e. s.;[1] berries for dyeing or used for composing dyes; turmeric, nutgalls, and extracts thereof; lac, crude, seed, button, stick, and shell; indigo, indigo paste and extracts of, and indigo auxiliary or zinc dust; persis, or extract of archil and cudbear; terra japonica, gambier or cutch, extract of logwood, fustic, oak and oak bark and quebracho; camwood and sumac and extract thereof, tanner's bark, hemlock bark and oak bark; ground logwood, ground fustic, patent prepared dyes, and ground oak bark; iron liquor, solutions of acetate or nitrate of iron for dyeing and calico printing, madder and munjeet, or Indian madder, ground or prepared, and all extracts of; red liquor, a crude acetate of aluminium prepared from pyroligneous acid, for dyeing and calico printing.
518. Emery in bulk, crushed or ground.
519. Felt, adhesive, for sheathing vessels.
520. Fertilizers, uncompounded or unmanufactured, including phosphate rock, kainite or German potash salts, German mineral potash, bone dust, bone black or charred bone and bone ash, fish offal or refuse, guano and other animal or vegetable manures.
521. Fiber, Mexican, natural, and tampico or istle and vegetable fibers; fibrilla, flax fiber and flax tow; grass, manila, esparto or Spanish, and other grasses, and pulp of, including fancy grasses, dried but not colored or otherwise manufactured; moss, Iceland, and other mosses, sea grass and seaweed, crude or in their natural state, or cleaned only; and kelp.
522. Fire bricks, for use in processes of manufacture, or for manufacturing purposes.

---

[1] Consul Brush, of Clifton, under date of March 16, 1899, reports that the chemical compounds known as safety bate and tannin preserver, when imported by tanners to be used exclusively in the tanning of leathers in their own tanneries, may hereafter be brought into Canada free of duty, an order in council having been passed placing them on the free list.

SCHEDULE B.—FREE GOODS—Continued.

523. Fillets of cotton and rubber not exceeding seven inches wide, when imported by and for the use of manufacturers of card clothing in their own factories.
524. Fishhooks for deep-sea or lake fishing, not smaller in size than number 2.0; bank, cod, pollock, and mackerel fish lines; and mackerel, herring, salmon, seal, seine, mullet, net and trawl twine in hanks or coil, barked or not, in variety of sizes and threads, including gilling thread in balls, and head ropes, barked marline, and net morsels of cotton, hemp, or flax, and deep-sea fishing nets or seines, when used exclusively for the fisheries, and not to include hooks, lines, or nets commonly used for sportsmen's purposes.
525. Flint, flints, and ground flint stones; feldspar, cliff, chalk, china or Cornwall stone, ground or unground; gravels; precious stones in the rough.
526. Florists' stock, viz: Palms, bulbs, corms, tubers, rhizomes araucaria, spiræa, and lilies of the valley; seedling stock for grafting, viz, plum, pear, peach, and other fruit trees; seeds, viz, annotto, beet, carrot, flax, turnip, mangold, mustard, sowing rape seed, and mushroom spawn; aromatic seeds which are not edible and are in a crude state, and not advanced in value or condition by grinding or refining or by any other process of manufacture, viz, anise, anise star, caraway, cardamom, coriander, cumin, fennel, and fenugreek; seed pease and seed beans from Britain; beans, viz, tonquin, vanilla, and nux vomica, crude only, locust beans and locust-bean meal, and cocoa beans, not roasted, crushed or ground; fruits, viz, bananas, plantains, pineapples, pomegranates, guavas, mangoes, and shaddocks; wild blueberries, wild strawberries, and wild raspberries; and trees, n. e. s.
527. Fossils, shells, tortoise and mother-of-pearl, and other shells, unmanufactured.
528. Foot grease, being the refuse of cotton seed after the oil has been pressed out, but not when treated with alkalies; and grease, rough, the refuse of animal fat for the manufacture of soap and oils only.
529. Fur skins of all kinds not dressed in any manner.
530. Goldbeaters' molds and goldbeaters' skins.
531. Gums, viz, amber, Arabic, Australian, copal, dammar, elemy, kaurie, mastic, sandarac, senegal, shellac; and white shellac in gum or flake, for manufacturing purposes; and gum tragacanth, gum gedda, and gum barbery.
532. Hair, cleaned or uncleaned, but not curled, dyed, or otherwise manufactured; and horsehair not further manufactured than simply cleaned and dipped or dyed, imported by manufacturers of hair cloth for use in the manufacture of such article in their own factories.
533. Hatters' furs, not on the skin, and hatters' plush of silk or cotton; and hatters' bands (not cords), bindings, tips and sides, hat sweats and linings both tips and sides, when imported by hat and cap manufacturers for use in the manufacture of these articles only in their own factories
534. Hemp, undressed.
535. Hemp paper, made on four-cylinder machines and calendered to between .006 and .008 inch thickness for the manufacture of shot shells; primers for shot shells and cartridges, and felt board sized and hydraulic pressed, and covered with paper or uncovered, for the manufacture of gun wads, when such articles are imported by manufacturers of shot shells, cartridges, and gun wads, to be used for these purposes only in their own factories, until such time as the said articles are manufactured in Canada; provided always that the said articles when imported, shall be entered only at such port or ports as are named by the controller of customs, and at no other place; samples of such articles to be furnished to the collector of the said port or ports by the customs department for the guidance of the officers when accepting free entries of such materials.
536. Hides and skins, raw, whether dry, salted, or pickled, and raw pelts.
537. Hoofs, horn strips, horn and horn tips, in the rough, not polished or otherwise manufactured than cleaned.
538. Hoop iron not exceeding ⅝ inch in width and being 25 gauge and thinner, used for the manufacture of tubular rivets.
539. Ice.
540. Indian corn, not for purposes of distillation, and under customs regulations.
541. Ingot molds, iron sand or globules or iron shot, and dry putty for polishing glass or granite.
542. Iron or steel masts, or parts thereof, and iron or steel beams, angles, sheets, plates, knees, and cable chain for wooden, iron, steel, or composite ships and vessels; and iron, steel, or brass manufactures which at the time of their importation are of a class or kind not manufactured in Canada, when imported for use in the construction or equipment of ships or vessels.
543. Ivory and ivory nuts, piano-key ivories, and veneers of ivory unmanufactured.
544. Junk, old.
545. Jute and jute butts; and jute cloth, as taken from the loom, not colored, cropped, mangled, pressed, calendered, nor finished in any way.
546. Jute, flax or hemp yarn, plain, dyed or colored, jute canvas, not pressed or calendered, when imported by the manufacturers of carpets, rugs, and mats, jute webbing or jute cloth, hammocks, twines, and floor oilcloth, for use in the manufacture of any of these articles only, in their own factories.
547. Lampblack and ivory black.
548. Lastings, mohair cloth, or other manufactures of cloth, when imported by manufacturers of buttons for use in their own factories, and woven or made in patterns of such size, shape or form, or cut in such manner as to be fit for covering buttons, exclusively. These conditions to be ascertained by special examination by the proper officer of customs, and so certified on the face of each entry.
549. Leeches
550. Lime juice, crude only.
551. Locomotive and car wheel tires of steel in the rough.
552. Meerschaum, crude or raw.
553. Metal glove fasteners; papier-maché shoe buttons, shoe eyelets, shoe-eyelet hooks, shoelace wire fasteners, and sewing-machine attachments.
554. Mineral waters, natural, not in bottle, under regulations prescribed by the controller of customs.
555. Machinery imported exclusively for mining, smelting, and reducing, viz.: Coal-cutting machines, except percussion coal cutters, coal-heading machines, coal augers and rotary coal drills, core drills, miners' safety lamps, coal-washing machinery, coke-making machinery, ore-drying machinery, ore-roasting machinery, electric or magnetic machines for separating or concentrating iron ores, blast-furnace water jackets, converters for metallurgical processes in iron or copper, briquette-making machines, ball and rock emery grinding machines, copper plates, plated or not, machinery for extraction of precious metals by the chlorination or cyanide processes, monitors,

SCHEDULE B.—FREE GOODS—Continued.

giants and elevators for hydraulic mining, amalgam safes, automatic ore samplers, automatic feeders, jigs, classifiers, separators, retorts, buddles, vanners, mercury pumps, pyrometers, bullion furnaces, amalgam cleaners, gold-mining slime tables, blast-furnace blowing engines, wrought-iron tubing, butt or lap welded, threaded or coupled or not, not less than 2½ inches diameter, when imported for use exclusively in mining, smelting, reducing, or refining.

556. Nickel, and ores of metal of all kinds, and silex or crystallized quartz.
557. Oakum.
558. Oils, viz: Cocoanut and palm, in their natural state; and carbolic or heavy oil; oil of roses and ottar or attar of roses, and olive oil for manufacturing soap or tobacco, or for canning fish.
559. Oil cake and oil-cake meal, cotton-seed cake and cotton-seed meal, and palm-nut cake and meal.
560. Oysters, seed and breeding, imported for the purpose of being planted in Canadian waters.
561. Oleo-stearin and degras.
562. Palm leaf, unmanufactured.
563. Plaits, plain, not to include braid or fancy trimmings, composed of chip, manila, cotton, mohair, straw, tuscan and grass.
564. Platinum wire and platinum in bars, strips, sheets, or plates; platinum retorts, pans, condensers, tubing and pipe, when imported by manufacturers of sulphuric acid for use in their works in the manufacture or concentration of sulphuric acid.
565. Potash, muriate and bichromate of, crude, caustic potash, and red and yellow prussiate of potash; also pot and pearl ash, in packages of not less than 25 pounds weight.
566. Prunella.
567. Pumice and pumice stone, ground or unground.
568. Quicksilver.
569. Quills in their natural state or unplumed.
570. Rags of cotton, linen, jute, hemp, and woolen, paper waste clippings, and waste of any kind except mineral.
571. Rennet, raw and prepared.
572. Ribs of brass, iron, or steel, runners, rings, caps, notches, ferrules, mounts, and sticks or canes in the rough, or not further manufactured than cut into lengths suitable for umbrella, parasol, or sunshade or walking sticks, when imported by manufacturers of umbrellas, parasols, and sunshades for use in their factories in the manufacture of umbrellas, parasols, sunshades, or walking sticks.
573. Rubber and gutta-percha, crude caoutchouc or india rubber, unmanufactured; powdered rubber and rubber waste; hard rubber in sheets, but not further manufactured, and recovered rubber and rubber substitute.
574. Rolled round wire rods in the coil, of iron or steel, not over three-eighths of an inch in diameter, when imported by wire manufacturers for use in making wire in the coil, in their own factories.
575. Rubber thread, elastic.
576. Reeds, square or round, and raw-hide centers, textile leather or rubber heads, thumbs and tips, and steel, iron, or nickel caps for whip ends, when imported by whip manufacturers, for use in the manufacture of whips in their own factories.
577. Rollers, copper, for use in calico printing, when imported by calico printers for use in their factories in the printing of calicoes and for no other purpose (such rollers not being manufactured in Canada).
578. Astrakhan or Russian hare skins and China goat plates or rugs, wholly or partially dressed, but not dyed.
579. Salt, imported from the United Kingdom or any British possession, or imported for the use of the sea or gulf fisheries.
580. Sausage skins or casings, not cleaned.
581. Scrap iron or scrap steel, old and fit only to be remanufactured, being part of or recovered from any vessel wrecked in waters subject to the jurisdiction of Canada.
582. Silk, raw or as reeled from the cocoon, not being doubled, twisted, or advanced in manufacture in any way; silk cocoons and silk waste.
583. Silk in the gum or spun, when imported by manufacturers of silk underwear to be used for such manufacture in their own factories.
584. Silver, nickel and german, in ingots, blocks, bars, strips, sheets or plates, unmanufactured.
585. Steel rails weighing not less than 45 pounds per linear yard for use only in the tracks of a railway which is employed in the common carrying of goods and passengers and is operated by steam motive power only; provided that this item shall not extend to rails for tracks of a railway which is used for private purposes only, nor shall this item extend to rails for use in the tracks of any electric railway, street railway, or tramway.
586. Soda, sulphate of, crude, known as salt cake, barilla or soda ash, caustic soda; silicate of soda in crystals or in solution; bichromate of soda, nitrate of soda or cubic niter, sal soda, sulphide of sodium, nitrite of soda, arseniate, binarseniate, chloride, chlorate, bisulphite, and stannate of soda.
587. Spurs and stilts, used in the manufacture of earthenware.
588. Steel bowls for cream separators, and cream separators.
589. Steel saws and straw cutters cut to shape, but not further manufactured.
590. Crucible sheet steel, 11 to 16 gauge, 2½ to 18 inches wide, for the manufacture of mower and reaper knives, when imported by the manufacturers thereof for use for such purpose in their own factories.
591. Steel of No. 20 gauge and thinner, but not thinner than No. 30 gauge, for the manufacture of corset steels, clock springs, and shoe shanks, when imported by the manufacturers of such articles for exclusive use in the manufacture thereof in their own factories.
592. Flat steel wire, of No. 16 gauge or thinner, when imported by the manufacturers of crinoline or corset wire and dress stays, for use in the manufacture of such articles in their own factories.
593. Steel valued at 2½ cents per pound and upward, when imported by the manufacturers of skates, for use exclusively in the manufacture thereof in their own factories.
594. Steel, under one-half inch in diameter, or under one-half inch square, when imported by the manufacturers of cutlery, or of knobs, or of locks, for use exclusively in the manufacture of such articles in their own factories.
595. Steel of No. 12 gauge and thinner, but not thinner than No. 30 gauge, for the manufacture of buckle clasps, bed fasts, furniture casters, and ice creepers, when imported by the manufacturers of such articles, for use exclusively in the manufacture thereof in their own factories.
596. Steel of No. 24 and 17 gauge, in sheets 63 inches long and from 18 to 32 inches wide, when imported by the manufacturers of tubular bow sockets for use in the manufacture of such articles in their own factories.

Digitized by Google

SCHEDULE B.—FREE GOODS—Continued.

597. Steel for the manufacture of bicycle chain, when imported by the manufacturers of bicycle chain for use in the manufacture thereof in their own factories.
598. Steel for the manufacture of files, augers, anger bits, hammers, axes, hatchets, scythes, reaping hooks, hoes, hand rakes, hay or straw knives, windmills, and agricultural or harvesting forks, when imported by the manufacturers of such or any of such articles for use exclusively in the manufacture thereof in their own factories.
599. Steel springs for the manufacture of surgical trusses, when imported by the manufacturers for use exclusively in the manufacture thereof in their own factories.
600. Flat spring steel, steel billets, and steel axle bars, when imported by manufacturers of carriage springs and carriage axles for use exclusively in the manufacture of springs and axles for carriages or vehicles other than railway or tramway, in their own factories.
601. Spiral spring steel for spiral springs for railways, when imported by the manufacturers of railway springs for use exclusively in the manufacture of railway spiral springs in their own factories.
602. Steel strip and flat steel wire when imported into Canada by manufacturers of buckthorn and plain strip fencing, for use in the manufacture of such articles in their own factories; and barbed fencing wire of iron or steel after January 1, 1898.
603. Galvanized iron or steel wire No. 9, 12, and 13 gauge, after January 1, 1898.
604. Stereotypes, electrotypes, and celluloids of newspaper columns in any language other than French and English, and of books and bases and matrices and copper shells for the same whether composed wholly or in part of metal or celluloid.
605. Surgical and dental instruments (not being furniture) and surgical needles, after January 1, 1898.
606. Tagging metal, plain, japanned or coated, in coils, not over 1½ inches in width, when imported by manufacturers of shoe and corset laces for use in their factories.
607. Tails, undressed.
608. Tea and green coffee imported direct from the country of growth and production, and tea and green coffee purchased in bond in the United Kingdom, provided there is satisfactory proof that the tea or coffee so purchased in bond is such as might be entered for home consumption in the United Kingdom.
609. Teasels.
610. Tin, in blocks, pigs, bars, and sheets, tin plates, tin crystals, tin strip waste, and tin foil, tea lead.
611. Timber or lumber or wood, viz: Lumber and timber planks and boards of amaranth, cocoboral, boxwood, cherry, chestnut, walnut, gum wood, mahogany, pitch pine, rosewood, sandalwood, sycamore, Spanish cedar, oak, hickory, whitewood, African teak, blackheart ebony, lignum-vitæ, red cedar, redwood, satinwood, and white ash, when not otherwise manufactured than rough sawn or split or creosoted, vulcanized or treated by any other preserving process; sawed or split boards, planks, deals, and other lumber when not further manufactured than dressed on one side only of creosoted, vulcanized, or treated by any preserving process; pine and spruce clapboards; timber or lumber hewn or sawed, squared or sided or creosoted; laths, pickets, and palings; staves not listed or jointed of wood of all kinds; firewood, handle, heading, stave, and shingle bolts, hop poles, fence posts, railroad ties; hubs for wheels, posts, last blocks, wagon, oar, gun, heading, and all like blocks or sticks rough hewn, or sawed only; fellies of hickory wood, rough sawn to shape only, or rough sawn and bent to shape, not planed, smoothed or otherwise manufactured; hickory billets and hickory lumber, sawn to shape for spokes of wheels, but not further manufactured; hickory spokes, rough turned, not tenoned, mitered, throated, faced, sized, cut to length, round tenoned or polished; shingles of wood; the wood of the persimmon and dogwood trees; and logs and round unmanufactured timber, ship timber or ship planking, not specially enumerated or provided for in this act.
612. Shovel handles, wholly of wood and Mexican saddletrees and stirrups of wood.
613. Cork wood, or cork bark, unmanufactured.
614. Sawdust of the following woods: Amaranth, cocoboral, boxwood, cherry, chestnut, walnut, gum wood, mahogany, pitch pine, rosewood, sandalwood, sycamore, Spanish cedar, oak, hickory, whitewood, African teak, blackheart ebony, lignum-vitæ, red cedar, redwood, satinwood, white ash, persimmon, and dogwood.
615. Treenails.
616. Tobacco, unmanufactured, for excise purposes, under conditions of the inland revenue act.
617. Tubes, rolled iron not welded or joined, under 1½ inches in diameter, angle iron 9 and 10 gauge not over 1½ inches wide, iron tubing lacquered or brass covered, not over 1½ inches in diameter, all of which are to be cut to lengths for the manufacture of bedsteads, and to be used for no other purpose, and brass trimmings for bedsteads, when imported by or for manufacturers of iron or brass bedsteads to be used for such purposes only in their own factories, until such time as any of the said articles are manufactured in Canada.
618. Turpentine, raw or crude.
619. Turtles.
620. After January 1, 1898, binders' twine, or twine for harvest binders, of hemp, jute, manila or sisal, and of manila and sisal mixed, and all articles upon which duties are levied which enter into the cost of the manufacture of such twine, under regulations to be made by the controller of customs.
621. Ultramarine blue, dry or in pulp.
622. Varnish, black and bright, for ships' purposes.
623. Whalebone, unmanufactured.
624. Whiting or whitening, paris white and gilders' whiting, blanc fixe and satin white.
625. Wire, crucible cast steel.
626. Wire rigging for ships and vessels.
627. Wire, of brass, zinc, iron, or steel, screwed or twisted, or flattened or corrugated, for use in connection with nailing machines for the manufacture of boots and shoes, when imported by manufacturers of boots and shoes, to be used for such purposes only in their own factories.
628. Steel wire, bessemer soft drawn spring, of Nos. 10, 12, and 13 gauge, respectively, and homo steel spring wire of Nos. 11 and 12 gauge, respectively, when imported by manufacturers of wire mattresses, to be used in their own factories in the manufacture of such articles.
629. Wool and the hair of the camel, alpaca, goat, and other like animals, not further prepared than washed, n. e. s.; noils, being the short wool which falls from the combs in worsted factories: and worsted tops, n. e. s.
630. Wool or worsted yarns, when genapped, dyed, or finished and imported by manufacturers of braids, cords, tassels, and fringes to be used in the manufacture of such articles only in their own factories.

Digitized by Google

SCHEDULE B.—FREE GOODS—Continued.

631. Yarn spun from the hair of the alpaca or of the angora goat, when imported by manufacturers of braids for use exclusively in their factories in the manufacture of such braids only, under such regulations as are adopted by the controller of customs.
632. Yellow metal, in bolts, bars, and for sheathing.
633. Zinc spelter and zinc in blocks, pigs, sheets, and plates; and seamless drawn tubing.
634. Molasses, second process, or molasses derived from the manufacture of "molasses sugar," testing by polariscope less than 35°, when imported by manufacturers of blacking, for use in their own factories, in the manufacture of blacking, conditional that the importers shall, in addition to making oath at the time of entry that such molasses is imported for such use and will not be used for any other purpose, cause such molasses to be at once mixed in a proper tank made for the purpose with at least one-fifth of the quantity thereof of cod or other oil, whereby such molasses may be rendered unfit for any other use, such mixing to be done in the presence of a customs officer at the expense of the importer, and under such further regulations as are from time to time considered necessary in the interest and for the protection of the revenue, and that until such mixing is done and duly certified on the face of the entry thereof by such customs officer the entry shall be held to be incomplete and the molasses subject to the usual rate of duty as when imported for any other purpose.
635. Bags, barrels, boxes, casks, and other vessels exported filled with Canadian products, or exported empty and returned filled with foreign products; and articles the growth, produce, and manufacture of Canada, when returned after having been exported; provided that proof of the identity of such articles and goods shall be made under regulations to be prescribed by the controller of customs, and that such articles and goods are returned within three years from time of exportation, without having been advanced in value or improved in condition by any process of manufacture or other means; provided further that this item shall not apply to any article or goods upon which an allowance of drawback has been made, the reimportation of which is hereby prohibited except upon payment of duties equal to the drawback allowed; nor shall this item apply to any article or goods manufactured in customs or excise bonded warehouse and exported under any provision of law.

SCHEDULE C.—PROHIBITED GOODS.

636. Books, printed paper, drawings, paintings, prints, photographs, or representations of any kind of a treasonable or seditious, or of an immoral or indecent character.
637. Reprints of Canadian copyright works, and reprints of British copyright works which have been copyrighted in Canada also.
638. Coin, base or counterfeit.
639. Oleomargarine, butterine, or other similar substitute for butter.
640. Tea adulterated with spurious leaf or with exhausted leaves, or containing so great an admixture of chemical or other deleterious substances as to make it unfit for use.
641. Goods manufactured or produced wholly or in part by prison labor, or which have been made within or in connection with any prison, jail, or penitentiary; also goods similar in character to those produced in such institutions, when sold or offered for sale by any person, firm, or corporation having a contract for the manufacture of such articles in such institutions, or by any agent of such person, firm, or corporation, or when such goods were originally purchased from or transferred by any such contractor.

SCHEDULE D.—BRITISH PREFERENTIAL TARIFF.

On articles entitled to the benefit of this preferential tariff under section 17, the duties mentioned in Schedule A shall be reduced as follows: The reduction shall be one-fourth of the duty mentioned in Schedule A, and the duty to be levied, collected, and paid shall be three-fourths of the duty mentioned in Schedule A.

Provided, however, that this reduction shall not apply to any of the following articles, and that such articles shall in all cases be subject to the duties mentioned in Schedule A, viz: Wines, malt liquors, spirits, spirituous liquors, liquid medicines and articles containing alcohol, tobacco, cigars, and cigarettes.

Provided further that the reduction shall only apply to refined sugar when evidence satisfactory to the minister of customs is furnished that such refined sugar has been manufactured wholly from raw sugar produced in the British colonies or possessions.

8. Except as herein otherwise provided this act shall be held to have come into force on the 6th day of April, in the present year, 1898.

# NEWFOUNDLAND.[1]

## CUSTOMS TARIFF OF 1898.

### DRAWBACKS.

There shall be a drawback allowed upon tobacco manufactured in this colony, when such tobacco shall be exported from this colony, at the rate of 21 cents per pound of such tobacco exported as aforesaid: *Provided*, That such drawback shall not be allowed upon any quantity of tobacco so exported at any one time less than 500 pounds. No drawback shall be allowed or payable on tobacco stems exported from this colony.

There shall be allowed to any blacksmith or worker in iron a drawback to the amount of any duties that may have been paid upon any iron, which shall be used by him in the manufacture in this colony of anchors, grapnels, pick-axes, horse-shoes, slide-shoes, wrought-iron blocks, block-straps, thimbles, luff hooks, clip hooks, shackles, iron railings, plain or galvanized, or iron rivets, upon the production of affidavits sworn to by the said blacksmith and satisfactory to the receiver general, and setting forth the amount of duties which have been paid on the said iron, and that the said iron has been actually and bona fide used by him in the manufacture of the said articles.

[1] From an official printed copy.

Digitized by Google

There shall be allowed to any printer a drawback to the amount of any duties that may have been paid on any paper actually printed upon in this colony, upon the production of affidavits satisfactory to the receiver general, setting forth the amount of duties which have been paid thereon, and that the said paper has been actually and bona fide printed upon in this colony.

There shall be allowed a drawback upon biscuit manufactured in this colony from flour imported, on which duty has been paid at the customs, when such biscuit shall be exported from this colony, at the rate of 17 cents per hundredweight of such biscuit exported as foresaid: *Provided*, That such drawback shall not be allowed on any quantity of biscuit so exported at any one time less than 100 bags.

Upon all ale, porter, bavarian or botanic beer manufactured in this colony, and upon which the duty hereinbefore imposed shall have been paid, and which may be exported from this colony, there shall be paid to the exporter thereof the sum of 5 cents per gallon by way of drawback, upon conformity with the requisition of the governor in council.

There shall be a drawback allowed on all native berries and herring, and other edible fish, excepting lobsters and trout packed in cans, per 96 pounds exported; if packed in 1-pound cans, 20 cents per 96 pounds; if packed in 2-pound cans, 15 cents per 96 pounds; if packed in larger cans, 10 cents per 96 pounds.

There shall be a drawback allowed on all native edible fish when packed in quarters or halves (sardine cans) of 35 cents per 100 pounds of fish exported.

It shall be lawful for the governor in council to remit the whole or any portion of the duties imposed by this act upon salt, port or other wines, currants, or other articles imported direct from the country of production into this colony, when it shall appear to him that the duty on codfish, the product of this colony, imported into such country has been or will be reciprocally reduced.

There shall be a drawback, equal to the amount of duty paid, allowed on packages for the export of cod-liver oil, under rules and regulations to be made by the governor in council.

There shall be a drawback allowed on drugs for the manufacture of emulsions of cod-liver oil, under rules and regulations to be made by the governor in council.

There shall be a drawback upon unbleached calico, used in the manufacture of oiled clothes in this colony by manufacturers thereof, equal to one-third of the duty paid on such unbleached calico, under rules and regulations to be made by the governor in council.

### REMISSION OF DUTY ON FISH.

The duty hereinbefore provided to be levied upon fish is subject to the following proviso, namely: *Provided*, That the governor may, by proclamation published in the Royal Gazette, remit, as he may deem equitable, the whole or any part of the duty imposed on fish imported into this colony from countries making such changes or reduction in their tariff with respect to fish, the produce of fish, or other articles exported from this colony to such countries.

### EXTRA DUTIES.

In addition to the duties hereinbefore provided to be raised, levied, collected, and paid on goods, wares, and merchandise imported into this colony, there shall be raised, levied, collected, and paid on the goods, wares, and merchandise hereinafter in this section mentioned, imported into this colony from countries the fishermen of which have the privilege of taking codfish upon all parts of the coast of Newfoundland and its dependencies, and in which countries duties are or hereafter shall be levied upon fish, or the produce of the fisheries, exported from this colony or its dependencies to such countries, the following rates, viz:

| | | |
|---|---|---|
| Flour | per barrel | $0.75 |
| Pork | do | .75 |
| Butter | per 100 pounds | .75 |
| Tobacco | do | 5.00 |
| Kerosene oil | per gallon | .05 |
| Corn meal | per barrel | .25 |
| Hay | per ton | 5.00 |
| Oats | per bushel | .10 |
| Potatoes | do | .25 |
| Turnips | do | .25 |
| Cabbages | per dozen heads | .40 |

Unenumerated vegetables, 30 per cent ad valorem.

*Provided always*, That the governor in council may, at any time when it shall be made to appear to him to be for the interest of this colony, by proclamation to be published in the Royal Gazette, suspend the operation of this clause for a limited period, the duration of such period to be stated in the said proclamation, in respect of all or any of the above-mentioned articles.

EXPORT DUTY ON HERRING.

In case of any country now imposing, or which may hereafter impose an import duty on herrings exported from this colony and imported into such country in vessels belonging to this colony, when such herring may be imported into such country in vessels belonging to the same free of such duty, the governor in council may by proclamation impose an export duty equal to the amount of duty so imposed by such country aforesaid on herring exported from this colony in vessels belonging to such country where such import duty is imposed.

* * * * * * *

ENTRY OF NEAT CATTLE.

At the time of entering neat cattle, subject to an ad valorem duty by this act, the importer or known agent thereof shall, at the time of such entry, pay a sum as duty to be calculated upon the valuation of $40 for each of such cattle: *Provided always*, That within fourteen days after the landing of such cattle the said importer, or his authorized agent, shall, if in the meantime the same shall have been realized by public auction or private sale, produce the original account sales thereof, and answer all such questions respecting the same as the receiver general, assistant collector, or other proper officer may propose, on oath (if required), who are hereby authorized to administer the same; and if, upon such examination, it shall appear to either of the said officers that the amount of value exceeds that for which the said cattle were first entered, the importer, or known agent, shall then pay by post entry the amount of duty that may exceed the original duty paid on the same; or, if the value should be less, the surplus duty received shall be returned by certificate of over entry to the said importer or known agent; and if such importer or known agent shall refuse to produce the account sales at the time aforesaid, or produce any other than the true account, or alter the same, or refuse to answer upon oath such questions as aforesaid, or to answer them truly, or to pay the additional duty (if any) due as aforesaid, such importer or known agent shall forfeit in any case aforesaid the sum of $400; and should the said cattle not have been disposed of within the time aforesaid, or appraised as hereinafter provided, the duty already paid thereon shall be detained, and deemed to be the true duty: *Provided also*, That one day's notice in writing of the intended sale at auction, as aforesaid, be given to the receiver general, assistant collector, or other proper officer: *Provided further*, That when the said cattle so imported are not intended for immediate sale, the duty payable thereon shall be ascertained at the time of landing by appraisement at their value in the place where imported, one appraiser to be appointed by the receiver general, assistant collector, or other proper officer, as aforesaid, and one other by the importer or his authorized agent; and should the said parties disagree, they shall appoint a third appraiser, the appraisement of any two of whom shall be final and binding; and in the event of said importer or agent neglecting or refusing to appoint an appraiser at the time aforesaid, it shall be lawful for the receiver general, assistant collector, or other proper officer to appoint an appraiser to act for the said importer, by whose appraisement, with the other or others aforesaid, the said importer or agent shall be bound, and shall also be subject to the same regulations and penalties as hereinbefore provided; and the said importer or known agent shall, at the time of entry aforesaid, deposit with the receiver general, assistant collector, or other proper officer aforesaid, the sum of $6 to meet the expenses of appraisement aforesaid, any part of which said sum unexpended shall be returned to the said importer or known agent.

DUTY ON NEAT CATTLE.

The duty imposed upon neat cattle by this act shall be levied, collected, and paid upon the proceeds of sale appearing upon the production of the original account sales, when such cattle shall have been sold, or upon the appraised value as hereinbefore provided, after deducting the amount of freight of any such cattle in either case.

PACKAGES.

Packages shall be subject to the following provisions:

(*a*) All bottles, flasks, jars, demijohns, carboys, casks, hogsheads, pipes, barrels, and all other vessels or packages manufactured of tin, iron, lead, zinc, glass, or any other material capable of holding liquids, and all packages in which goods are commonly placed for home consumption, including cases, not otherwise provided for, in which

Digitized by Google

bottled spirits, wines, or malt liquors or other liquids are contained; and every package being the first receptacle or covering inclosing goods for the purpose of sale, shall in all cases, not otherwise provided for, in which they contain goods subject to an ad valorem duty or a specific and ad valorem duty, be charged with the same rate of ad valorem duty as is to be levied and collected on the goods they contain, except when the value of the packages is included in the value of such goods.

(*b*) All such packages as aforesaid containing goods subject to a specific duty only, and not otherwise provided for, shall be charged with a duty of 20 per cent ad valorem, except when the value of the package is included in the value of the goods.

(*c*) Packages not hereinbefore specified and not herein specially charged with or declared liable to duty, and being the usual and ordinary packages in which goods are packed for exportation, according to the general usage and custom of trade, shall be free of duty.

(*d*) All such special packages or coverings as are of any use or apparently designed for use other than in the importation of the goods they contain (not otherwise provided) shall be subject to the same rate of duty as would thereon be levied if imported empty or separate from their contents.

(*e*) Packages (inside or outside) containing free goods shall be exempt from duty when the packages are of such a nature that their destruction is necessary in order to release the goods.

DUTIES PAYABLE IN NEW-FOUNDLAND CURRENCY.

All sums of money payable under this act as duties, penalties, or forfeitures shall be deemed and are hereby declared to be in dollars and cents, Newfoundland currency, and shall be received, taken, and paid in such currency; and all such duties shall be paid and received according to imperial weights and measures by law established in this colony; and in all such cases where such duties are imposed, according to any specific quantity or value, the same shall apply in like proportion to any greater or less quantity or value.

* * * * * * *

WINES, SPIRITS, ETC.

In the case of all wines, spirits, or alcoholic liquors subject to duty according to their relative strength of proof, such strength shall be ascertained either by means of Syke's hydrometer or of the specific gravity bottle, as the receiver-general directs; and in case such relative strength can not be correctly ascertained by the direct use of the hydrometer or gravity bottle, it shall be ascertained by the distillation of a sample, and the subsequent test in like manner of the distillate.

MEDICINAL AND TOILET PREPARATIONS.

All medicinal preparations, whether chemical or other, usually imported with the name of the manufacturer, shall have the true name of such manufacturer and the place where they are prepared, and the word "alcoholic" or "nonalcoholic" permanently and legibly affixed to each parcel by stamp, label, or otherwise; and all medicinal preparations imported without such names and word so affixed may be forfeited.

* * * * * * *

GOODS FOR MANUFACTURING PURPOSES.

With respect to goods imported for manufacturing purposes that are admissible under this act for any specific purposes at a lower rate of duty than would otherwise be chargeable, or exempt from duty, the importer claiming such exemption from duty, or proportionate exemption from duty, shall make and subscribe to the following affidavit or affirmation before the collector of customs at the port of entry, or before a notary public or a commissioner for taking affidavits:

"I (name of importer), the undersigned, importer of the (names of the goods or articles) mentioned in this entry, do solemnly (swear or affirm) that such (names of the goods or articles) are imported by me for the manufacture of (names of the goods to be manufactured) in my own factory, situated at (name of the place), and that no portion of the same will be used for any other purpose or disposed of until so manufactured."

| No. | Article. | Unit. | Rate. |
|---|---|---|---|
| | *Manufactures*—Continued. | | |
| 191 | Wood, manufactures of, viz —Continued. | | |
| | Pails and tubs of wood, churns, washboards, pounders, rolling-pins, moldings of wood, plain, gilded or otherwise manufactured, fishing rods of all kinds, walking sticks and walking canes of all kinds. | Ad valorem | 35 p. c. |
| | Coffins and caskets | do | 35 p. c. |
| | Metal parts of coffins and caskets for use by manufacturers | do | 20 p. c. |
| | Show cases | do | 35 p. c. |
| | Metal parts thereof | do | 20 p. c. |
| | Window cornices and cornice poles of all kinds | do | 35 p. c. |
| | Any other manufactures of wood, n. e. s | do | 35 p. c. |
| | Trunks and valises, in part or in whole of wood | do | 40 p. c. |
| | Hoops for masts | do | 20 p. c. |
| | Rushes, for coopers' use | do | 20 p. c. |
| | Hoops for coopers | do | 35 p. c. |
| 192 | Zinc and manufactures of zinc, n. e. s | do | 30 p. c. |
| | *Raw material, etc.* | | |
| 193 | Anchors, coil chain, coil chain links, and chain shackles | Ad valorem | 10 p. c. |
| 194 | Belting of leather or other material for machinery | do | 10 p. c. |
| 195 | Blocks for ships and block sheaves | do | 40 p. c. |
| 196 | Brin, known as "Bread bag brin," when imported by local manufacturers of bread or rope in which to inclose their manufactures. | do | 10 p. c. |
| 197 | Broom handles | do | 20 p. c. |
| 198 | Canvas known as sail and tarpaulin, canvas of hemp, cotton or flax. | do | 5 p. c. |
| 199 | Cast-iron pipes | do | 30 p. c. |
| 200 | Cement, viz: Portland, Roman, and hydraulic water lime, in bags, barrels or casks. | do | 20 p. c. |
| 201 | Chemicals and paper, when imported by manufacturers of matches for the manufacture of matches. | do | 20 p. c. |
| 202 | Cotton batts, batting and sheet wadding, cotton warps and cotton yarns, dyed or not, n. e. s. | do | 30 p. c. |
| 203 | Cotton fabrics, white or gray, bleached or unbleached, n. e. s | do | 30 p. c. |
| 204 | Cotton fabrics, printed, dyed, or colored, n. e. s | do | 30 p. c. |
| 205 | Cotton duck, colored or striped | do | 30 p. c. |
| 206 | Copper and composition metal, including sheets, bars, bolts, sheathing paper, and nails of copper or composition, n. e. s. | do | 20 p. c. |
| 207 | Copper paint | do | 30 p. c. |
| 208 | Cordage of all kinds, n. e. s | Per pound | $0.01½ |
| 209 | Corks and cork wood | Ad valorem | 10 p. c. |
| 210 | Curling stones and fittings for | do | 30 p. c. |
| 211 | Diving apparatus | do | 10 p. c. |
| 212 | Dories and dory oars | do | 20 p. c. |
| 213 | Dyes of all kinds, n. e. s | do | 30 p. c. |
| 214 | Explosives, viz: | | |
| | Blasting and mining powder, nitroglycerin, giant powder, nitro and other explosives, n. e. s. | do | 30 p. c. |
| | Cannon, musket, rifle, gun, and sporting powder, and cannister powder. | do | 30 p. c. |
| 215 | Findings for boots and shoes when imported by boot and shoe makers, viz, eyelets, hooks, linings, silk twist, machine thread, cotton, nails, counters, elastic webb, sandpaper, buttons, glue, tacks, wire, cardboard, paper, dressing, box toe tips, steel and wooden shanks, beeswax, buttons and fasteners, gum, pegs and peg wood, lasts, patterns, heel plates, and crimp irons. | do | 25 p. c. |
| 216 | Fishhooks, not including hooks or fly hooks for anglers | do | 1 p. c. |
| 217 | Flagstones and all other building stone dressed, n. e. s | do | 30 p. c. |
| 218 | Flannels, serges, n. e. s., swanskins, kerseys | do | 30 p. c. |
| 219 | Forgings of iron or steel, of whatever shape or size, or in whatever stage of manufacture: | | |
| | When weighing under 5 cwt | do | 30 p. c. |
| | When weighing over 5 cwt | do | 10 p. c. |
| 220 | Freestone, flagstone, sandstone, and all building stone, not hammered or dressed, and marble and granite rough, not hammered or dressed. | do | 30 p. c. |
| 221 | Galvanized iron, in bolts, bars, strips, or sheets, n. e. s | do | 10 p. c. |
| 222 | Grindstones | do | 30 p. c. |
| 223 | Hair, curled or dyed | do | 30 p. c. |
| 224 | Heading, for coopers' use, dressed or partly dressed | Per pair | .05 |
| 225 | Hoop iron and steel strips, for making hoops, n. e. s | Ad valorem | 5 p. c. |
| | Punched, splayed or nosed, over 68 inches in length | do | 5 p. c. |
| 226 | Iron of all kinds, in bolts, bars, sheets, plates, and pieces, n. e. s | do | 10 p. c. |
| 227 | Iron and steel railway bars, or rails of any form, punched or not | do | 30 p. c. |
| 228 | Iron or steel bridges, or parts thereof; iron or steel structural work, columns, girders, shapes, or sections. | do | 20 p. c. |
| 229 | Iron or steel pipe or tubing, plain or galvanized, riveted, or corrugated, or otherwise specially manufactured, n. e. s. | do | 20 p. c. |
| 230 | Iron or steel fittings, for iron or steel pipe, of every description | do | 30 p. c. |
| 231 | Lampblack and ivory black | do | 30 p. c. |
| 232 | Leather, known as "sole leather" | do | 20 p. c. |

| | *Raw material, etc.*—Continued. | | |
| 233 | Leather, viz: | | |
| | Glove grain, boot grain, oil grain, buff, split, imitation goat, polished pebble, and waxed calf, when bark tanned. | Ad valorem | 30 p. c. |
| | All other upper leathers, n. e. s | do | 20 p. c. |
| | Harness leather, n. e. s | do | 25 p. c. |
| | Japanned, patent, or enameled leather | do | 20 p. c. |
| | Chamois skins, and morocco leather, n. e. p | do | 25 p. c. |
| 234 | Leather, rough, undressed, when imported by tanners for further dressing. | do | 10 p. c. |
| 235 | Lines, known as fishing lines, and not including sporting tackle | do | 15 p. c. |
| 236 | Leather board, leatheroid, and manufactures thereof, n. e. s | do | 30 p. c. |
| 237 | Lime (oxide of calcium) | Per bushel | $0.15 |
| 238 | Limestone | Per ton | .50 |
| 239 | Marble, granite, and freestone, sawn only, n. e. s | Ad valorem | 30 p. c. |
| 240 | Marble, freestone, and granite, n. e. s., and all manufactures of marble, freestone, or granite, n. e. s. | do | 50 p. c. |
| 241 | Marline for making lobster pots | do | 10 p. c. |
| 242 | Mast pieces and spars dressed, or partly dressed, 60 feet or over in length, n. e. s. | do | 20 p. c. |
| 243 | Mast pieces and spars, dressed or partly dressed, under 60 feet in length, n. e. s. | do | 30 p. c. |
| 244 | Mast pieces, undressed, including wharf shores 60 feet or over in length, n. e. s. | Per ton | 1.20 |
| 245 | Mast pieces undressed, including wharf shores, under 60 feet in length, n. e. s. | do | 2.40 |
| 246 | Mosaic flooring of any material | Ad valorem | 35 p. c. |
| 247 | Nets, netting, traps, and seines, for use in sea and salmon fisheries | do | 20 p. c. |
| 248 | Oakum | Per pound | .01 |
| 249 | Paints and colors dry and whiting and chalk | Ad valorem | 30 p. c. |
| 250 | Paints and colors, ground in oils | do | 30 p. c. |
| 251 | Paints and colors, liquid, prepared for use | do | 40 p. c. |
| 252 | Paris green, dry | do | 20 p. c. |
| 253 | Pitch, viz, resin or rosin | do | 10 p. c. |
| 254 | Plaster of paris or gypsum, ground, manufactured, or calcined | do | 20 p. c. |
| 255 | Roofing slate | do | 35 p. c. |
| 256 | Saws, when used as a part of the original construction of mills and factories, and n. e. s. | do | 10 p. c. |
| 257 | Scythe and other sharpening stones | do | 20 p. c. |
| 258 | Shoemakers' ink, harness and leather dressing, harness soap | do | 20 p. c. |
| 259 | Slate mantels and other manufactures of slate, n. e. s | do | 35 p. c. |
| 260 | Slate pencils and school writing slates | do | 20 p. c. |
| 261 | Staves of oak, undressed | do | 5 p. c. |
| 262 | Staves of other woods, undressed | do | 25 p. c. |
| 263 | Staves, manufactured and dressed or partly manufactured and dressed. | Per 1,000 | 5.00 |
| 264 | Steel, mild, in bolts, bars, sheets, plates, and pieces, n. e. s | Ad valorem | 10 p. c. |
| 265 | Steel, known as "Blister steel," "chrome steel," and hard or cast | do | 30 p. c. |
| 266 | Steel shafting, turned compressed or polished, when measuring under 5 inches in diameter, n. e. s. | do | 30 p. c. |
| | When measuring over 5 inches in diameter, n. e. s | do | 10 p. c. |
| 267 | Stoppers for bottles, when imported by brewers, distillers, and manufacturers of aerated waters. | do | 10 p. c. |
| 268 | Tar, Stockholm, American, and coal tar, in barrels | do | 10 p. c. |
| 269 | Tar and tar mixtures, in cans, for roofing purposes, asphalt and asphaltum and like preparations. | do | 30 p. c. |
| 270 | Tin, in sheets and blocks and solder, n. e. s | do | 10 p. c. |
| | Stamped tin, paper, locks, hinges, and clamps, when imported by manufacturers of trunks for the manufacture of trunks. | do | 20 p. c. |
| 271 | Turpentine, spirits of | do | 10 p. c. |
| 272 | Tweeds, cloths, doeskins, felt cloth and fabrics, composed wholly or in part of wool, worsted, the hair of the alpaca goat or other like animal, n. e. s. | do | 30 p. c. |
| 273 | Twines, hemp or cotton, for fishery purposes, and known as genging, herring, caplin, mackerel, salmon twine, salmon trawl, seal twine and seal trawl. | do | 10 p. c. |
| 274 | Twines, for sail making, viz, hemp roping and seaming, and cotton sail twine. | do | 30 p. c. |
| 275 | Twines, n. e. s | do | 30 p. c. |
| 276 | Varnishes, lacquers, Japans, Japan driers, liquid driers, oil finish, British gum, dextrin, glue, sizing cream, and sizing of all kinds. | do | 30 p. c. |
| 277 | Women's and children's dress goods, coat linings, Italian cloths, alpaca, Orleans, cashmeres, Henriettas, Coburgs, serges, buntings, nuns' cloth, bengalines, whipcords, winceys, linseys, twills, plain or jacquard of similar fabrics, composed wholly or in part of wool, worsted, the hair of the camel, alpaca goat, or like animal, n. e. s. | do | 30 p. c. |
| 278 | Wrought iron or steel boiler tubes, including flues and corrugated tubes for marine boilers. | do | 10 p. c. |
| 279 | Wrought iron or steel tubing, plain or galvanized, threaded and coupled or not. | do | 10 p. c. |
| 280 | Yarns, woolen and worsted | do | 20 p. c. |

353. Books and supplements for periodicals, specially imported for the bona fide use of incorporated institutes, public libraries, libraries of colleges or schools, school books of all description, theological works, law books, medical works, books on the application of science to industries of all kinds, including books on agriculture, horticulture, forestry, fish and fishing, mining, metallurgy, architecture, electric and other engineering, carpentry, shipbuilding, mechanism, dyeing, bleaching, tanning, weaving, and other mechanic arts; Bibles, prayer books, psalm and hymn books, religious tracts, supplements and Sunday-school library books and lesson pictures; also specimens, models, and wall diagrams, illustrative of natural history and the sciences, imported for colleges, schools, and public libraries.

354. Books printed by any government, being official reports, or printed by any government or any association for the promotion of science or letters; official annual reports issued by religious, benevolent, or other societies, and not for the purpose of sale or trade; newspapers, and quarterly, monthly, and semimonthly magazines, and weekly library papers, unbound; Christmas annuals, or publications commonly known as juvenile and toy books, tailors', milliners', and mantle makers' fashion plates.

355. Books written by authors resident in Newfoundland and printed and bound outside of the colony.

356. Chair cane, or reeds of withrod, when imported in an unmanufactured state.

357. Clothing and books, donations of, for charitable purposes, and photographs sent by friends not intended for sale.

358. Coals, when not imported or brought into the ports of St. John, Harbor Grace, Carbonear, or Placentia.

359. Coin and bullion.

360. Copper, bitumen, naphtha, and iron oxide to be used by manufacturers in the manufacture of copper paint.

361. Corn for the manufacture of brooms and whisks.

362. Cotton yarn, raw cotton, and coke.

363. Cotton-seed oil, olive oil, boracic acid, acetic acid, preservaline, when imported by manufacturers to be used in the preserving of fish or fish glue.

364. Cranes, derricks, fire clay, fire brick, rock drills, rolling mills, crushing mills, separators, drill steel, machinery of every description for mining and smelting purposes, fuse and dynamite, when imported directly by persons engaged in mining, to be used in their mining operations and not for sale.

365. Fish of British catch and cure, and oil the produce of such fish (not to include preparations of cod-liver oil).

366. Globes, geographical, topographical, and astronomical maps and charts, for the use of schools; pictorial illustrations of insects or similar studies, when imported for the use of colleges, schools, and library associations; manuscripts and insurance maps.

367. Hemp, hemp yarn, coir yarn, sisal, manila, flax, and tow.

368. Hides, or pieces of hides, not tanned, curried, or dressed.

369. Hoop iron or hoop steel, splayed, punched, or nosed and cut in lengths not to exceed 68 inches, to be used in making herring barrels.

370. Indian corn.

371. Junk, old iron, old copper, and old composition metal.

372. Manures and fertilizers of all kinds.

373. Material for sheathing the bottoms of vessels, such as zinc, copper, and composition metal, together with nails and paper or felt which may be used for or under such sheathing when used for sheathing vessels, under regulations to be made by the governor in council.

374. Music, written.

375. Oil cake, oil-cake meal, cotton seed cake, cotton-seed meal, pease meal, bran, unbolted Indian meal, and other preparations for cattle feed.

376. Ores to be used as flux.

377. Parchment or wax paper, when imported direct for wrapping boneless fish, or for lining tins used in the lobster packing industry in this colony.

378. Pig iron, nail strips of iron, steel, zinc, or brass, to be used in the manufacture of cut nails in this colony.

379. Plants, trees, and shrubs.

380. Plates, engraved on wood, steel, or other metal and transfers taken from the same, including engravers' plates of steel, polished, engraved, or for engraving thereupon.

381. Printing paper, printing presses, printing types, and printers' office furniture, when imported by printers for use in their business.

382. Rice uncleaned or refuse rice.

383. Sand.

384. Sausage skins or casings.

385. Scrap iron, scrap steel, old, and fit only to be remanufactured, being part of or recovered from any vessel wrecked in waters subject to the jurisdiction of Newfoundland.

Digitized by Google

386. Steel shafting when imported for use in steam vessels not owned, in whole or in part, by persons in this colony, and here for repairs solely.

387. Sulphuric acid when imported to be used in the manufacture of manures.

388. Seed for agricultural purposes, including florist's seeds.

389. Settlers' effects, viz: Wearing apparel, household furniture, books, implements, and tools of trade, occupation or employment, guns, musical instruments, domestic sewing machines, typewriters, live stock, bicycles, carts, and other vehicles and agricultural implements in use by the settler for at least six months before his removal to this colony, not to include machinery, or articles imported for use in any manufacturing establishment, or for sale: Provided that any dutiable article entered as settlers' effects may not be so entered unless brought with the settler on his first arrival, and shall not be sold or otherwise disposed of without payment of duty until after twelve months' actual use in this colony.

390. Scientific instruments and apparatus, when imported for use in colleges, schools, and scientific or library societies.

391. Stereotypes, electrotypes, and celluloids for almanacs, calendars, illustrated pamphlets, newspaper advertisements, or engravings, and all other like work for commercial trade or other purposes, and matrices or copper shells for the same.

392. Surgical and dental instruments (not being furniture) and surgical needles.

393. Specimens, illustrative of natural history.

394. Travelers' baggage, under regulations prescribed by the governor in council.

395. Unmanufactured wood.

396. Wire, of brass, zinc, iron, or steel, screwed or twisted or flattened or corrugated, when imported by manufacturers of boots and shoes, for use in connection with nailing machines for the manufacture of boots and shoes, to be used for such purposes only in their own factories.

397. Wheat.

398. Works of art, viz: Paintings in oil or water colors, by artists of well-known merit, or copies of the old masters by such artists; and paintings in oil and water colors, the production of Newfoundland artists, under regulations prescribed by the governor in council.

SCHEDULE C.—PROHIBITED GOODS.

399. Books, printed paper, drawings, paintings, prints, photographs, or representations of any kind of a treasonable or seditious or of an immoral or indecent character.

400. Coin, base or counterfeit.

401. Goods, manufactured or produced wholly or in part by prison labor, or which have been made within or in connection with any prison, gaol, or penitentiary, shall not be imported into this colony under a penalty of $200; and, if imported, such goods and the packages in which they are contained shall be forfeited.

402. Reprints of Newfoundland copyright works, and reprints of British copyright works, which have been copyrighted in Newfoundland also.

403. Tea, adulterated with spurious leaf or with exhausted leaves, or containing so great an admixture of chemical or other deleterious substance as to make it unfit for use.

SCHEDULE D.—LOCAL DISTILLATION.

The following duties shall be raised, levied, and collected on the following articles distilled or brewed in this colony, viz:

404. Brandy, not exceeding the strength of proof by Sykes's hydrometer, and so in proportion for any greater strength than the strength of proof ..... per gallon .. $2.35

405. Whisky, not exceeding the strength of proof by Sykes's hydrometer, and so in proportion for any greater strength than the strength of proof ..... per gallon .. 1.85

406. Gin, not exceeding the strength of proof by Sykes's hydrometer, and so in proportion for any greater strength than the strength of proof ..... per gallon .. 1.75

407. Rum, not exceeding the strength of proof by Sykes's hydrometer, and so in proportion for any greater strength than the strength of proof ..... per gallon .. 1.50

408. Ale, porter, Bavarian beer, botanic beer, and all other small and dextrinous liquors, per gallon ..... .05

# UNITED STATES.

## IMPORT TARIFF OF THE UNITED STATES.

[Downing's United States Customs Tariff, 1897, as printed by the Treasury Department for the use of officers of the customs.]

**The tariff of the United States is included in the edition of Foreign Tariffs for purposes of reference.**

REFERENCES AND ABBREVIATIONS.

"According to material" signifies that the duty is determined by the material of which an article is made.

"As," when stated in this manner, viz, "Adamatine spar, as Emery," means that the article assimilates to emery, and is therefore liable to the same duty.

b. e. w. means brown earthen ware.

c. v. means chief value.

February 19, 1889, N. Y., means unpublished decision of the Department, of February 19, 1889, to collector at New York or other port, as the case may be.

G. A. means decision by General Appraisers.

n. e. means "not enumerated in the tariff act," and therefore liable to duty under the following section, viz, "Sec. 6. There shall be levied, collected, and paid on the importation of all raw or unmanufactured articles, not enumerated or provided for in this act, a duty of ten per centum ad valorem; and on all articles manufactured in whole or in part, not provided for in this act, a duty of 20 per cent ad valorem."

n. s. p. f. means "if not especially provided for," and signifies that the rate stated applies to the article in any condition not included in some other provision of the tariff.

R. S. means Revised Statutes.

S. C. R. means Supreme Court Reporter.

§ means section.

"Special" refers to certain special provisions of the tariff which are stated under that head.

s. s. means "synoptical series," and refers to the publication by serial numbers of decisions on customs matters by the Secretary of the Treasury.

*Alphabetical schedule of duties in effect July 24, 1897.*

| Par. | Articles. | Rate of duty. |
|---|---|---|
| 386 | Aba, as woolen cloth: | |
| | Value not more than 40 cents per pound | Per pound, 33 cents and 50 per cent. |
| | Value above 40 cents and not above 70 cents per pound | Per pound, 44 cents and 50 per cent. |
| | Value over 70 cents per pound | Per pound, 44 cents and 55 per cent. |
| 566 | Abaca, as manila hemp | Free. |
| | Abandoned is not a transfer of ownership, but a relinquishment without effort to recover, ss. 395. | |
| | Abandoned goods, proceeds of sale of, must be turned into the Treasury, ss. 15090. | |
| | Abandoned goods remaining under general order unclaimed one year, will be treated as, art. 808, Cust. Reg. 1892, ss. 8949. | |
| | Abandoned goods money will not be refunded to purchaser if goods are worthless, ss. 17476. | |
| | Abandoned bonded goods remaining in warehouse more than three years, will be treated as, art. 809, Cust. Reg. 1892. | |
| | Abandoned goods, suit must be instituted against bondsmen at once if proceeds of sale are insufficient, ss. 15767. | |
| | Abandoned goods pay rate due on date of importation, ss. 15788–16020–16090–17360. | |
| | Abandoned goods, storage charges take precedence of duties, ss. 17556. | |
| | Abandoned goods will be sold at auction, sales will be made twice each year or oftener, art. 809. Cust. Reg. 1892, ss. 1519–2585. | |
| | Abandoned 10 per cent or over of any importation may be, if damaged, sec. 23, act June 10, 1890, ss. 10356–12448–15421. | |
| | Abandoned goods if damaged, will be treated as perishable, ss. 11439. | |
| | Abandoned damaged goods are subject to general average, ss. 12489. | |
| | Abandoned damaged portion may be separated from sound in presence of an officer, ss. 15530. | |
| | Abandonment of damaged goods may be recalled by importer, ss. 12482. | |
| | Abandonment is not confined to damaged goods, ss. 17099. | |
| | Abandonment seizure of fruit by health officer is sufficient, ss. 17954. | |
| | Abbreviations of names of States, ss. 3818. | |
| 659 | Abalones, as shellfish, ss. 5905–9645–10496 | Free |
| § 16 | Abortion, all articles intended to cause, except drugs imported in bulk, are prohibited. | |
| | Abraded coins may be refused by United States customs officers, ss. 4326. | |

*Alphabetical schedule of duties in effect July 24, 1897*—Continued.

| Par. | Articles. | Rate of duty. |
|---|---|---|
| 387 | Givri muslin, as woven fabrics, ss. 16209. | |
| 133 | Glanced sheet iron or sheet steel | Per pound, 2 cents. |
| 99 | Glass, green and colored, molded or pressed, and flint lime glass bottles (except such as contain merchandise subject to an ad valorem rate of duty or to a rate of duty based in whole or in part upon the value thereof, which shall be dutiable at the rate applicable to their contents), holding more than 1 pint, and demijohns and carboys, covered or uncovered, whether filled or unfilled and whether their contents be dutiable or free, ss. 10764–14141. | Per pound, 1 cent, but not less than 40 per cent. |
| 99 | Glass holding not more than 1 pint and not less than ½ pint, ss. 10764–14141. | Per pound, 1½ cents and not less than 40 per cent. |
| 99 | Glass, if less than ½ pint, ss. 10764–14141 | Per gross, 50 cents and not less than 40 per cent. |
| 112 | Glass and glassware, molded or pressed, except bottles | 45 per cent. |
| | Glass: | |
| 100 | Articles of, cut, engraved, painted, colored, stained, silvered, gilded, etched, frosted, printed in any manner or otherwise ornamented, decorated, or ground (except such grinding as is necessary for fitting stoppers), and any articles of which such glass is the component material of chief value, filled or unfilled, and whether their contents be dutiable or free. | 60 per cent. |
| 100 | Gilded, not including plate glass, silvered, or looking-glass plates, ss. 1208. | Do. |
| 100 | And glassware, blown, porcelain or opal | Do. |
| 100 | All glass bottles, decanters, or other vessels or articles of glass, when cut, engraved, painted, colored, printed, stained, etched, or otherwise ornamented or decorated, except such as have ground necks and stoppers only, ss. 18400. | Do. |
| | Provided, that if such articles shall be imported filled, the same shall pay duty, in addition to any duty chargeable upon the contents, as if not filled. | |
| 101 | Unpolished cylinder— | |
| | Crown and common window, not exceeding 10 by 15 inches square. | Per pound, 1⅛ cents. |
| | Above that and not exceeding 16 by 24 inches square | Per pound, 1⅞ cents. |
| | Above that and not exceeding 24 by 30 inches square | Per pound, 2⅝ cents. |
| | Above that and not exceeding 24 by 36 inches square | Per pound, 2⅞ cents. |
| | Above that and not exceeding 30 by 40 inches | Per pound, 3⅜ cents. |
| | Above that and not exceeding 40 by 60 inches | Per pound, 3¾ cents. |
| | All above that | Per pound, 4⅛ cents. |
| 107 | With beveled edges, ss. 16286–17080 | Rates on window glass and 5 per cent. |
| | Provided, that unpolished cylinder, crown, and common window glass, imported in boxes, shall contain 50 square feet as nearly as sizes will permit, and the duty shall be computed thereon according to the actual weight of glass. | |
| 102 | Cylinder and crown— | |
| | Polished, not exceeding 16 by 24 inches square | Per square foot, 4 cts. |
| | Above that and not exceeding 24 by 30 inches square | Per square foot, 6 cts. |
| | Above that and not exceeding 24 by 60 inches square | Per square foot, 15 cts. |
| | Above that | Per square foot, 20 cts. |
| 107 | Beveled edges, ss. 16286–17080 | In addition to regular rates, 5 per cent. |
| 103 | Fluted, rolled, ribbed, or rough plate, or containing a wire netting within itself, not including crown, cylinder, or common window glass, not exceeding 16 by 24 inches square, weighing not over 1 pound per square foot. | Per square foot, ¾ cent. |
| | Above that and not exceeding 24 by 30 inches and weighing not over 1 pound per square foot. | Per square foot, 1¼ cts. |
| | All above that, and weighing not over 1 pound per square foot. | Per square foot, 1½ cts. |
| | All the above weighing over 1 pound per square foot pays an additional duty on the excess weight at same rates. | |
| | Provided, that all the above plate glass, when ground, smoothed, or otherwise obscured, shall be subject to the same rate of duty as cast polished plate glass, unsilvered. | |
| 104 | Cast polished plate— | |
| | Finished or unfinished and unsilvered, not exceeding 16 by 24 inches square. | Per square foot, 8 cts. |
| | Above that and not exceeding 24 by 30 inches square, ss. 9495–9620. | Per square foot, 10 cts. |
| | Above that and not exceeding 24 by 60 inches square | Per square foot, 22½ cts. |
| | All above that | Per square foot, 35 cts. |
| 105 | Silvered and looking-glass plates exceeding 144 square inches and not exceeding 16 by 24 inches. | Per square foot, 11 cts. |
| | Above that and not exceeding 24 by 30 inches square | Per square foot, 13 cts. |
| | Above that and not exceeding 24 by 60 inches square | Per square foot, 25 cts. |
| | All above that | Per square foot, 38 cts. |
| 106 | But no looking-glass plates, or plate glass silvered, when framed, shall pay a less rate of duty than that imposed upon similar glass of like description not framed, but shall pay in addition thereto upon such frames the rate of duty applicable thereto when imported separate. | |

| 193 | Malleable, galvanized, or tinned, ss. 8180 | 45 per cent. |
| 193 | Finished, as manufactures of, ss. 5939 | Do. |
| 148 | Not finished, parts of machinery, ss. 4941-7041-7224-7684-8052-9135-12814-12855-12920-13362. | Per pound, $\frac{8}{10}$ cent. |
| 12 | Are entitled to entry under section 12. | |
| | Are not works of art, ss. 13362. | |
| 152 | Iron cylindrical furnaces, welded, made from plate metal | Per pound, 2½ cents. |
| 123 | Iron flats and rounds—bar iron, rolled or hammered, comprising flats not less than 1 inch wide, nor less than ⅜ inch thick, and rounds not less than $\frac{7}{16}$ inch in diameter. | Per pound, $\frac{8}{10}$ cent. |
| 124 | But, if charcoal is used in manufacture | Per ton, $12. |
| 128 | Allowance or reduction of duties for partial loss or damage, in consequence of rust or of discoloration, shall not be made upon any description of iron, nor upon any article wholly or partly manufactured of iron | |
| 122 | Iron in pigs, kentledge, spiegeleisen, ferro-manganese, ferro-silicon, wrought and cast iron, and scrap steel. | Per ton, $4. |
| | Nothing shall be deemed scrap iron or scrap steel, except waste or refuse iron or steel, fit only to be remanufactured, ss. 6544-7359-7731-7935-8054-8214-8239-8489-8500-8701-9358-10556. | |
| 151 | Iron chains of all kinds: | |
| | Not less than ¾ of 1 inch in diameter | Per pound, 1½ cents, but not less than 45 per cent. |
| | Less than ¾ and not less than ⅜ of 1 inch in diameter | Per pound, 1⅞ cents, but not less than 45 per cent. |
| | Less than ⅜ and not less than $\frac{5}{16}$ of 1 inch in diameter | Per pound, 1⅞ cents, but not less than 45 per cent. |
| | Less than $\frac{5}{16}$ of 1 inch in diameter | Per pound 3 cents, but not less than 45 per cent. |
| 193 | Iron chain links, as manufactures of iron, ss. 8865 | 45 per cent. |
| 125 | Iron channels | Per pound, $\frac{8}{10}$ cent. |
| 520 | Iron, chromate of | Free. |
| 183 | Iron, chrome pig, as metal unwrought, ss. 8496-13966 | 20 per cent. |
| 520 | Iron, chromic ore | Free |
| 122 | Iron clippings, as scrap, ss. 6244 | Per ton, $4. |
| 171 | Iron-cogged ingots for manufacture of railway tires, in any degree of manufacture. | Per pound, 1¼ cents. |
| 53 | Iron color of lac, as varnish, ss. 2039 | 35 per cent. |
| 125 | Iron columns and parts or sections thereof | Per pound, $\frac{8}{10}$ cent. |

| Par. | Articles. | Rate of duty. |
|---|---|---|
| 129 | Iron cotton ties, cut to lengths, punched or not punched, with or without buckles, for baling cotton. | Per pound, $\frac{5}{16}$ cent. |
| 193 | Iron crank shafts, as manufactures of iron, ss. 8266 | 45 per cent. |
| 165 | Iron crochet needles | 25 per cent. |
| 144 | Iron crowbars | Per pound, 1½ cents. |
| 123 | Iron, crop ends of billets, blooms or rails, as bar iron, ss. 3624-6351-9358 | Per pound, $\frac{5}{16}$ cent. |
| 124 | Iron, if charcoal was used in manufacture | Per ton, $12. |
| 151 | Iron curb chains, as chains, ss. 6101. | |
| 125 | Iron deck beams, plain, punched or fitted for use | Per pound, $\frac{5}{16}$ cent. |
| 122 | Iron dirt (rust and scales), as scrap, ss. 4881 | Per ton, $4. |
| 121 | Iron dross from burnt pyrites | Per ton, 40 cents. |
| 193 | Iron dust, as manufactures of, ss. 7816 | 45 per cent. |
| 122 | Iron, ferro manganese | Per ton, $4. |
| 122 | Iron, ferro-silicon | Do. |
| 193 | Iron filings, as manufactures of, ss. 5088 | 45 per cent. |
| 130 | Iron fish plates | Per pound, $\frac{5}{16}$ cent. |
| 130 | Iron flat rails, punched | Per pound, $\frac{5}{16}$ cent. |
| 148 | Iron floor plates cast, as castings, ss. 11093 | Per pound, $\frac{5}{16}$ cent. |
| | Iron flues, boiler: | |
| 152 | Not thinner than No. 16 wire gauge | Per pound, 2 cents. |
| 152 | All others, n. s. p. f | 35 per cent. |
| 124 | Iron forms more advanced than pig and less finished than bar, except castings. | Per pound, $\frac{5}{16}$ cent. |
| 124 | Iron, the same, if charcoal is used in manufacture | Per ton, $12. |
| | Iron forgings: | |
| 127 | In any shape or in any state of manufacture | 35 per cent. |
| 127 | Combined with steel, in any shape or in any state of manufacture | Do. |
| 143 | For axles, without reference to stage or state of manufacture, valued at not more than 6 cents per pound. | Per pound, 1 cent. |
| 127 | For locomotives or parts thereof | 35 per cent. |
| 127 | For engines or parts thereof | Do. |
| 127 | For vessels or parts thereof | Do. |
| 152 | Iron furnaces, welded, cylindrical, made from plate metal | Per pound, 2½ cents. |
| | Iron gas pipe: | |
| 147 | Cast | Per pound, $\frac{5}{16}$ cent. |
| 152 | Wrought, as flues. | |
| 125 | Iron girders, plain, punched, or fitted for use | Per pound, $\frac{5}{16}$ cent. |
| 144 | Iron hammers for blacksmiths | Per pound, 1½ cents. |
| 192 | Iron hammers, all others, as manufactures of | 45 per cent. |
| 148 | Iron, hatters' irons, cast | Per pound, $\frac{5}{16}$ cent. |
| 145 | Iron hinge blanks | Per pound, 1½ cents. |
| 145 | Iron hinges, finished | Do. |
| 161 | Iron horseshoe nails | Per pound, 2¼ cents. |
| | Iron hollow ware: | |
| 148 | Cast | Per pound, $\frac{5}{16}$ cent. |
| 150 | Cast, coated, glazed, or tinned | Per pound, 2 cents. |
| 193 | Does not include articles of sheet iron, ss. 6396 | 45 per cent. |
| | Iron, hoop: | |
| 128 | As band. | |
| 132 | Galvanized or coated with zinc or spelter, same rate as sheet iron | Per pound, $\frac{5}{16}$ cent. |
| 161 | Iron horseshoe nails | Per pound, 2¼ cents. |
| 193 | Iron horseshoe nail plates as manufactures of metal, ss. 12929-13201 | 45 per cent. |
| 163 | Iron horseshoes, wrought | Per pound, 1 cent. |
| 3 | Iron, hydrated oxide of, as chemical salt, ss. 9265 | 25 per cent. |
| 171 | Iron ingots for railway tires, without regard to degree of manufacture. | Per pound, 1¼ cents. |
| 125 | Iron joists, plain, punched, or fitted for use | Per pound, $\frac{5}{16}$ cent. |
| 122 | Iron kentledge | Per ton, $4. |
| | Iron knitting needles: | |
| 165 | For machines | Per 1,000, $1 and 25 per cent. |
| 165 | N. s. p. f | 25 per cent. |
| 193 | Iron larding needles or pins, as manufactures of, ss. 8995 | 45 per cent. |
| 3 | Iron liquor, as chemical compound | 25 per cent. |
| 171 | Iron locomotive tires, or parts wholly or partly manufactured | Per pound, 1½ cents. |
| 124 | Iron loops | Per pound, $\frac{5}{16}$ cent. |
| 124 | If charcoal was used in manufacture | Per ton, $12. |
| 193 | Iron manufactures, n. s. p. f | 45 per cent. |
| 193 | Iron mill cranks, wrought | Do. |
| 193 | Iron mill irons | Do. |
| 163 | Iron mule shoes, wrought | Per pound, 1 cent. |
| | Iron, moisic, as other iron. | |
| 136 | Iron nail rods, in coils or otherwise: | |
| | Value 4 cents or less per pound | Per pound, $\frac{5}{16}$ cent. |
| | Value over 4 cents per pound | Per pound, ⅜ cent. |
| | Iron nails: | |
| 160 | Cut | Per pound, $\frac{5}{16}$ cent. |
| 414 | For ornamenting buttons, as parts of buttons, ss. 6397. | |
| 162 | Wire, not less than 1 inch in length and not lighter than 16 wire gauge. | Per pound, ⅛ cent. |
| | Less than 1 inch in length and lighter than 16 wire gauge | Per pound, 1 cent. |
| 193 | All others | 45 per cent. |
| 161 | Wrought | Per pound, 2¼ cents. |

| Par. | Articles. | Rate of duty. |
|---|---|---|
| 163 | Iron nuts, wrought | Per pound, 1 cent. |
| | Iron ore: | |
| 121 | Hematite, as iron ore, ss. 12663 | Per ton, 40 cents. |
| 121 | Manganiferous | Do. |
| 121 | No allowance for moisture contained, ss. 10235. | |
| | Sulphur, or pyrites— | |
| 674 | Over 25 per cent of sulphur | Free. |
| 121 | Less than 25 per cent of sulphur | Per ton, 40 cents. |
| 93 | Iron oxide, with silica, alumina, and lime, as wrought earths, ss. 12817. | Per ton, $2. |
| | Iron, oxide of: | |
| 58 | Crude, ss. 5972-9455-12339 | 30 per cent. |
| 58 | (Or colcothar), as paint, ss. 2961-4914 | Do. |
| 58 | (Crocus martis), as color, ss. 6658-9265 | Do. |
| 68 | Medicinal preparation | 25 per cent. |
| 163 | Iron ox shoes, wrought | Per pound, 1 cent. |
| 170 | Iron parasol ribs and stretcher, in frames or otherwise | 50 per cent. |
| § 12 | Iron pig, is entitled to entry under sec. 12, ss. 4941. | |
| 68 | Iron pills, as medicinal preparation, ss. 6837 | 25 per cent. |
| | Iron pipes: | |
| 147 | Cast, of every description, ss. 4941 | Per pound, $\frac{1}{10}$ cent. |
| 152 | Boiler or other, lap-welded, seamed, or jointed, not thinner than No. 16 wire gauge. | Per pound, 2 cents. |
| | All other, finished, n. s. p. f. | 35 per cent. |
| | Iron plates: | |
| 126 | Thinner than No. 10 wire gauge, as iron sheets. | |
| 126 | Boiler or other, sheared or unsheared, not thinner than No. 10 wire gauge— | |
| | Valued at 1 cent per pound or less | Per pound, $\frac{8}{10}$ cent. |
| | Valued above 1 cent and not above 2 cents per pound | Per pound, $\frac{7}{10}$ cent. |
| | Valued above 2 cents and not above 4 cents per pound | Per pound, 1 cent. |
| | Valued above 4 cents per pound | 25 per cent. |
| 148 | Cast, ss. 11093 | Per pound, $\frac{8}{10}$ cent. |
| 131 | Corrugated or crimped | Per pound, $1\frac{1}{10}$ cents. |
| 134 | Coated with tin or lead and commercially known as tin plates, terne plates, or taggers tin. | Per pound, $1\frac{1}{2}$ cents. |
| 159 | Enameled or glazed with vitreous glasses | 40 per cent. |
| 132 | Galvanized or coated with zinc or spelter, in addition to rates on plain plates. | Per pound, $\frac{3}{10}$ cent. |
| 125 | Iron posts and parts or sections of | Per pound, $\frac{8}{10}$ cent. |
| 68 | Iron powder, iron by hydrogen | 25 per cent. |
| | Iron propellers: | |
| 193 | Cast, as manufactures of, ss. 12128 | 45 per cent. |
| 193 | To be attached to importing vessel, are dutiable, ss. 9135 | Do. |
| 122 | Iron punchings, as scrap iron, ss. 8054-9358 | Per ton, $4. |
| 130 | Iron rails, flat-punched | Per pound, $\frac{7}{20}$ cent. |
| 130 | Iron railway bars | Do. |
| 130 | In part steel | Do. |
| 130 | Iron railway fish plates | Per pound, $\frac{4}{10}$ cent. |
| 171 | Iron railway tire or parts thereof, wholly or partly manufactured | Per pound, $1\frac{1}{2}$ cents. |
| 122 | Iron refuse | Per ton, $4. |
| 121 | Iron residuum, from burnt pyrites | Per ton, 40 cents. |
| 167 | Iron rivets | Per pound, 2 cents. |
| 136 | Iron rods, fence, rivet, screw, and other rods, whether round, oval or flat, ss. 11397. | |
| | Value not over 4 cents per pound | $\frac{4}{10}$ cent. |
| | Value over 4 cents per pound | $\frac{3}{4}$ cent. |
| | Smaller than No. 6 wire gauge, as wire. | |
| | Tempered or treated in any manner or partly manufactured, additional duty. | Per pound, $\frac{1}{2}$ cent. |
| | Iron rods: | |
| 136 | Nail, in coils, as above. | |
| 136 | Wire, smaller than No. 6 wire gauge, as wire. | |
| | Iron, round, in coils or rods: | |
| 124 | Less than $\frac{7}{16}$ inch in diameter | Per pound, $\frac{8}{10}$ cent. |
| 124 | If charcoal is used | Per ton, $12. |
| 122 | Iron rust and scalings in old scrap, no allowance for, ss. 4881 | Per ton, $4. |
| 148 | Iron, sad irons, cast | Per pound, $\frac{8}{10}$ cent. |
| 122 | Iron scale, as scrap, ss. 8463-11282-11650 | Per ton, $4. |
| 122 | Iron scrap, wrought and cast, ss. 8214-9358-9490-10556 | Do. |
| 169 | Iron screws, commonly called wood screws, ss. 5108: | |
| | Over 2 inches long | Per pound, 4 cents. |
| | Over 1 inch and up to 2 inches long | Per pound, 6 cents. |
| | Over $\frac{1}{2}$ inch and up to 1 inch long | Per pound, $8\frac{1}{2}$ cents. |
| | $\frac{1}{2}$ inch and less | Per pound, 12 cents. |
| 128 | Iron scroll. (*See* Band.) | |
| 132 | Iron scroll, galvanized or coated with zinc or spelter, as sheets and in addition. | Per pound, $\frac{3}{10}$ cent. |
| 193 | Iron shackles or adjustable chain links, as manufactures, ss. 9008 | 45 per cent. |
| 193 | Iron shafting, ss. 10556 | Do. |
| | Iron shapes: | |
| 125 | Structural, rolled | Per pound, $\frac{8}{10}$ cent. |
| 125 | N. s. p. f. | Do. |
| 124 | Charcoal used | Per ton, $12. |

*Alphabetical schedule of duties in effect July 24, 1897*—Continued.

| Par. | Articles. | Rate of duty. |
|---|---|---|
| 131 | Iron sheets, common or black, and including all commercially known as common or black taggers, not thinner than No. 10 wire gauge, as iron plates: | |
| 133 | Valued at over 3 cents per pound, in addition to duty on such as cost 3 cents or less. | Per pound, ½ cent. |
| | All valued at 3 cents or less per pound | |
| | Thinner than No. 10 and not thinner than No. 20 wire gauge | Per pound, $\frac{7}{10}$ cent. |
| | Thinner than No. 20 and not thinner than No. 25 wire gauge | Per pound, $\frac{8}{10}$ cent. |
| | Thinner than No. 25 wire gauge, and not thinner than No. 32 wire gauge. | Per pound, 1$\frac{1}{10}$ cents. |
| | Thinner than No. 32 wire gauge | Per pound, 1$\frac{3}{10}$ cents. |
| | Iron sheets: | |
| 133 | Cleaned by acid or by any other material or process, pay in addition to above rates. | Per pound, $\frac{3}{10}$ cent. |
| 133 | Cold rolled, smoothed only, not polished, pay in addition to above rates. | Do. |
| 134 | Coated with tin or lead, commercially known as tin plates, terne plates, or taggers tin. | Per pound, 1½ cents. |
| 159 | Enameled or glazed with vitreous glass | 40 per cent. |
| 132 | Galvanized, or coated with zinc or spelter, in addition to rates on iron sheets. | Per pound, $\frac{1}{10}$ cent. |
| 133 | Pickled by acid or by any other material or process, in addition to rates on iron sheets. | Do. |
| 133 | Iron plates, polished, planished, or glanced, by whatever name designated. | Per pound, 2 cents. |
| 133 | Iron, smoothed only, not polished, in addition to rates on iron sheets | Per pound, $\frac{3}{10}$ cent. |
| 193 | Iron shovels, as manufactures, ss. 17648 | 45 per cent. |
| 193 | Iron shot, ss. 6001 | Do. |
| 163 | Iron shoes, horse, mule, or ox, wrought | Per pound, 1 cent. |
| 193 | Iron show cards, ss. 6141-9812 | 45 per cent. |
| 193 | Iron sickles | Do. |
| 126 | Iron skelp, valued at more than 3 cents per pound, and not thinner than No. 10 wire gauge, as iron plates. | |
| 131 | Valued at 3 cents per pound or less, and thinner than No. 10 wire gauge, as sheets of iron, black or common, of corresponding gauge. | |
| 124 | Iron slabs: | |
| | ss. 1701 | Per pound, $\frac{1}{10}$ cent. |
| | If charcoal is used in manufacture | Per ton, $12. |
| 144 | Iron sledges, blacksmiths' | Per pound, 1½ cents. |
| 193 | Iron spades | 45 per cent. |
| 122 | Iron spiegeleisen | Per ton, $4. |
| | Iron spikes: | |
| 160 | Cut | Per pound, $\frac{3}{10}$ cent. |
| 163 | Wrought | Per pound, 1 cent. |
| 130 | Iron splice bars | Per pound, $\frac{1}{10}$ cent. |
| 193 | Iron springs of all kinds | 45 per cent. |
| 123 | Iron square, n. s. p. f | Per pound, $\frac{1}{10}$ cent. |
| 193 | Iron squares | 45 per cent. |
| 152 | Iron stays, boiler or other, wrought. (*See* Tubes.) | |
| 148 | Iron stove irons, cast | Per pound, $\frac{1}{10}$ cent. |
| 148 | Iron stove plates, cast | Do. |
| 193 | Iron stoves, as manufactures, iron, ss. 11990 | 45 per cent. |
| 124 | Iron strip | Per pound, $\frac{1}{10}$ cent. |
| 124 | If charcoal is used in manufacture | Per ton, $12. |
| | Iron: | |
| 125 | Structural shapes of all kinds, ss. 7617-7773 | Per pound, $\frac{1}{10}$ cent. |
| 19 | Sulphate of | Per pound, ¼ cent. |
| 674 | Sulphuret of, in natural state—containing more than 25 per cent of sulphur. | Free. |
| 121 | Containing less than 25 per cent of sulphur | Per ton, 40 cents. |
| 164 | Iron tacks, cut: | |
| | Not exceeding 16 ounces to 1,000 | Per 1,000, 1¼ cents. |
| | Exceeding 16 ounces to 1,000 | Per pound, 1½ cents. |
| 131 | Iron-taggers, as sheet iron, ss. 10935-11993-13908. | |
| 148 | Iron tailors' irons, cast | Per pound, $\frac{8}{10}$ cent. |
| 165 | Iron tape needles | 25 per cent. |
| 130 | Iron T rails | Per pound, $\frac{7}{10}$ cent. |
| | Iron tare on bundles of rods, allowance for straps, ss. 6405. | |
| 145 | Iron tie rods with nuts and screws, as bolts, ss. 6968 | Per pound, 1½ cents. |
| 193 | Iron toe calks, as manufactures of, ss. 1038 | 45 per cent. |
| 144 | Iron track tools | Per pound, 1½ cents. |
| 125 | Iron TT, plain or punched, or fitted for use | Per pound, $\frac{1}{10}$ cent. |
| | Iron tubes: | |
| 148 | Cast | Per pound, $\frac{1}{10}$ cent. |
| 152 | Boiler, wrought, lap-welded, butt-welded, seamed or jointed, not thinner than No. 16 wire gauge. | Per pound, 2 cents. |
| 152 | All other, finished | 35 per cent. |
| 193 | Iron turnings, as manufactures of, ss. 5088 | 45 per cent. |
| 170 | Iron umbrella ribs and stretcher in frames or otherwise | 50 per cent. |
| 148 | Iron vessels, cast | Per pound, $\frac{1}{10}$ cent. |
| 159 | Ironwares, enameled or glazed with vitreous glasses | 40 per cent. |
| 122 | Iron waste | Per ton $4. |

*Alphabetical schedule of duties in effect July 24, 1897*—Continued.

| Par. | Articles. | Rate of duty. |
|---|---|---|
| 163 | Iron washers, wrought | Per pound, 1 cent. |
| 144 | Iron wedges | Per pound, 1¼ cents. |
| | Iron wheels: | |
| 171 | Or parts thereof, for railway purposes | Do. |
| 171 | With axles fitted, as an entirety | Do. |
| | Iron wire, round: | |
| 137 | Not smaller than 13 wire gauge, value 4 cents per pound or less | Per pound, 1½ cents. |
| | Smaller than 13 wire gauge and not smaller than 16 wire gauge | Per pound, 1½ cents. |
| 137 | Smaller than 16 wire gauge | Per pound, 2 cents. |
| | When valued at more than 4 cents per pound | 40 per cent. |
| | Or steel wire and wire clock and watch wires, and all steel wires, whether polished or unpolished, in coils or straightened, and cut to lengths, drawn cold through dies, and hat wire, flat steel wire, or sheet steel in strips, uncovered or covered with cotton, silk, or other material, or metal, and all the foregoing manufactures of iron or steel, of whatever shape or form, valued above 4 cents per pound. | 45 per cent. |
| 137 | Iron wire: | |
| | N. s. p. f | 40 per cent. |
| | Round, as above, value over 4 cents per pound | Do. |
| 146 | Card clothing | Per square foot 20 cents. |
| 137 | Covered with cotton, silk, or other material— | |
| 193 | Value not above 4 cents per pound | 45 per cent. |
| 193 | Value above 4 cents per pound | Do. |
| 137 | Covered with zinc, tin, or any other metal, in addition to plain wire of corresponding gauge. | Per pound, $\frac{1}{10}$ cent. |
| 137 | Flat, ss. 10783: | |
| | Value not above 4 cents per pound | 45 per cent. |
| | Value above 4 cents per pound | Do. |
| 188 | Hairpins | 35 per cent. |
| 137 | Made up into articles, pays in addition to rate of duty imposed upon wire used in the article. | Per pound, 1¼ cents. |
| 162 | Nails, ss. 3922— | |
| | Less than 1 inch in length and lighter than No. 16 wire gauge. | Per pound, 1 cent. |
| | Not less than 1 inch in length and not lighter than No. 16 wire gauge. | Per pound, ½ cent. |
| 193 | All others | 45 per cent. |
| 136 | Rods, smaller than No. 6 wire gauge, as wire. | |
| 136 | Rods, rivet, screw, fence, and other, whether round, oval, flat, or square, or in any other shape, ss. 1014–3887— | |
| | Value not over 4 cents per pound | Per pound, $\frac{1}{10}$ cent. |
| | Value over 4 cents per pound | Per pound, ⅛ cent. |
| 137 | Rope, maximum duty imposed on wire, and | Per pound, 1 cent. |
| 127 | Iron, wrought, for ships | 35 per cent. |
| 23 | Isinglass: | |
| | Belonga, as gelatin, ss. 9484. | |
| | Bleached fish bladders are, ss. 10785: | |
| | Value not above 10 cents per pound | Per pound, 2½ cents. |
| | Value above 10 cents per pound and not above 35 cents per pound. | 25 per cent. |
| | Value above 35 cents per pound | Per pound, 15 cents and 20 per cent. |
| § 6 | Chinese and Japanese, ss. 10923 | 20 per cent. |
| 23 | Russian is, ss. 9484–10785–13549. | |
| 568 | Istle or tampico fiber: | |
| | Ss. 6293 | Free. |
| § 6 | Dyed, ss. 3320 | 20 per cent. |
| 347 | Istle lariats, as manufactures, vegetable fiber, ss. 12220 | 45 per cent. |
| 114 | Istrian stone is marble, ss. 17928. | |
| 368 | Italian cloths, as wool dress goods, warp wholly cotton: | |
| | Value not over 70 cents per pound or 5 cents per square yard and weighing not over 4 ounces per square yard. | Per square yard, 7 cents and 50 per cent. |
| | Value over 70 cents per pound | Per square yard, 7 cents and 55 per cent. |
| | Value not over 70 cents per pound and 15 cents per square yard and weighing not over 4 ounces per square yard. | Per square yard, 8 cents and 50 per cent. |

*Alphabetical schedule of duties in effect July 24, 1897*—Continued.

| Par. | Articles. | Rate of duty. |
|---|---|---|
| | Liquors—Continued. | |
| 289 | Brandy and other spirits manufactured or distilled from grain or other materials, n. s. p. f. | Per proof gallon, $2.25. |
| | In bottles, bottles pay as empty. | |
| 290 | Brandy, imitations of | Do. |
| | Each and every gauge or wine gallon of measurement shall be counted as at least 1 proof gallon; and the standard for determining the proof of brandy and other spirits or liquors of any kind imported shall be the same as that which is defined in the laws relating to internal revenue. | |
| | Proof spirit is an alcoholic liquor which contains one-half its volume of alcohol of a specific gravity of 0.7939 at 60° F., R. S., § 3249. | |
| | *Provided*, That it shall be lawful for the Secretary of the Treasury, in his discretion, to authorize the ascertainment of the proof of wines, cordials, or other liquors, by distillation or otherwise, in cases where it is impracticable to ascertain such proof by the means prescribed by existing law or regulations. | |
| 290 | Brandy or other spirituous liquors imported in casks or other vessels of more than one quart and of less than 10 gallons capacity shall be forfeited to the United States, ss. 7286. | |
| § 3 | From reciprocating countries | Per gallon, $1.75. |
| 293 | Imitations of wine pay same rate as wine imitated, but not less than. | Per gallon, $1.50. |
| 295 | Champagne and all other sparkling wines, in bottles containing each not more than 1 quart and more than 1 pint. | Per dozen, $8. |
| § 3 | From reciprocating countries | Per dozen, $6. |
| | No additional duty on bottles. | |
| | Containing not more than 1 pint each and more than one-half pint. | Per dozen, $4. |
| § 3 | From reciprocating countries | Per dozen, $3. |
| | No additional duty on bottles. | |
| | Containing one-half pint each or less | Per dozen, $2. |
| § 3 | From reciprocating countries | Per dozen, $1.50. |
| | In bottles or other vessels containing more than 1 quart each, in addition to $8 per dozen bottles, on the quantity in excess of 1 quart, at the rate of. | Per gallon, $2.50. |
| § 3 | From reciprocating countries | Per dozen, $6. |
| | And on excess over 1 quart | Per gallon, $1.90. |
| 299 | Cherry juice and prune juice or prune wine, and other fruit juice not specially provided for in this act, containing 18 per cent or less of alcohol. | Per gallon, 60 cents. |
| 99 | In bottles, bottles pay duty as empty. | |
| | If containing more than 18 per cent of alcohol | 60 cents per gallon and $2.07 per gallon on alcohol contained therein. |
| 99 | In bottles, bottles pay duty as empty. | |
| 291 | Compounds or preparations (except as specified in the preceding paragraph of the chemical schedule relating to medicinal preparations, of which alcohol is a component part), of which distilled spirits are a component part of chief value, not specially provided for in this act, there shall be levied a duty not less than that imposed upon distilled spirits. | Per proof gallon. $2.25. |
| 99 | In bottles, bottles pay as empty. | |
| 292 | Cordials, liqueurs, arrack, absinthe, kirschwasser, ratafia, and other spirituous beverages or bitters of all kinds containing spirits, and not specially provided for in this act. | Per proof gallon, $2.25. |
| 293 | Imitations of either of the above | Per proof gallon, $2.25. |
| 99 | In bottles, bottles pay as empty. | |
| 300 | Ginger ale or ginger beer. (*See* Soda water.) | |
| | No separate or additional duty on bottles. | |
| 298 | Malt extract, including all preparations bearing the name and commercially known as such, fluid in casks. | Per gallon, 20 cents. |
| | In bottles or jugs | Per gallon, 40 cents. |
| 99 | Bottles pay additional duty as empty. | |
| | Solid or condensed | 40 per cent. |
| 99 | Bottles pay as coverings. | |
| 301 | All imitations of natural mineral waters, and all artificial mineral waters. (*See* Mineral waters.) | |
| 296 | Still wines, including ginger wine or ginger cordial and vermuth, in casks or packages other than bottles or jugs— | |
| | Containing 14 per cent or less of absolute alcohol | Per gallon, 40 cents. |
| | Containing more than 14 per cent and not more than 24 per cent of absolute alcohol. | Per gallon, 50 cents. |
| | Over 24 per cent of alcohol | Per gallon. $2.25. |
| § 3 | From reciprocating countries | Per gallon. 35 cents. |
| 296 | Still wines in bottles or jugs, per case of one dozen bottles or jugs, containing each not more than 1 quart and more than 1 pint, or 24 bottles or jugs, containing each not more than 1 pint. | Per case, $1.60. |

| | Containing over 18 per cent alcohol | Per gallon, 60 cents and $2.07 per gallon on alcohol. |
| | Persian berries: | |
| 22 | Extract of, ss. 3898-5529-5865 | Per pound, ½ cent |
| § 6 | Carmine, n. s. p. f., ss. 5865 | 20 per cent. |
| 628 | Persis, extract of archill | Free. |
| 697 | Personal effects, accompanying owner, ss. 8267-8469-8530-10371-11257-12217-12580-14156-14480-19041. | Free |
| | Personal effects do not include ivory statuette, ss. 19118. | |
| 697 | In case of residents of the United States returning from abroad, all wearing apparel and other personal effects taken by them out of the United States to foreign countries shall be admitted free of duty, without regard to their value, upon their identity being established, under appropriate rules and regulations to be prescribed by the Secretary of the Treasury, but no more than $100 in value of articles purchased abroad by such residents of the United States shall be admitted free of duty upon their return. | |
| | In order to ascertain what articles ought to be exempted as the wearing apparel and other personal baggage and the tools or implements of a mechanical trade only of persons who arrive in the United States, due entry thereof, as of other merchandise, but separate and distinct from that of any other merchandise, imported from a foreign port, shall be made with the collector of the district in which the articles are intended to be landed by the owner thereof, or his agent, expressing the persons by whom or for whom such entry is made, and particularizing the several packages and their contents, with their marks and numbers; and the person who shall make the entry shall take and subscribe an oath before the collector, declaring that the entry subscribed by him and to which the oath is annexed contains, to the best of his knowledge and belief, a just and true account of the contents of the several packages mentioned in the entry, specifying the name of the vessel, of her master, and of the port from which she has arrived, and that such packages contain no merchandise whatever other than wearing apparel, personal baggage, or, as the case may be, tools of trade, specifying it; that they are all the property of a person named who has arrived, or is shortly expected to arrive in the United States, and are not directly or indirectly imported for any other, or intended for sale. Sec. 2799, R. S. | |
| | Whenever the person making entry of any articles as wearing apparel, personal baggage, tools, or implements, is not the owner of them, he shall give bond with one or more sureties, to the satisfaction of the collector, in a sum equal to the duties on like articles imported subject to duty, upon the condition that the owner of the articles shall, within one year, personally make an oath such as is prescribed in the preceding section. Sec. 2800, R. S. | |
| | On compliance with the two preceding sections, and not otherwise, a permit shall be granted for landing such articles. But whenever the collector and the naval officer, if any, think proper, they may direct the baggage of any person arriving within the United States to be examined by the surveyor of the port, or by an inspector of the customs, who shall make a return of the same; and if any articles are contained therein which in their opinion ought not to be exempted from duty, due entry of them shall be made and the duties thereon paid. Sec. 2801, R. S. | |
| | Whenever any article subject to duty is found in the baggage of any person arriving within the United States, which was not, at the time of making entry for such baggage, mentioned to the collector before whom such entry was made, by the person making entry, such articles shall be forfeited, and the person in whose baggage it is found shall be liable to a penalty of treble the value of such article. Sec. 2802, R. S. | |
| | Any baggage or personal effects arriving in the United States, in transit to any foreign country, may be delivered by the parties having it in charge to the collector of the proper district, to be by him retained without the payment or exaction of any import duty, and to be delivered to such parties on their departure for their foreign destination, under such rules, regulations, and fees as the Secretary of the Treasury may prescribe. Sec. 2803, R. S. | |
| 636 | Personal and household effects, not merchandise of citizens of the United States dying in foreign countries. | Free. |

*Alphabetical schedule of duties in effect July 24, 1897*—Continued.

| Par. | Articles. | Rate of duty. |
|---|---|---|
| | Steel—Continued. | |
| | Band— | |
| 128 | As hoop iron. | |
| 168 | Saws | Per pound, 10 cents and 20 per cent. |
| 132 | Galvanized or coated with zinc or spelter, or other metal as steel sheets, and in addition. | Per pound, $\frac{1}{10}$ cent. |
| 137 | Bands 5 to 10 feet long are not saw plates, as. 17349-17350 | 45 per cent. |
| 128 | Bands or strips untempered, suitable for making band saws | Per pound, 3 cents and 20 per cent. |
| | If tempered, or tempered and polished | Per pound 6 cents and 20 per cent. |
| | Bars— | |
| 135 | Beveled or tapered. (*See* Steel ingots.) | |
| 135 | Hammered or rolled. (*See* Steel ingots.) | |
| | Beads— | |
| 408 | Not strung, as. 2994 | 35 per cent. |
| 408 | Trimmings, as. 2994 | 60 per cent. |
| 125 | Beams, plain, punched or fitted for use | Per pound, $\frac{1}{10}$ cent. |
| | Bicycle cranks— | |
| 135 | Rough, as. 15011. (*See* Steel ingots.) | |
| 193 | Finished | 45 per cent. |
| 193 | Bicycle hubs, as manufactures of, as. 2588-15011 | Do. |
| 193 | Bicycle wheels and parts of wheels, as manufactures of, as. 14695-11976-14225. | Do. |
| 193 | Frames, as manufactures of, as. 14225 | Do. |
| 152 | Forks, as tubes, as. 11995 | 35 per cent. |
| 135 | Billets (*see* Steel ingots), as. 16823. | |
| 135 | Billets, hollow, are not tubes, as ingots, as. 16840-17264. | |
| 144 | Blacksmiths' hammers and sledges | Per pound, 1½ cents. |
| 131 | Black taggers, same as steel sheets. | |
| 153 | Blades for pen and pocket knives, as pocketknives | But not less than per piece 5 cents and 40 per cent. |
| 153 | Blades for razors, as razors. | |
| 171 | Blanks for railway tires, without regard to the degree of manufacture. | Per pound, 1¼ cents. |
| 135 | Blanks for dies. (*See* Steel ingots.) | |
| 135 | Blocks for dies. (*See* Steel ingots.) | |
| | Blooms— | |
| 135 | Ascertainment of weight, same as steel ingots, as. 8195. | |
| 171 | For railway tires, without regard to the degree of manufacture. | Per pound, 1¼ cents. |
| 165 | Bodkins, as. 10853 | 25 per cent. |
| 152 | Boiler tubes, flues or stays, wrought, lap welded, butt welded, seamed, or jointed iron or steel, not thinner than No. 16 wire gauge. | Per pound, 2 cents. |
| 152 | Boiler, all others | 35 per cent. |
| 126 | Boiler plates, as steel plates. | |
| 145 | Bolt blanks | Per pound, 1½ cents. |
| 145 | Bolts, with or without threads or nuts | Do. |
| 193 | Bowls, as manufactures of, as. 16115 | 45 per cent. |
| 164 | Brads, cut— | |
| | 16 ounce or under per M | Per M, 1¼ cents. |
| | Over 16 ounce per M | Per pound, 1½ cents. |
| 155 | Bread knives, finished or unfinished, as table knives. | |
| 193 | Buckthorn strips, as manufactures of, as. 8325 | 45 per cent. |
| 125 | Building forms, plain, punched or fitted for use | Per pound, $\frac{1}{10}$ cent. |
| 125 | Bulb beams | Per pound, $\frac{1}{10}$ cent. |
| 155 | Butchers' knives and steels, finished or unfinished, as table knives. | |
| 155 | Butter knives, finished or unfinished, as table knives. | |
| 414 | Buttons | ¼ cent per line per gross and 15 per cent. |
| 414 | Buttons, trousers | ¼ cent per line per gross and 15 per cent. |
| 146 | Card clothing— | |
| | Of tempered steel wire | Per square foot, 45 cents. |
| | All other | Per square foot, 20 cents. |
| 125 | Car-truck channels | Per pound, $\frac{1}{10}$ cent. |
| 155 | Carving knives, forks and steels, as table knives. | |
| 135 | Castings, all descriptions and shapes of dry sand, loam or iron molded. (*See* Steel ingots.) | |
| 151 | Chains of all kinds, as chains. | |
| 125 | Channels | Per pound, $\frac{1}{10}$ cent. |
| 155 | Cheese knives, as table knives. | |
| 182 | Cinders from rolling mill, as. 8463 | 20 per cent. |
| 125, 141 | Circular saw plates, as. 9267 (as steel ingots), and in addition | Per pound, ½ cent. |
| 168 | Circular saws | 25 per cent. |
| | Clock wire— | |
| 137 | Valued above 4 cents per pound | 45 per cent. |
| 193 | Valued under 4 cents per pound | Do. |

*Alphabetical schedule of duties in effect July 24, 1897*—Continued.

| Par. | Articles. | Rate of duty. |
|---|---|---|
| | Steel—Continued. | |
| 135 | Cogged ingots. (*See* Steel ingots.) | |
| 171 | Cogged ingots for railway tires | Per pound 1¼ cents. |
| 193 | Coiled motor springs, as manufactures of, ss. 7166 | 45 per cent. |
| 125 | Columns and parts or sections of | Per pound, $\frac{4}{10}$ cent. |
| 193 | Connecting rods | 45 per cent. |
| 155 | Cooks' knives, forks and steels, as table knives. | |
| | Corset wire— | |
| 137 | Valued above 4 cents per pound | Do. |
| 193 | Valued under 4 cents per pound | Do. |
| 129 | Cotton ties, cut to lengths, punched or not punched, with or without buckles for baling cotton. | Per pound, $\frac{4}{10}$ cent. |
| 193 | Crank pins | 45 per cent. |
| 193 | Crank shafts | Do. |
| | Crinoline wire— | |
| 137 | Valued above 4 cents per pound | Do. |
| 193 | Valued under 4 cents per pound | Do. |
| 165 | Crochet needles | 25 per cent. |
| 135 | Crop ends of billets, blooms or rails, ss. 6541-7359-9358. (*See* Steel ingots.) | |
| 168 | Crosscut saws | Per linear foot, 6 cents. |
| 144 | Crowbars | Per pound, 1½ cents. |
| 193 | Crown borers, as drills, ss. 15702 | 45 per cent. |
| 136 | Crucible, rope rods, ss. 6356— | |
| | Value, 4 cents or less per pound | Per pound, $\frac{4}{10}$ cent. |
| | Value, over 4 cents | Per pound, ¾ cent. |
| 193 | Cylinders, as manufactures of, ss. 17571 | 45 per cent. |
| 152 | Cylindrical furnaces | Per pound, 2½ cents. |
| 125 | Deck beams plain, punched or fitted for use | Per pound, $\frac{4}{10}$ cent. |
| 135 | Diamond, as steel ingots, ss. 16278-16630-17780-17955. | |
| 135 | Die blocks or blanks. (*See* Steel ingots.) | |
| 168 | Drag saws | Per linear foot, 8 cents. |
| 127 | Drawing plate (wire) blanks, as forgings, ss. 9028 | 35 per cent. |
| 193 | Drawing plates (wire), as manufactures of, ss. 6413 | 45 per cent. |
| 193 | Dress shields, as manufactures of, ss. 8958 | Do. |
| 135 | Drill rods. (*See* Steel ingots.) ss. 16080. | |
| 193 | Edge tools, as manufactures of, ss. 7783 | Do. |
| 408 | Edgings, as manufactures of bead ornaments, ss. 11382 | 60 per cent. |
| 193 | Embossing dies, as manufactures of, ss. 9889 | 45 per cent. |
| 153 | Erasers of all kinds— | |
| | Valued not over 40 cents per dozen | 40 per cent. |
| | Valued over 40 cents per dozen and not over 50 cents per dozen | Per piece, 1 cent and 40 per cent. |
| | Valued over 50 cents per dozen and not over $1.25 per dozen | Per piece, 5 cents and 40 per cent. |
| | Valued over $1.25 per dozen and not over $3 per dozen | Per piece, 10 cents and 40 per cent. |
| | Valued over $3 per dozen | Per piece, 20 cents and 40 per cent. |
| 153 | Eraser blades, handles, or other parts at same rate | But not less than per piece, 5 cents and 40 per cent. |
| 136 | Fence wire rods— | |
| | Value, 4 cents per pound or less | Per pound, $\frac{4}{10}$ cent. |
| | Value, over 4 cents per pound | Per pound, ¾ cent. |
| | Round, smaller than No. 6 wire gauge, as wire. | |
| | Tempered or treated in any manner, or partly manufactured, in addition. | Per pound, ½ cent. |
| 156 | File blanks and files of all cuts and kinds— | |
| | 2½ inches in length and under | Per dozen, 30 cents. |
| | Over 2½ inches in length and not over 4½ inches | Per dozen, 50 cents. |
| | Over 4½ inches in length and under 7 inches | Per dozen, 75 cents. |
| | 7 inches and over | Per dozen, $1. |
| 130 | Fish plates | Per pound, $\frac{4}{10}$ cent. |
| 130 | Flat rails, punched | Per pound, $\frac{4}{10}$ cent. |
| 156 | Floats of all cuts and kinds, as files. | |
| | Flues— | |
| 152 | Boiler, lap welded, butt welded, seamed or jointed iron or steel boiler tubes, pipes, flues or stays, not thinner than No. 16 wire gauge. | Per pound, 2 cents. |
| 152 | All other, finished, n. s. p. f | 35 per cent. |
| 154 | Foils and foil blades, as swords, ss. 6350 | Do. |
| 127 | Forgings in any shape, or in any state of manufacture | Do. |
| 127 | Forgings combined with iron in any state of manufacture | Do. |
| | Forgings— | |
| 143 | For axles without reference to the stage or state of manufacture. | |
| | Valued at not over 6 cents per pound | Per pound, 1 cent. |
| 127 | Value over 6 cents per pound | 35 per cent. |
| 171 | For axles when fitted in wheels or parts of wheels, as wheels | Per pound, 1½ cents. |
| 127 | For locomotives or parts thereof | 35 per cent. |
| 127 | For steam engines or parts thereof | Do. |
| 127 | For vessels or parts thereof | Do. |

| Par. | Articles. | Rate of duty. |
|---|---|---|
| | Steel—Continued. | |
| | Forks— | |
| 155 | Table, as table knives. | |
| 193 | Other than above | 45 per cent. |
| 135 | Forms, n. s. p. f., as steel ingots. | |
| 155 | Fruit knives, as table knives. | |
| 408 | Garlands, as manufactures of bead ornaments, ss. 11382 | 60 per cent. |
| 193 | German sickles, as manufactures of, ss. 6143 | 45 per cent. |
| 125 | Girders, plain, punched, or fitted for use | Per pound, $\frac{3}{10}$ cent. |
| 135 | Gun barrel molds, not in bars. (*See* Steel ingots.) | |
| 135 | Hammer molds. (*See* Steel ingots.) | |
| 193 | Hammers | 45 per cent. |
| 144 | Hammers for blacksmiths | Per pound, $1\frac{1}{2}$ cents. |
| 168 | Handsaws | 30 per cent. |
| | Hat wire— | |
| 137 | Value above 4 cents per pound | 45 per cent. |
| 193 | Value 4 cents per pound or less | Do. |
| 145 | Hinge blanks | Per pound, $1\frac{1}{2}$ cents. |
| 145 | Hinges, finished | Do. |
| 161 | Hob nails | Per pound, $2\frac{1}{4}$ cents. |
| | Hoop— | |
| 128 | As hoop iron. | |
| 132 | Galvanized or coated with zinc or spelter, or other metal same rate as steel sheets and in addition. | Per pound, $\frac{3}{10}$ cent. |
| 128 | Hoops | Rate on hoop steel and in addition per pound, $\frac{1}{10}$ cent. |
| 161 | Horseshoe nails | Per pound, $2\frac{1}{4}$ cents. |
| 163 | Horseshoes, wrought | Per pound, 1 cent. |
| 155 | Hunting knives, finished or unfinished, as table knives. | |
| 135 | Ingots— | |
| | Value 1 cent or less per pound | Per pound, $\frac{3}{10}$ cent. |
| | Value over 1 cent and not over $1\frac{1}{10}$ cents per pound | Per pound, $\frac{4}{10}$ cent. |
| | Value over $1\frac{1}{10}$ cent and not over $1\frac{3}{10}$ cents per pound | Per pound, $\frac{5}{10}$ cent. |
| | Value over $1\frac{3}{10}$ cents and not over $2\frac{1}{10}$ cents per pound | Per pound, $\frac{6}{10}$ cent. |
| | Value over $2\frac{1}{10}$ cents and not over 3 cents per pound | Per pound, $\frac{8}{10}$ cent. |
| | Value over 3 cents and not over 4 cents per pound | Per pound, $1\frac{2}{10}$ cents. |
| | Value over 4 cents and not over 7 cents per pound | Per pound, $1\frac{4}{10}$ cents. |
| | Value over 7 cents and not over 10 cents per pound | Per pound, 2 cents. |
| | Value over 10 cents and not over 13 cents per pound | Per pound, $2\frac{4}{10}$ cents. |
| | Value over 13 cents and not over 16 cents per pound | Per pound, $2\frac{8}{10}$ cents. |
| | Value over 16 cents | Per pound, $4\frac{7}{10}$ cents. |
| 171 | Ingots for railway tires, without regard to degree of manufacture | Per pound, $1\frac{1}{4}$ cents. |
| 125 | Joists, plain, punched, or fitted for use | Per pound, $\frac{1}{10}$ cent. |
| 155 | Kitchen knives, as table knives. | |
| 165 | Knitting needles | 25 per cent. |
| 153 | Knives, pen or pocket— | |
| | Value not over 40 cents per dozen | 40 per cent. |
| | Value over 40 cents and not over 50 cents per dozen | Each 1 cent and 40 per cent. |
| | Value over 50 cents and not over $1.25 per dozen | Each 5 cents and 40 per cent. |
| | Value over $1.25 and not over $3 per dozen | Each 10 cents and 40 per cent. |
| | Value over $3 per doz | Each 20 cents and 40 per cent. |
| | Knives— | |
| 153 | Blades, handles or other parts, same rates | But not less than per piece 5 cents and 40 per cent. |
| 155 | Table, butchers', carving, cooks', hunting, kitchen, bread, butter, vegetable, fruit, cheese, plumbers', painters', palette, artists', and shoe knives, forks and steels, finished or unfinished: | |
| | With handles of mother-of-pearl, shell or ivory | Each 16 cents and 15 per cent, but not less than 45 per cent. |
| | With handles of deer horn | Each 12 cents and 15 per cent, but not less than 45 per cent. |
| | With handles of hard rubber, solid bone, celluloid, or any pyroxyline material. | Each 5 cents and 15 per cent, but not less than 45 per cent. |
| | With handles of any other material than those above mentioned. | Each $1\frac{1}{2}$ cents and 15 per cent. but not less than 45 per cent. |
| 171 | Locomotive tires, or parts wholly or partly manufactured | Per pound, $1\frac{1}{4}$ cents. |
| 193 | Manufactures, n. s. p. f | 45 per cent. |
| 193 | Mill cranks, wrought | Do. |
| 168 | Mill saws | Per linear foot, 10 cents. |
| 163 | Muleshoes | Per pound, 1 cent. |

*Alphabetical schedule of duties in effect July 24, 1897*—Continued.

| Par. | Articles. | Rate of duty. |
|---|---|---|
| | Steel—Continued. | |
| 136 | Nail rods, in coils or otherwise— | |
| | Value, 4 cents per pound or less | Per pound, $\frac{4}{10}$ cent. |
| | Value, over 4 cents per pound | Per pound, $\frac{1}{2}$ cent. |
| | If tempered or treated in any manner or partly manufactured | In addition to above, per pound, $\frac{1}{2}$ cent. |
| 136 | Nail rods, round, smaller than No. 6 wire gauge, as wire nails— | |
| 160 | Cut | Per pound, $\frac{4}{10}$ cent. |
| 161 | Hob | Per pound, $2\frac{1}{4}$ cents. |
| 414 | For ornamenting buttons, as parts of buttons, as. 6397. | |
| 161 | Horseshoe | Do. |
| 162 | Wire, as wire nails. | |
| 161 | Wrought, all, n. s. p. f | Do. |
| 165 | Needles— | |
| | For knitting or sewing machines | Per 1,000, $1 and 25 per cent. |
| 620 | Hand sewing and darning | Free. |
| 193 | Or pins, larding, as. 8995 | 45 per cent. |
| | Needle wire— | |
| 137 | Value, above 4 cents per pound | Do. |
| 193 | Value 4 cents per pound or less | Do. |
| 163 | Nuts, wrought | Per pound, 1 cent. |
| 163 | Ox shoes, wrought | Do. |
| 155 | Painters' knives, finished or unfinished, as table knives. | |
| 155 | Palette knives, finished or unfinished, as table knives. | |
| 137 | Paragon wire, as. 1877–13711— | |
| 193 | Value, over 4 cents per pound | 45 per cent. |
| | Value, 4 cents per pound or less | Do. |
| 170 | Parasol ribs and stretcher, in frames or otherwise | 50 per cent. |
| 153 | Penknives— | |
| | Value, not over 40 cents per dozen | 40 per cent. |
| | Value, over 40 cents and not over 50 cents per dozen | Per piece, 1 cent and 40 per cent. |
| | Value, over 50 cents and not over $1.25 per dozen | Per piece, 5 cents and 40 per cent. |
| | Value, over $1.25 and not over $3 per dozen | Per piece, 10 cents and 40 per cent. |
| | Value, over $3 per dozen | Per piece, 20 cents and 40 per cent. |
| 153 | Penknives, blades, handles, or parts, at same rates but not less than | Per piece, 5 cents and 40 per cent. |
| 186 | Pens | Per gross, 12 cents. |
| | Piano wire— | |
| 137 | Value, above 4 cents per pound | 45 per cent. |
| 193 | Value, 4 cents per pound or less | Do. |
| 188 | Pins— | |
| | Belt, bonnet, hair, hat, shawl, and safety, wholly of brass, copper, iron, steel, or other base metal, not plated, not jewelry. | 35 per cent. |
| 193 | Crank, or wrist | 45 per cent. |
| 152 | Pipes, boiler, or other, wrought, as tubes. | |
| 193 | Piston rods | Do. |
| | Plates— | |
| 140 | Articles made of, shall not pay a lower rate of duty than that imposed upon the plates. | |
| 126 | Boiler, or other, not thinner than No. 10 wire gauge, sheared or unsheared— | |
| | Value 1 cent or less per pound | Per pound, $\frac{4}{10}$ cent. |
| | Value over 1 cent and not over 2 cents per pound | Per pound, $\frac{6}{10}$ cent. |
| | Value over 2 cents per pound and not over 4 cents per pound | Per pound, 1 cent. |
| | Value over 4 cents per pound | 25 per cent. |
| 131 | All plate thinner than No. 10, as steel sheets. | |
| 134 | Coated with tin or lead, or a mixture of tin or lead | Per pound, $1\frac{1}{2}$ cents. |
| 131 | Corrugated or crimped | Per pound, $1\frac{1}{10}$ cents. |
| 159 | Enameled or glazed with vitreous glasses | 40 per cent. |
| 166 | Engraved | 25 per cent. |
| 132 | Galvanized or coated with zinc or spelter, or other metals, as steel plate, and, in addition. | Per pound, $\frac{8}{10}$ cent. |
| 135 | Octagon form, as sheared shapes, as. 9367. (*See* Steel ingots.) | |
| 135 | All n. s. p. f., as steel ingots. | |
| 155 | Plumbers' knives, finished or unfinished, as table knives. | |
| 153 | Pocket knives— | |
| | Value not over 40 cents per dozen | 40 per cent. |
| | Value over 40 cents and not over 50 cents per dozen | Per piece, 1 cent and 40 per cent. |
| | Value over 50 cents and not over $1.25 per dozen | Per piece, 5 cents and 40 per cent. |
| | Value over $1.25 and not over $3 per dozen | Per piece, 10 cents and 40 per cent. |
| | Value over $3 per dozen | Per piece, 20 cents and 40 per cent. |
| 153 | Blades, handles, or other parts at same rates but not less than | Per piece, 5 cents and 40 per cent. |

*Alphabetical schedule of duties in effect July 24, 1897*—Continued.

| Par. | Articles. | Rate of duty. |
|---|---|---|
| | Steel—Continued. | |
| 193 | Point trimmings, as manufactures of, ss. 11383 | 45 per cent. |
| 193 | Points with ornamental heads for manufactures of buttons, as manufactures of, ss. 7659. | Do. |
| 125 | Posts, and parts or sections of | Per pound, $\frac{1}{10}$ cent. |
| 193 | Propeller shafts | 45 per cent. |
| 130 | Railway bars | Per pound, $\frac{7}{10}$ cent. |
| 130 | Railway bars in part iron | Do. |
| 130 | Railway fish plates | Per pound, $\frac{4}{10}$ cent. |
| 171 | Railway tires, or parts thereof, wholly or partly manufactured | Per pound, $1\frac{1}{2}$ cents. |
| 171 | Railway wheels, or parts thereof, wholly or partly manufactured | Do. |
| 130 | Railway rails, flat, punched | Per pound, $\frac{7}{10}$ cent. |
| 156 | Rasps of all cuts and kinds, as files. | |
| 153 | Razors and razor blades, as razors. | |
| 122 | Refuse | Per ton, $4. |
| 135 | Remelting, as slabs, ss. 3971. (*See* Steel ingots.) | |
| 167 | Rivets | Per pound, 2 cents. |
| 135 | Rods, stubbs as forms, n. s. p. f., ss. 11395. (*See* Steel ingots.) | |
| 135 | Rods, larger than No. 5, w. g., cut by lathe and polished, ss. 14845, same as steel ingots. | |
| 193 | Running spikes, as manufactures of, ss. 15708 | 45 per cent. |
| | Saw plates— | |
| 135 | Wholly or partly manufactured. (*See* Steel ingots.) | |
| 135 | For hand saws, 6272. (*See* Steel ingots.) | |
| 135 | Back, hand, and all others. (*See* Steel ingots.) | |
| 135, 141 | Circular, as steel ingots, ss. 9367, and additional | Per pound, $\frac{1}{8}$ cent. |
| | Saws— | |
| 168 | Crosscut | Per linear foot, 6 cents. |
| 168 | Drag and pit | Per linear foot, 8 cents. |
| 168 | Mill | Per linear foot, 10 cents. |
| 168 | Circular | 25 per cent. |
| 168 | Band | Per pound, 10 cents and 20 per cent. |
| 168 | Back, and all others, n. s. p. f | 30 per cent. |
| 183 | Scales from rolling mill, as metal unwrought, ss. 8463 | 20 per cent. |
| 153 | Scissors, as scissors, ss. 10920. | |
| | Scrap— | |
| 122 | Wrought or cast, ss. 9358 | Per ton, $4. |
| 122 | From exported American steel, ss. 16158 | Do. |
| 169 | Screws commonly called wood screws: | |
| | Over 2 inches long | Per pound, 4 cents. |
| | Over 1 inch, and not over 2 inches long | Per pound, 6 cents. |
| | Over one-half inch, and not over 1 inch long | Per pound, $8\frac{1}{2}$ cents. |
| | One-half inch and less in length | Per pound, 12 cents. |
| 128 | Scroll, as hoop iron. | |
| 132 | Galvanized, in addition to rate on corresponding gauge of sheet steel. | Per pound, $\frac{1}{10}$ cent. |
| | Shafting— | |
| 135 | Mill. (*See* Steel ingots.) | |
| 135 | Old, that can be fitted for use, same as steel ingots, ss. 10556. | |
| | Shafts— | |
| 193 | Crank, steamer, and others, ss. 14629 | 45 per cent. |
| 193 | To be placed on foreign vessel dutiable, ss. 11220 | Do. |
| | Shank— | |
| 131 | As steel sheets, ss. 11371. | |
| 132 | Galvanized or coated with zinc, or spelter, or other metal, same rate as steel sheets, and in addition. | Per pound, $\frac{1}{10}$ cent. |
| | Shapes— | |

| 195 | Timber, squared or sided, n. s. p. f., as sawed lumber, ss. 3602–5380. | |
| 196 | Unmanufactured, n. s. p. f., ss. 5599 | 20 per cent. |
| 198 | Veneers of wood | Do. |
| 208 | Wooden crib for pier, as manufactures of, ss. 5292 | 35 per cent. |
| | Woods used expressly for dyeing: | |
| 548 | Crude | Free. |
| 20 | Advanced in value | Per pound, ¼ cent and 10 per cent. |
| 699 | Woods, poplar and other, fit only to be converted into paper | Free. |
| 355 | Wool. All wools, hair of the camel, goat, alpaca, and other like animals shall be divided, for the purpose of fixing the duties to be charged thereon, into classes 1, 2, and 3, as described below: | |
| 352 | The standard samples of all wools which are now or may be hereafter deposited in the principal custom-houses of the United States, under the authority of the Secretary of the Treasury, shall be the standards for the classification of wools under this act, and the Secretary of the Treasury is authorized to renew these standards and to make such additions to them from time to time as may be required, and he shall cause to be deposited like standards in other custom-houses of the United States when they may be needed. | |
| 354 | The duty on wools of the first class which shall be imported washed shall be twice the amount of duty to which they would be subjected if imported unwashed; and the duty on wools of the first and second classes which shall be imported scoured shall be three times the duty to which they would be subjected if imported unwashed. | |
| 356 | The duty upon wool of the sheep or hair of the camel, Angora goat, alpaca, and other like animals, of class 1 and class 2, which shall be imported in any other than ordinary condition, or which has been sorted or increased in value by the rejection of any part of the original fleece, shall be twice the duty to which it would be otherwise subject: *Provided*, That skirted wools as imported in 1890 and prior thereto are hereby excepted. The duty upon wool of the sheep or hair of the camel, Angora goat, alpaca, and other like animals of any class which shall be changed in its character or condition for the purpose of evading the duty, or which shall be reduced in value by the admixture of dirt or any other foreign substance, shall be twice the duty to which it would be otherwise subject. When the duty assessed upon any wool equals three times or more that which would be assessed if said wool was imported unwashed, it shall not be doubled on account of its being sorted. If any bale or package of wool or hair specified in this act invoiced or entered as of any specified class, or claimed by the importer to be dutiable as of any specified class, shall contain any wool or hair subject to a higher rate of duty than the class so specified, the whole bale or package shall be subject to the highest rate of duty chargeable on wool of the class subject to such higher rate of duty; and if any bale or package be claimed by the importer to be shoddy, mungo, flocks wool, hair, or other material of any class specified in this act, and such bale contain any admixture of any one or more of said materials, or of any other material, the whole bale or package shall be subject to duty at the highest rate imposed upon any article in said bale or package. | |
| 360 | Wools on the skin shall pay 1 cent less than other wools, the quantity and value to be ascertained under such rules as the Secretary of the Treasury may prescribe. | |
| 349 | Class 1, that is to say, merino, mestiza, metz, or metis wools, or other wools of Merino blood, immediate or remote, Down clothing wools, and wools of like character with any of the preceding, including Bagdad wool, China lamb's wool, Castel Branco, Adrianople skin wool or butcher's wool, and such as have been heretofore usually imported into the United States from Buenos Ayres, New Zealand, Australia, Cape of Good Hope, Russia, Great Britain, Canada, Egypt, Morocco, and elsewhere, and all wools not hereinafter included in classes 2 and 3. | |
| 355 | Unwashed wools shall be considered such as shall have been shorn from the sheep without any cleansing—that is, in their natural condition. | |
| | Wool: | |
| | Class 1— | |
| 357 | Unwashed | Per pound, 11 cents. |
| 355 | Washed wools shall be considered such as have been washed with water only on the sheep's back or on the skin. | |

| | Value over $2 per pound and not exceeding $2.50 per pound | Per pound, 50 cents and 15 per cent, but not less than 35 per cent. |
| | Value over $2.50 per pound | Per pound, 60 cents and 15 per cent, but not less than 35 per cent. |
| 365 | Yarn, silk and wool, as wool, ss. 16550. | |
| 362 | Yarn, waste, wool | Per pound, 20 cents. |
| 302 | Yarn, warp cotton. (*See* Yarn.) | |
| 365 | Yarn, wool or worsted: | |
| | Value 30 cents or less per pound | Per pound, 27½ cents and 40 per cent. |
| | Value over 30 cents per pound | Per pound, 38½ cents and 40 per cent. |
| § 6 | Yeast cake | 20 per cent. |
| 21 | Yeast wine, containing oil of cognac; oil of cognac dutiable, ss. 10211 | Per pound, $2, but not less than 25 per cent. |
| | Yellow berries: | |
| 548 | Crude | Free. |
| 20 | Advanced | Per pound, ¼ cent and 10 per cent. |
| 58 | Yellow chrome, ss. 18139 | 30 per cent. |
| 15 | Yellow crystals, as coal-tar dye, ss. 523–9766 | Do. |
| 176 | Yellow or sheathing metal, of which copper forms the chief value, and not composed wholly or in part of iron ungalvanized. | Per pound, 2 cents. |
| 533 | Yellow metal and old sheathing, fit only for remanufacture | Free. |
| 49 | Yellow ocher: | |
| | Crude | Per pound, ½ cent. |
| | If powdered, etc. | Per pound, ¾ cent. |
| 49 | Ground in oil or water | Per pound, 1½ cents. |
| 3 | Yellow prussiate of soda, ss. 8586 | 25 per cent. |
| 533 | Yellow sheathing metal, stripped from the bottom of a vessel in United States port, not merchandise, ss. 7151–10958. | Free. |
| 409 | Yiz plateaux, as chip hats, not trimmed, etc., ss. 12039 | 35 per cent. |
| 3 | Ylang-ylang oil | 25 per cent. |
| 2 | Ylang-ylang extract | Per pound, 60 cents and 45 per cent. |
| | Yolks of eggs: | |
| 245 | Fresh, ss. 6277–7315 | 25 per cent. |
| 245 | Salted, ss. 2889–6277–7315 | Do. |
| 245 | Dried | Do. |
| 319 | Zachens are embroideries, ss. 16477 | 60 per cent. |
| 705 | Zaffer | Free. |
| 264 | Zante currants | Per pound, 2 cents. |
| 15 | Zeinthaerine, as coal-tar color, ss. 10055 | 30 per cent. |
| 369 | Zephyr, as wool dress goods, ss. 7630–12653: | |
| | Value not over 70 cents per pound and weighing not over 4 ounces per square yard. | Per square yard, 11 cents and 50 per cent. |
| | Value over 70 cents per pound and weighing not over 4 ounces per square yard. | Per square yard, 11 cents and 55 per cent. |
| | Weighing over 4 ounces per square yard, as woolen cloth. | |
| | Zinc: | |
| 3 | Acetate of | 25 per cent. |
| 193 | All articles of, n. s. p. f | 45 per cent. |
| 3 | All salts of, as chemical salts | 25 per cent. |
| 192 | Ashes, as zinc in pigs, ss. 4990–16734 | Per pound, 1½ cents. |
| 193 | Button material, ss. 6904 | 45 per cent. |
| 3 | Chloride, in solution, as chemical compound, ss. 4440–13070 | 25 per cent. |

| Venezuela | Bolivar | .193 |

[1] The "British dollar" has the same legal value as the Mexican dollar in Hongkong, the Straits Settlements, and Labuan.
[2] Value of the rupee to be determined by consular certificates.

*Metric weights and measures for customs purposes.*

MEASURES OF LENGTH.

| Metric name. | Equivalent. | Subdivisions. |
|---|---|---|
| Meter | $39\frac{37}{100}$ inches | 10 decimeters or 100 centimeters or 1,000 millimeters. |
| Decameter | 393.7 inches | 10 meters. |
| Hectometer | 328 feet 1 inch | 100 meters. |
| Kilometer | 3,280 feet 10 inches | 1,000 meters. |
| Myriameter | $6\frac{21}{1000}$ miles | 10,000 meters. |

MEASURES OF CAPACITY.

| Metric name. | Equivalent in liquid or wine measure. | Subdivisions. |
|---|---|---|
| Liter | 1.0567 quarts | 10 deciliters, 100 centiliters, or 1,000 milliliters. |
| Dcealiter | 2.6417 gallons | 10 liters. |
| Hectoliter | 26.417 gallons | 100 liters. |
| Kiloliter | 264.17 gallons | 1,000 liters. |

WEIGHTS.

| Name. | Equivalent in avoirdupois. | Subdivisions. |
|---|---|---|
| Kilogram | 2.2046 pounds | 10 hectograms, 100 decagrams, or 1,000 grams. |
| Myriagram | 22.046 pounds | 10 kilograms. |
| Quintal | 220.46 pounds | 100 kilograms. |
| Millier or tonneau | 2204.6 pounds | 1,000 kilograms. |

## APPRAISEMENT OF MERCHANDISE SUBJECT TO AD VALOREM DUTY.

The following circular was issued by the Treasury Department under date of May 31, 1899:

*To United States appraising officers:*

Your attention is called to the amendment of section 11 of the customs administrative act of June 10, 1890, as found in section 32 of the act of July 24, 1897, which reads as follows:

"It shall be lawful for appraising officers, in determining the dutiable value of such merchandise, to take into consideration the wholesale price at which such or similar merchandise is sold or offered for sale in the United States, due allowance being made for estimated duties thereon, the cost of transportation, insurance, and other necessary expenses from the place of shipment to the United States, and a reasonable commission, if any has been paid, not exceeding six per centum."

It is expected that appraising officers will avail themselves of the authority conferred by this amendment whenever the actual market value as defined by law does not exist, or whenever such value can not be otherwise ascertained to the satisfaction of the appraising officer.

Department Circular No. 47, of March 8, 1898, is to be construed accordingly.

This circular, it will be seen, modifies the provisions of the law regarding the ascertainment of merchandise subject to ad valorem duty, providing for a conservative interpretation thereof. The practice of determining the foreign market value by deducting charges from the American selling price is to be resorted to only in cases where the goods are not sold abroad, and where, in consequence, no foreign market value exists. The original law is meant to apply in cases where goods are manufactured exclusively for the American market and are sent to this country. This merchandise is not offered for sale "in usual wholesale quantities" in the countries of production, and the foreign market value must be determined by other means.

## RECIPROCAL COMMERCIAL AGREEMENT WITH FRANCE.

[In effect June 1, 1898.]

It is agreed on the part of France that during the continuance in force of this agreement the following articles of commerce, the product of the soil or industry of the United States, shall be admitted into France at the minimum rates of duty, to wit, not exceeding the following rates:

| French tariff No. | | Per 100 kilograms. | |
|---|---|---|---|
| | | Francs. | United States equivalent. |
| 19 | Canned meats | 15.00 | $2.89 |
| 84 | Table fruits, fresh: | | |
| | Lemons, oranges, cedrats and their varieties not mentioned | 5.00 | .96 |
| | Mandarin oranges | 10.00 | 1.93 |
| | Common table grapes | 8.00 | 1.54 |
| | Apples and pears— | | |
| | For the table | 2.00 | .38 |
| | For cider and perry | 1.50 | .28 |
| | Other fruits except hothouse grapes and fruits | 3.00 | .57 |
| 85 | Fruits dried or pressed (excluding raisins): | | |
| | Apples and pears— | | |
| | For the table | 10.00 | 1.93 |
| | For cider and perry | 4.00 | .77 |
| | Prunes | 10.00 | 1.93 |
| | Other fruits | 5.00 | .96 |
| 128 | Common woods, logs | .65 | .12 |
| | Sawed or squared timber 80 mm. or more in thickness | 1.00 | .19 |
| | Squared or sawed lumber exceeding 35 mm. and less than 80 mm. in thickness | 1.25 | .24 |
| | Wood sawed 35 mm. or less in thickness | 1.75 | .34 |
| 129 | Paving blocks | 1.75 | .34 |
| 130 | Staves | .75 | .14 |
| 160 | Hops | 30.00 | 5.79 |
| 174 ter. | Apples and pears crushed or cut and dried | 1.50 | .28 |
| | Manufactured and prepared pork meats | 50.00 | 9.65 |
| | Lard and its compounds | 25.00 | 4.86 |

It is reciprocally agreed on the part of the United States in accordance with the provisions of section 3 of the United States tariff act of 1897 that during the continuance in force of this agreement the following articles of commerce, the product of the soil or industry of France, shall be admitted into the United States at rates of duty not exceeding the following, to wit:

On argols, or crude tartar, or wine lees, crude, 5 per centum ad valorem.

On brandies, or other spirits manufactured or distilled from grain or other materials, $1.75 per proof gallon.

On paintings in oil or water colors, pastels, pen and ink drawings, and statuary, 15 per centum ad valorem.

It is further agreed on the part of the United States that the rates of duty heretofore imposed and collected on still wines, the product of France, under the provisions of the United States tariff act of 1897 shall be conditionally suspended, and in place thereof shall be imposed and collected as follows, namely:

On still wines and vermuth, in casks, 35 cents per gallon; in bottles or jugs, per case of one dozen bottles or jugs containing each not more than 1 quart and more than 1 pint, or 24 bottles or jugs containing each not more than 1 pint, $1.25 per case, and any excess beyond these quantities found in such bottles or jugs shall be subject to a duty of 4 cents per pint or fractional part thereof, but no separate or additional duty shall be assessed upon the bottles or jugs.

But it is expressly understood that this latter concession may be withdrawn in the discretion of the President of the United States whenever additional duties beyond those now existing, and which may be deemed by him unjust to the commerce of the United States, shall be imposed by France on products of the United States.

A treaty with France covering a number of other items is now under consideration.

## COMMERCIAL AGREEMENTS WITH OTHER COUNTRIES.

Treaties with the following countries are under consideration: Argentina, British Guiana, Jamaica, Trinidad, Barbados, Bermuda, and Portugal.

By royal decree, taking effect May 31, 1899, United States cattle are admitted into Belgium free of restriction.

## CUSTOMS TARIFF CORRECTED TO JUNE 1, 1899.

### General Regulations for the Application of the Tariff.[1]

I. All goods mentioned in the repertory annexed to the general customs ordinances shall, on entry, pay the duty stipulated in the numbers of the tariff to which they correspond.

II. Goods which are neither mentioned in the tariff nor in the repertory shall be dutiable according to the provisions of Section II, Chapter V, of the ordinances relating to the assimilation of goods.

III. Goods inscribed in the tariff or the repertory followed by the phrase "of all kinds" without the remark "not specially mentioned," shall pay the duty stipulated in the corresponding numbers, even when such goods are combined with materials other than gold, silver, or platinum.

IV. Manufactured articles consisting of two or more materials, not specially classed in the tariff or repertory, shall pay the duty levied on the material predominating in quantity, with the exception of those having ornaments or accessories of gold, silver, or platinum.

V. When a manufactured object, consisting of different articles inscribed in the tariff or repertory, is presented in separate pieces, even imported in the same package, and when for each separate piece a distinct declaration is made, such pieces shall be dutiable according to their respective rates, provided the weight can be ascertained.

VI. Scientific apparatus, barometers, thermometers, and other similar instruments, fitted to manufactured articles, such as statues, candelabra, inkstands, clocks, etc., shall pay the duty levied on the manufactured article of which they form an accessory.

VII. Mirrors forming part of furniture are considered to be those which constitute an integral part thereof and which can not be separated therefrom without disfiguring the furniture or rendering it incomplete; therefore mirrors intended to be placed on brackets, in no wise attached thereto and capable of being utilized separately, shall not be considered as forming part of furniture.

VIII. By net weight is meant the actual weight of the goods without their interior and exterior packing.

IX. By legal weight is meant the weight of the goods together with that of their interior packing, such as wrappers, receptacles, cardboard and wooden boxes, tins, etc., inclosed in the outer packing case in which imported.

When goods dutiable on legal weight are not inclosed in interior packages but in one exterior package only, the intrinsic weight of such goods will be considered as legal weight. In establishing the legal weight, no account will be taken of the straw or shavings in which the interior packages are stowed, or of the weight of the exterior package.

X. By gross weight is meant the weight of the goods with all their packages, both interior and exterior, without deducting the cross-framing, straw or shavings, hoops, etc., used for packing.

When a package contains different goods dutiable on gross weight, the customs shall, conformably to article 50 of the ordinances establish the tare in proportion to the legal weight attributed to each kind of goods.

XI. Goods dutiable on gross weight imported without any kind of package, or imported in packages likewise dutiable, shall pay duty on the total weight of the goods.

XII. Manufactured articles with fringes dutiable per square meter shall be measured together with the surface of such fringes.

When such articles are dutiable on weight, the weight of the fringes must also be included.

XIII. Receptacles, bottles, flasks, and jars; iron, zinc, tin, copper, and lead drums; cases of wood, cardboard, tin, etc., shall be considered as ordinary packages made for the goods they contain, but they must not, in themselves, be of greater value than the contents nor be fit for any other special use.

When goods imported in ordinary packages are dutiable on net weight, on the number, or according to measurement, such packages shall be exempt from import duty.

---

[1] In each number of the tariff where the same article is subject to different duties, according to greater or less weight (except for tissues), duty shall be levied as follows: The highest duty shall be applied to the quantity whose limit is fixed, and the lowest duty leviable shall be collected on the surplus. (Article 8 of the law of April 30, 1894.)

Digitized by Google

Should such goods be dutiable according to legal or gross weight, the ordinary packages in which imported shall pay the same duty as the goods.

XIV. Packages which can not be considered as ordinary, as mentioned in the preceding paragraph, and which evidently seem not to be adapted for the goods they contain, and also to have an independent market value, such as articles of luxury, or which may be used for any other purpose, shall be subject to the duty leviable thereon, and must be declared for the payment of such duties.

XV. When articles specially mentioned in the tariff, such as safes, trunks, portmanteaus, furniture, etc., are imported and used as outer receptacles, such articles shall be dutiable and shall not be considered as packages.

XVI. Tissues used as wrappers for goods inside of packages must be declared and the tariff duty shall be levied thereon, whatever be the quantity and quality, with the exception of waterproof tissues and oil or tarred cloths, simply used to protect the goods from humidity and not exceeding the quantity deemed necessary for this purpose.

XVII. Tissues and articles of linen, hemp, or other like vegetable fibers, mixed with cotton in whatever proportion, not mentioned in the tariff or repertory, shall be dutiable as tissues or articles of pure linen.

XVIII. Tissues of wool combined with a small quantity of threads of another material, other than of precious metals, as well as tissues of wool mixed with cotton, linen, hemp, or other similar vegetable fibers, in whatever proportion, shall pay as tissues of pure wool.

XIX. Ribbons of silk mixed with cotton, linen, or wool shall only be considered as such when the warp or woof is wholly composed of cotton, linen, or woolen yarn.

XX. As tissues and articles of silk with a mixture of cotton, linen, or wool, shall be considered those in which the mixture is found in the entire tissue or in different parts of the texture. Tissues which have said mixture only on the edges shall be dutiable as tissues or articles of silk.

XXI. As dress patterns are considered those which are imported in cardboard boxes, or in any other manner, and which are folded, pinned, or loosely stitched together, showing the shape of the waist or skirt, with ornaments so adaptable to the purpose that no possible doubt can exist as to their destination. When tissues are not shaped out or are imported with ornaments either separate or adjusted in such manner that they may be employed for any other purpose, such tissues shall be dutiable according to kind, and the ornaments shall pay the duty leviable thereon.

XXII. Handkerchiefs of cotton or linen, not figured, even with a worked border, such border being neither embroidered nor open-worked, shall be considered as made of plain tissue.

Handkerchiefs which are slightly embroidered with cotton, linen, wool, or silk in one of their corners, shall pay as tissues and not as embroidery.

White handkerchiefs, with colored bands, borders, edges or designs shall be dutiable as colored tissues.

XXIII. Should jewelry and articles specified in No. 856 of the tariff be imported in cases, the weight and kind of such cases must be declared separately for the application of the corresponding duty.

XXIV. By mountings and settings is meant that part of metal adhering to an article of crystal or porcelain serving as ornament or support and forming an integral part of such article.

Small fittings or screws which unite two or more parts, small knobs, lids of flasks or bottles, and ornaments of gold or silver, applied directly to crystal, shall not be considered as mountings or settings.

XXV. Articles of nickeled metal, other than those of iron or steel, shall be dutiable according to the component metal.

XXVI. When chemical or pharmaceutical products bear on their immediate receptacle labels describing the contents to be other than those declared, the highest duty corresponding to the declaration or to the label shall be applied, even when the products are in accordance with the declaration.

XXVII. When industrial machinery or apparatus is imported with accessories exceeding in quantity the actual requirements, such accessories being classed in the tariff, the surplus will be dutiable according to their corresponding numbers.

XXVIII. Conformably to article 8 of decree dated April 30, 1894, wherever in any number of the tariff the same article is liable to different duties, according to greater or less weight (except tissues), duty shall be levied as follows: The highest duty shall be applied to the quantity whose limit is fixed in the corresponding number, and the lowest duty leviable shall be collected on the surplus.

XXIX. Conformably to article 4 of decree dated June 5, 1897, should articles of cotton, linen, wool, or silk, such as yarn in balls or skeins, cords, lace, ornaments, trimmings, fringes, ribbons, embroidered bands and the like, in small pieces, be imported in packets or cardboard boxes and, being dutiable under different heads owing to the various component materials or kind, not be packed separately in cardboard

Digitized by Google

boxes or packets containing one kind only, the highest rate of duty applicable to the articles inclosed in each packet or cardboard box shall be levied, even when the invoice fully and separately states the weight, measure, quantity, description, and kind of goods so packed.

### Decree of May 12, 1896, Establishing a Stamp Duty of 7 Per Cent on Foreign Imported Goods.

[Diario Oficial No. 114, of May 12, 1896.]

Art. 1.[1] In lieu of the consumption duty of 5 per cent at present levied on foreign imported goods and of the excise surtax of 2 per cent (internación) applicable to said goods, a stamp duty of 7 per cent shall, on and after July 1, 1896, be collected on the amount of import duties leviable on the aforesaid goods, exclusive of all other additional duties.

Art. 2. Maritime and frontier custom-houses shall collect this duty in specie and shall keep a special account of all sums received under this head; they must, monthly, deposit the amount of such receipts in the competent stamp office. This office shall, in exchange, deliver to them an original and duplicate receipt for the amount so deposited, detached from a stub book kept for this purpose conformably to the regulations and provisions to be adopted.

Art. 3. For the regular control of the special account mentioned in the preceding article, the custom-houses must remit to the general treasury, in addition to their respective accounts, the original receipt duly certified. The duplicate shall be retained in each custom-house with the copy of the accounts rendered.

Art. 4. This stamp duty shall be levied on foreign goods imported into the free zone; it shall be collected on the total amount of import duties and it must be paid at the time of importation.

Art. 5. All articles of the general maritime and frontier custom-house ordinance, relative to the excise surtax of 2 per cent (internación), as well as articles 96 to 102 of the general law on revenue stamps of April 25, 1893, and all other dispositions relating thereto, are hereby repealed.

Art. 6. The stamp duty established in virtue of the present decree shall be levied on all goods arriving on vessels having anchored in ports of the Republic after midnight on June 30, 1896, or which, conveyed by railway, cross the frontier after the aforesaid hour and date.

## MEXICAN PORT DUES.

The following, dated May 19, 1899, has been received from Consul Jones, of Tuxpan:

I wish to call attention of shippers to article 13 of the new tariff law that went into effect last October, to protect the interior commerce of Mexico. According to this new law, all vessels that enter any Mexican port and wish to proceed with the same cargo or any part of it to another Mexican port, or vessels coming in ballast, taking part cargo at one port, then proceeding to another port to complete cargo, must pay the following rates, presumably in Mexican currency:

| | Per ton gross weight |
|---|---|
| Atlantic ports: | |
| Distance, 60 miles | $1.00 |
| Upward of 60 miles to 360 miles | 3.00 |
| Upward of 360 miles to 500 miles | 5.00 |
| Pacific coast: | |
| Distance, 60 miles | 1.00 |
| Upward of 60 miles to 360 miles | 2.00 |
| Upward of 360 miles to 500 miles | 3.00 |

Two instances of the above ruling—one a cargo of coal, another a cargo of lumber now unloading at this port—have come to my notice.

[1] In the tariff of July, 1897, article 1 is amended as follows:

In virtue of undermentioned decree, goods of foreign origin shall on importation be liable, in addition to the duties specified in the tariff, to the following surtaxes, to be computed on the amount of such duties: Two per cent toward port improvements; 7 per cent for stamp duty; 1½ per cent for municipal tax.

| | 78a[1] | Tanned skins with fine hair | do | 2.00 |
| | 79 | Leather bands for hats | do | 1.50 |

[1] Number 78a, relates to tanned skins with fine hair suitable for furs, as ermine, sable, fox, otter, beaver, and the like. It also comprises the skins of birds, rats, cats, rabbits, wolves, tigers, lions, bears, bisons, zebras, and other rare skins, tanned, with feathers or hair. It is immaterial as regards the tariff classification whether these skins come in bulk or in strips, whether sewed or mounted upon cotton or linen linings. In number 78 are included all manufactures of fine skins, as muffs, boas, or other articles of fur, whether lined with silk or other materials of lower tariff classification; also, garnitures and trimmings of the same skins with cotton, wool, or linen linings are referred to the same number. Rugs made of the rare skins mentioned in explanatory note 41 are included in 78a; also rugs of goatskin or other common hair imitating bear, tiger, or other skins considered rare.

| | 332 | Rails of iron or steel; needles, disks, sleepers, and bolts for railways. | | Free. |
| 110 | 333 | Iron beams and joists, for roofs | Gross kilogram | .01 |

[1] The executive power may, on the importation of iron conducts and iron joints for the same destined to waterworks of cities, at the request of the local authorities, reduce by one-half the duties leviable on these articles according to the tariff. To enjoy this privilege the interior diameter of these conducts must be of at least 8 centimeters; the request must state the quantity, weight, dimensions, as well as all other information establishing the identity of the goods, their destination must be justified to the satisfaction of the secretary of finance, and the request for reduction must be presented to the competent authority previous to customs clearance. (Decree of February 23, 1897.—Diario Oficial No. 46.)

## EXTRACT FROM THE BUDGET LAW FOR THE FISCAL YEAR 1897-98 (JULY 1, 1897, TO JUNE 30, 1898).

[Diario oficial No. 125, of May 26, 1897.]

ARTICLE 1. The Federal budget receipts for the fiscal year extending from July 1, 1897, to June 30, 1898, shall include the following chapters:

### DUTIES ON FOREIGN TRADE.

I. Import duties, conformably to the general maritime and frontier custom-house ordinance of July 12, 1891, together with all modifications, amplifications, and additions thereto.

II. Export duties applicable to building timber and cabinetmakers' wood, and also to dyewoods and mulberry wood produced in the country, and transit duties to be levied on foreign timber in compliance with the laws of December 12, 1893, December 3, 1894, and other enactments in force.

III. Export duties applicable to the under-mentioned natural products:

| | | Per cent. |
|---|---|---|
| A. Roots of the zacaton | 100 kilograms gross | 0.60 |
| B. Chicle | kilogram net | .02 |
| C. Orchil | ton of 1,000 kilograms gross | 5.00 |

IV. Export duties on the following agricultural products:

| | | |
|---|---|---|
| A. Agave, wrought or not | 100 kilograms net | .50 |
| B. Coffee: | | |
| In the bean | do | 3.50 |
| In the husk | do | 3.25 |
| C. Hides and skins: | | |
| 1. Buck and deer skins | 100 kilograms gross | 2.25 |
| 2. Ox hides, etc | do | .75 |
| D. Ixtle, raw | 100 kilograms net | .50 |

V. Transit duties according to subsisting customs ordinances, to the law of December 12, 1892, and to the privileged régime established in favor of railway enterprises.

VI. A surtax of 2 per cent leviable on import duties collected in all maritime and frontier custom-houses, to be applied to port improvements, as prescribed by decrees of May 28, 1881, and November 30, 1888.

VII. Duties established in virtue of paragraphs B and C of article 4 of the decree of May 28, 1881, to increase port dues.

VIII. Tonnage, light-house and warehouse dues, created under the general customs ordinances and subsequent enactments.

IX. Navigation permits, according to laws of January 8 and July 9, 1857.

X. Pilots' and port captains' fees, payable conformably to the law of January 30, 1860, regulations of April 22, 1851, circular of July 30, 1894, decrees of September 4 and October 15, 1895, February 24, 1896, and subsequent dispositions.

XI. Sanitary charges, levied in virtue of decree of October 23, 1895, and other dispositions in force.

Digitized by Google

XII. Fees payable to consuls, vice-consuls, and consular commercial agents of the Republic, pursuant to customs ordinances, decrees of December 27, 1893, July 7, 1894, and other dispositions in force.

XIII. A fee of 5 pesos for every certificate issued by Mexican ministers or consuls abroad payable under article 24 of the commercial code in force, without prejudice to any remuneration due by the party concerned to the legal adviser should the diplomatic or consular agents have required his assistance.

XIV. Special dues collected at Vera Cruz in virtue of the uthorization granted by Congress on December 4, 1894, to be applied to the expenditure incurred by the erection of a shed on the pier of the aforesaid port.

INTERNAL IMPOST APPLICABLE THROUGHOUT THE CONFEDERATION.

XV. Proceeds from revenue stamps.

C. A stamp duty of 7 per cent leviable on the importation of foreign goods, conformably to decree of May 12, 1896.

F. Impost applicable to manufactured tobacco, conformably to law of December 10, 1892, to the decree of May 12, 1896, and other dispositions on the matter.

G. Impost on alcoholic beverages, in compliance with the law of May 4, 1895, and the regulations thereto.

## EXPLANATORY NOTES TO THE TARIFF.

1. All meats packed in kegs, barrels, cases, or cloth, and not put up as alimentary preserves which are generally imported in earthenware vessels, flasks, or tins, shall be dutiable as smoked or salted meat.

2. This number shall only include fish or shellfish, dried, smoked, salted, or pressed, such as cod, dried sardines, herring, etc., which are imported in cases, barrels, or tubs. These products shall only be taxed as preserves when imported in tins, flasks, or pots.

3. By raw whalebone is understood the whalebone as separated from the cetacea, in large curved sheets having the appearance of a horny, fibrous mass. If cut to be used as busks for clothing or for other purposes, the mere fact of this workmanship subjects them to the régime of wrought whalebone.

4. By flock wool is understood wool carding or combing wastes, the remains or ends of clews and also all refuse from weaving looms and from the shearing of tissues.

5. Raw tortoise shell is the shell of the turtle imported in its natural state, in strips, not otherwise wrought, split in pieces ready to be manufactured, in scrap, fragments, or filings.

6. This number refers to bristles of wild boars, provided with a thin and split point, serving to enlace the ends of thread employed in stitching boots and shoes.

7. The cochineal is a small insect which lives on the nopal. It is found in trade either in a dry state, in which case it resembles small convex seeds with cross channelings of a gray or blackish color, or in paste.

The aqueous decoction of cochineal assumes a bright-red slightly yellowish color. When treated with cream of tartar it produces a carmine-red precipitate, and with acetate of copper, a dark-blue precipitate. Hydrochloric and azotic acids mixed with cochineal produce an orange color, and chloride of lime in a solution of one-tenth per cent discolors cochineal and gives a slight white precipitate.

This number applies both to cochineal in seeds and in paste.

8. This number only includes horsehair, bristles, and cows' hair capable of being used for industrial purposes as common materials or of little value. Bristles of the wild boar or hog can only benefit of this régime when imported in a natural state for the manufacture of brushes or like purposes, but not if provided with a point, split and prepared for shoemakers' use.

9. The exterior envelop inclosing the horns and hoofs of certain quadrupeds is considered as unwrought horn when imported in its natural state and in sheets, not otherwise wrought, or split into pieces to be wrought. Waste, parings, and scrapings of horn and hoofs are likewise considered as unwrought horn.

10. This number applies to spermaceti, more or less purified, imported pressed in lumps. In such state this product is white, dry, of a crystalline structure, brilliant and nacreous.

Crude spermaceti has a soft, oily, granular consistency and is of a yellow color; it is dutiable as animal fats.

11. The following are included in this number: All animal fats not specially mentioned in or dutiable under the tariff, such as tallow, rendered or not; fatty materials and yolk in their natural state, animal marrow and waste only fit to be employed as saponifiable or exclusively lubricating greases.

Sheep and ox tallow, being the commonest greases, are of a yellowish-white color, are solid, emit the smell peculiar to tallow and dissolve in 40 per cent of boiling alcohol. Sheep tallow, containing 80 parts of stearine and margarine and only 20 parts

Digitized by Google

of olein, melts at 46° while emitting an unpleasant odor. Beef tallow, not quite as solid, consists of 70 parts of stearine and margarine and only 30 parts of olein; it melts at 38° and also exhales a disagreeable odor. Only ducks' grease melts at a temperature of from 25 to 28°; it is yellow, exceedingly unctuous and contains nearly twice as much olein as solid tallow.

Lard oil is likewise classed under this number.

12. Bone not manufactured into articles is considered as unwrought, even when having undergone certain process of blanching or cleansing, or when simply sawn.

13. By raw wool is meant wool which, not being carded, still remains disorderly entangled, whether it be raw or in the grease, as found after shearing, or be washed and scoured.

14. Shall be deemed to be carded wool, all wool which, after having undergone the process of carding, is presented combed, i. e., with all the yarn drawn out in the same direction and more or less proper for weaving.

15. This denomination shall only apply to ivory which has not been manufactured into wares and which is therefore imported in the shape of elephants' tusks, either sawn into coarse, unpolished pieces, or in fragments and waste. Fossil mammoth ivory, tusks of the hippopotamus and walrus, and horns of the rhinoceros, are also included in this number.

16. By unwrought mother-of-pearl is understood the pearl and other similar shells, provided that the same be not wrought into articles, that they still retain their original form or be simply cleaned and filed with a view to being subsequently cut and converted into wares. This number also includes fine shells, colored or pearled, of all kinds and sizes.

17. Hair, human, imported for the purpose of being wrought, whether dyed or discolored, must be dutiable as human hair.

18. This number includes hair which, whilst not exceedingly thin, may nevertheless be used in spinning or weaving in lieu of wool, such as hair of the goat, camel, cat, dog, seal, alpaca, and angora.

19. With the exception of beaver fur, separately classed in the tariff, this number includes all fine hair especially adapted for the manufacture of hat felts.

20. Hides which have been salted or steeped in poison for preservation, but have not undergone the action of tannins, are classed in this number.

21. This number includes fine ostrich feathers and the like especially prepared for ornamenting hats and clothes. It is understood that ordinary feathers with common barbs shall not be liable to this duty, even if dyed.

22. Musk is an odorous substance inclosed in the bag situated below the belly of the musk deer (moschus moschiferus), which inhabits the mountains of Tibet. When fresh this substance has a soft consistency, a reddish brown color and a penetrating and very diffusible odor. In drying it becomes darker. It is imported sometimes in bags of from 4 to 5 centimeters long, oval shaped, and generally covered with gray hair; at other times in a dry state in small, irregular pieces, completely separated from the bag. It melts under the action of heat and is soluble in boiling water. When mixed with potassium it exhales an ammoniacal odor, but when mixed with bitter almonds it loses its smell. Although several kinds of musk are known under the names of Tonquin, Nankin, Siberian, Kabardin, all such kinds come within the general denomination of musk, classed by the tariff as an animal product.

The product classed under this number must not be confounded with artificial musk imported in the form of an oleaginous liquid or white powder merely containing the odor of musk and which is considered as perfumery.

23. Castoreum is a secretion of the beaver. This product, which has a resinous appearance, is of a dark color, has a penetrating uric odor and a bitter taste. It is generally imported in coupled sacks of a dark color, shriveled and flattened. Castoreum is insoluble in water, but very soluble in alcohol and ether.

24. This number only includes pork-butchers' wares (embutidos) of all kinds, ham and sausages, imported otherwise than in tins as preserves, i. e., in bulk, open or in common wrappers of cloth or tin foil.

25. Meat, fish, and shellfish, preserved, whether prepared with sauces, grease or simply in oil, or without these products, or preserved according to Appert's system, in jars, pots, or tins, are classed in this number; the same régime is applicable to fresh oysters and lobsters, boned or minced ham, mortadella sausages, sausages in grease; dried, smoked, salted. or fresh fish and shellfish, imported in tins, bottles, or pots, and generally to all alimentary preserves of animal produce and not specially mentioned in the present number.

26. By lard is meant white pig's fat, unctuous to the touch, granulous, and of an agreeable odor. Lard is much more soluble in ether than in alcohol; being composed of 38 parts of stearin and margarin and of 62 parts of olein, it is softer than tallow and melts between 26° and 31°.

27. Albumen is generally imported dried, in slightly transparent sheets or scales. It is soluble in water and precipitates under the action of mineral acids. Heated

Digitized by Google

with hydrochloric acid it produces a bluish color. Essences of bergamot, citron, and of mint coagulate albumen. Egg albumen agitated with chloroform forms a jelly.

28. By glue is meant the common glue employed by joiners. This product is manufactured from skin wastes and parings of all kinds, and is found in sheets of a dark color and of a disagreeable animal odor.

29. Coral, unwrought, is that which is imported in lumps or whole or cut branches, but neither polished, carved, nor perforated to be strung.

30. By fine and medium sponges are meant toilet sponges and which, even when partially bleached and freed from their sand and calcareous fragments, are composed of cells never exceeding one-half centimeter in diameter.

31. Common sponges differ from fine and medium sponges by being harder, darker colored, their cells exceeding one-half centimeter in diameter and their volume being larger.

32. This number applies to stearic acid in cakes, a solid, fatty matter, of a slightly transparent white color and lighter than water. This product is insoluble in water and dissolves in boiling lyes of soda or potash and in alcohol.

For the application of the duty the form and size of the cakes are not taken into account, nor is it considered whether the product is sufficiently purified or still contains other fatty acids, rendering it impure. Stearin melted in lumps or pieces follows the same régime.

33. Glycerin which is obtained from the saponification of fatty substances, is a neutral liquid, colorless, odorless, and having a sweet taste. It is soluble in water and in alcohol, and almost insoluble in ether.

Glycerin dissolves gums, soap, creosote, and albumen, but it exercises no dissolving action on calomel, sulphuret of carbon, essential oils or camphor. It precipitates gold chloride.

Only glycerin containing no admixture of foreign substances for the purpose of being converted into medicine or a toilet product is classed under this number.

34. Grenetina or gelatina, which is a product obtained by the action of boiling water on bones, gristle and sinews, occurs in the form of thin, transparant, odorless, insipid, colorless sheets, though sometimes of a red hue. In cold water, which it absorbs, grenetina increases in volume; it dissolves in hot water, and when cooling forms into a transparent and gelatinous mass.

Alcohol congeals its solutions, and gallnuts or tannin produce therein a dark-colored precipitate.

35. Guano is formed from the droppings of various aquatic birds which have been accumulating for several centuries. Generally speaking, it is pulverulent and has a color varying between gray and yellow or dark red. It is mixed with pebbles and rough sand, and when put in contact with water it at once emits carbonic acid. On mixing a small quantity of guano with slackened lime and sufficiently moistening such quantity with water by thorougly shaking it, it ought to emit an ammoniacal odor, and the better the quality of the guano undergoing the test, the stronger the smell. Occasionally guano is mixed with large crystals of sal ammoniac, called guano crystals. Condensed manures, which are classed under this number, consist of very azotic matters, ammoniacal salts, phosphates, and chlorides, and sometimes contain residues of of animal black, sulphate of ammonia, nitrates of soda and of potash, and phosphoric acid.

36. Isinglass is simply the dried sounds of fish. Isinglass occurs in irregular, rough, white, slightly transparent pieces, with a pearly reflection. It completely dissolves in hot water and is used for clarifying wine and other liquids.

37. This number relates to silk which has not been wrought, but which, being simply unwound from the cocoon and bleached, is offered to trade in the form of large skeins. Although silk is subdivided into different kinds, whether it is produced by the Bombix Cinthia, Faid herbii, Mylitta, Selene, Yama-mai or Mori, the tariff makes no distinction and treats all kinds indiscriminately as to payment of import duty.

38. Animal black is bone charcoal, washed or not, employed in industry for discoloring and clarifying certain products.

Ivory black, known also under the name of Cologne or Cassel earth, even if used as a pigment, and whether in powder or granulated, and likewise all pure animal charcoal, for whatever use intended, are included in this number.

39. Only white or black cod-liver oil, unprepared, i. e., not presented in the form of a patent medicine.

40. By leather belting for machinery are understood bands of a uniform width corresponding to the surface of the pulley to which destined, provided that their length be also in proportion to such destination. For instance, single strips of leather can not be considered as belts unless joined together to form a transmission belt.

41. This number comprises ordinary tanned hides, even if colored, polished, stamped, or varnished. Hides tanned with the hair only follow this régime in the

Digitized by Google

case of common skins. Rare skins, such as those of the tiger and the like, must be dutiable as fine hair skins, irrespective whether of one single piece or composed of different pieces joined together or applied on tissue.

42. This number refers to sets of harness, complete or not; accordingly collars, traces, and other parts follow the same régime, with the exception of detached buckles and rings, even when covered with leather.

43. Are included in this number fine skins tanned with the hair, used for furs, such as ermine, sable, fox, otter, beaver, and the like. No difference is made in their classification if imported in strips or bands, sewn or made up into articles, such as cuffs, boas, or cloaks.

The following are likewise included in this number, viz, the skins of birds, rats, cats, rabbits, wolves, tigers, lions, bears, bisons, zebras, etc., provided they be tanned with their feathers or hair, even if lined or made up into articles.

44. Wrought coral is that which is cut and polished, whether carved, presented in pearls, or simply in fragments perforated to be strung in the form of chaplets.

45. By ginned cotton is understood cotton which has passed through the ginning machine and which, freed from its seed, only consists of entangled and disorderly fibers.

46. The régime of this number shall apply to waste of cotton from the cards after the process of carding, thread waste, the waste of balls from the looms, and all waste which can be utilized for machine cleaning and for lubricating axle bearings.

47. This number applies to cotton which, after having been carded, is presented with all its fibers arranged in the same direction, thus forming sheets of finely combed textile materials.

This régime also applies to carded cotton used in medicine under the name of absorbing cotton, provided, of course, it be not saturated with medicinal substances; also carded cotton glued or fixed upon Chinese (tissue) paper, known under the name of wadding used for padding.

48. Green aniseed is a small oblong seed of about 3 millimeters, of a green color and a sweetish taste, which must not be confounded with Chinese anise, star anise, or badian, for the latter is formed of at least six dark-brown oval shells, gathered together at the top in such manner as to form a star. Each shell contains a very shiny seed of a very strong anise odor, and which are used in preparation of certain liqueurs.

49. Under the denomination of dried fruits are classed all fruits which in their natural state contain no watery juice, such as nuts, hazelnuts, etc.; likewise those dried in the oven, in the sun, or by any other process, e. g., raisins, figs, dates, chestnuts, etc.

50. This number applies to fresh garden produce, vegetables, tubers, and fruits not specially mentioned in the tariff. By fresh fruit is understood fruit which, owing to its juicy nature, is easily perishable, such as grapes, apples, oranges, pineapples, pears, etc., and having undergone no preparation likely to alter their state of freshness.

51. The following are included in this number: Vegetable alimentary products, preserved, not specially mentioned, with or without sauces, when imported in tins or glass or earthenware receptacles, such as pease, asparagus, cabbage, pickles, mustard or pimento sauces, and other edible preserves, with the exception of fruits in sirup, juice, or brandy.

52. Only medicinal seeds and berries, fresh or dried, but neither pulverized, grated, nor pressed in the form of a paste or cakes, are included in this number.

53. Rough cork is the bark of the cork tree still coated with its rough and hard crust, forming the outer part of the trunk. Cork cut into sheets is free from its rough surface. It is used for making stoppers, and is not otherwise dutiable if, instead of being imported in large sheets, it enters in the form of cubes of from 3 to 5 centimeters side. As this number merely covers the raw material destined to industrial purposes, it only applies to sheets of greater or less thickness and not to thin sheets for soles and other purposes.

54. Vegetable hair is a fibrous parasite plant known under the name of Spanish beard (barbe espagnole) and used as excelsior for upholstering furniture.

55. Rough common wood only, proceeding from the felling of trees and solely fit for use as firewood, is included in this number, to the exclusion of fine wood in pieces capable of being employed in cabinet work.

56. Lycopodium is formed by the light spores of an orange-like yellow, which fall from the cryptogam known under the name of Lycopodium clavatum. It is lighter than water, upon which it floats. It is quickly inflammable when thrown on a flame.

57. In this number are included all preserves, fruit sirups, sweetmeats, fruits preserved in sirup or candied, dessert pastry, but not such preserves as, being simply used as excipients for medicinal substances, are rendered unfit for table use.

58. This number comprises pure feculæ and likewise all feculæ prepared by means of milk, sugar, barley, or other nutritious substances, intended for infants' food and

Digitized by Google

invalids. Feculæ in whose composition medicinal substances enter shall also follow the régime of this number, which likewise applies to tapioca, arrowroot, and semolina, provided that these articles retain their character of alimentary or nutritive products.

59. All kinds of biscuits, even dessert, are included in this number. By dessert biscuits are understood those ornamented with sugar, chocolate, seeds, or fruits, and not those consisting of an interior of floury paste completely covered with sugar paste and resembling bonbons. Plum puddings, gingerbread, and the like shall follow the same régime.

60. This number applies to molasses of the sugar cane, maple, or glucose, thick and viscous, employed in industry as raw materials, but not to sirups, fully clarified, colored, or mixed with fruit juices or aromatic substances and fit for immediate use as sirups.

61. By alimentary pastes are meant the so-called Italian pastes used for soups, such as vermicelli, tagliarini, macaroni, stars, etc.

62. Under this number are classed nonvolatile oils of vegetable origin, generally obtained by the crushing of seeds, fruits, or other parts of plants. At a normal temperature these oils are liquid, some under like conditions being, however, solid or unctious, such as, e. g., cocoa oil, nutmeg oil, and others, which in that case are called concrete. A drop of fixed oil poured on paper will produce a greasy stain which does not disappear by quick evaporation. Contrary to essential or volatile oils, fixed oils saponify under the action of alkalies.

63. Gums, resins, and balsams referred to in this number are obtained from gum-resinous plants by incision, exudation, or any other process.

These substances shall, unless otherwise mentioned, be dutiable according to this number.

64. Opium is the gum-resinous juice extracted by incisions made in the capsules of the poppy. It has a pasty consistency, a dark color, a strong odor, and a bitter and acrid taste.

65. Essential oils are extracted from the odorous matter contained in the utricles of some vegetables. Their odor spreads easily by reason of their being very volatile; whilst being inflammable, of an acrid taste, they are soluble in alcohol, ether, and fixed oils and insoluble in water, which, however, they may aromatize by contact. They dissolve phosphorous, iodine, sulphur, and greases, and are incapable of saponifying under the action of alkalies. Certain essential oils, as of camphor, menthol, and others, are solid; some are real stearoptenes, others, such as thymol, constitute acid principles.

66. Spirits or essence of turpentine is obtained from the distillation of the resinous pine tree. It dissolves phosphorous, iodine, caoutchouc, resins, and greases. It is volatile and inflammable.

Turpentines are resinous, fluid, have a strong smell, an acrid taste, and are of a more or less yellowish color. In trade they are subdivided into different kinds, known under the names of Bordeaux, Canadian, Chio (Kioo), Mecca, Venice, Triest, and Strasburg turpentines. All these, including terebenthene, terpene, and terpinol are dutiable according to this number.

67. This number includes tar produced by the distillation or combustion of certain resinous woods. When in the mass this product is black, but if spread out into thin sheets it assumes a reddish tint. It is acrid and bitter to the palate; has a strong smell, resembling that of burnt resin. Tar is soluble in alcohol, ether, and oils, and it communicates its taste to water, which it slightly colors yellow. Vegetable tar of any kind, cade oil, and creosote come under this same régime. Solutions and other pharmaceutical preparations of these kinds, such as "goudron de Guyot," are comprised in "Pharmaceutical products not specially mentioned" and not in this number.

68. The unwrought amber mentioned in this number is the fossil resin called "karabé" or "succin," such as found in the earth. It is yellow, opaque and transparent, hard and brittle. When burnt, it exhales an aromatic odor, and it is almost insoluble in alcohol, ether, fixed and volatile oils, acetic and nitric acids, diluted alkalies, sulphuret of carbon, and in benzine. It can be distinguished from resins used in imitation or falsification of this product, owing to these resins exhaling, when burning, a resinous odor; dissolving in essential oils; and a bit of amber ignited and falling upon a table rebounds with a slight crepitation and consumes, whereas, under like conditions, a drop of resin or of gum copal spreads in falling, ceases to burn, and consumes without noise or motion.

69. Indigo is a coloring vegetable substance obtained from certain plants. It occurs in irregular lumps of a fine dark-blue color, which, on being rubbed by means of a smooth body, assume a copperish reflection. Indigo is odorless and insipid. In dissolving the same, sulphuric acid produces a thick liquid with greenish reflections. Both nitric acid and chlorine discolor indigo.

Prussian blue serves to imitate indigo, but in such case the lumps are of a brighter

Digitized by Google

blue and velvety. Prussian blue discolors under the action of sulphuric acid, but not under that of chlorine.

70. This number includes charcoal used as fuel and also powdered charcoal for whatever use.

71. By "vegetable wax" is meant all wax proceeding from various vegetable products, such as Chinese or Japanese wax or palmitine, Carnauba wax, palm-tree wax or "céroxyle," myrica or myrtle wax, "bicuiba" and "ocuba" wax.

72. Dextrine is used in industry as a substitute for gum or gluten arising from the roasting of starch or feculæ. It is generally imported in a yellowish powder, slightly adhesive, and with the brilliant and odor peculiar to feculæ. It is soluble in water or in very diluted alcohol, but insoluble in high-proof alcohol.

Well-prepared dextrine is not colored blue under the action of iodine.

73. Damar gum or "kowry" resin is colorless when newly extracted, but it subsequently assumes a yellow color, sometimes rather dark with opaque or milky parts. It is easily fusible. When reduced to powder, it emits an aromatic odor of turpentine and sometimes the perfume of orange peel. Being very brittle, it is easily reduced to pieces. It occurs sometimes in large tears; sometimes in masses of an irregular angular shape, with an opaque, gray or blackish surface.

Copal gum or resin is greatly analogous to damar gum. It sometimes occurs in tears; sometimes in irregular spherical or agglomerated fragments covered with a whitish dust. Its color varies between light yellow and orange yellow. It is insoluble in fixed oils, and while burning emits a strong resinous odor.

Gum arabic is white, of a vitreous aspect, and brittle. Being soluble in water, it forms therein an agglutinant mucilage. Generally, gum arabic is substituted by or mixed with Senegal, Galam, or "Salabreda" gum, which occurs in irregular, crackled tears of white, blond, or reddish color. Like gum arabic, these products are soluble in water.

"Salabreda" gum is more transparent and generally takes the shape of small twisted ribbons. Gum arabic solution gives a gelatinous precipitate under the action of protonitrate of mercury, which, however, only disturbs in a small degree a solution of Senegal gum.

Gum lac occurs sometimes in dark-colored sticks full of impure matter, at other times in irregular fragments, and more frequently in shells or small, thin, brittle sheets. It varies between a blond color and dark red. It is insoluble in water, ether, sulphuret of carbon, benzine, turpentine oil, acetic acid, and ammoniac, and is soluble in alcohol and in caustic soda.

In trade, is also known a white gum lac in sticks, twisted in spirals, shiny and silky, which proceeds from the artificial discoloration of yellow lac.

Barbary-tree gum or sandarac is in small lengthened lemon-colored sheets, generally coated with a very fine and clear dust. Its odor is somewhat resinous. It is soluble in alcohol, with which it furnishes a very brilliant varnish. Although soluble in ether, it is insoluble in acetic acid and caustic soda.

Gum tragacanth occurs in sheets, flakes, or flat white filaments, having the appearance of horn. It is insipid and odorless. When in contact with water it absorbs the latter and slowly swells into a thick mucilaginous mass, which becomes of a blue color under the action of iodine.

74. Orchil is a coloring substance obtained from the litchen of the same name. Red or violet orchil occurs in a paste or liquid extract, or even in powder, under the name of cudbear. Blue orchil always occurs in small fragments, which in commerce are called litmus stones.

75. This number applies to tannic acid, a powder which is light, spongy, brilliant, yellow, odorless, and astringent to the taste. It is soluble in water, alcohol, or glycerin. Tannic acid is insoluble in pure ether. When treated with ferrous salts tannic acid solutions form a black precipitate, and likewise precipitate solutions of gelatin and albumen.

76. By common building wood is meant any wood unfit for cabinetmakers' work, and which can solely be employed for the building of wooden houses, for usual woodwork, ordinary flooring, or other common or rough work. As specimens of such wood may be cited the pine, oak, poplar, alder, acacia, and ash. This wood may be imported in blocks, beams, planks, and boards, sawn but not planed. Exemption from duty shall not, however, apply thereto if grooved and dovetailed; if sawn into thin sheets for veneers; if wrought in the form of moldings or mosaics; if turned, carved, open-worked, stamped out or veneered, and if imported in fitted or projecting jointed boards.

77. This number includes white-pine wood or resinous fir planks, planed on one surface only, and whose borders are provided on one side with a groove and on the other with a tongue, for the purpose of joining the same.

78. By fine woods is understood any wood which, in addition to its hardness and the fineness of its grain, susceptible of taking a bright polish, is sought after for fine marquetry wares, owing to the beauty of its shades and to its more or less capricious designs, its elasticity, and even its rareness or high price.

Digitized by Google

Among the different fine woods most generally employed may be mentioned the following, viz: Mahogany, a hard red wood, which darkens under the influence of the air, with compact and fine fibers, susceptible of a fine polish. Its veins always get wider in the same direction and are always darker than the ground. Mahogany is bitter; it emits an aromatic odor similar to that of pepper, which doubtless contributes to preserving it against insects. Ebony, a hard heavy wood, with fine compact grain, of a dark-red color, with dark or completely black veins. This wood sometimes presents violaceous veins and white spots and sometimes a greenish or yellowish tint. The grenadillo, a hard heavy wood, close-grained, blackish, with red veins; the jasmine, a hard compact wood, of a yellow color, with darker veins or spots, resinous and aromatic; the walnut, a wood with lengthened pores, not very hard, of a hazelnut color, with veins and very variegated and capricious designs, susceptible of a fine polish; the palissander, a hard and very thin-grained wood, sometimes presenting apparent fibers. It is hazelnut or violaceous fawn-colored, with veins of a blackish red, which darken under the action of the air. Pallissander is resinous and emits a perfume similar to that of the Florence lily. The rosewood, "Rhodes" wood, the spotted maple ("gateado"), and the thyine wood.

79. This number applies to boards formed by the superposition of different strips of poplar wood, specially employed for the building of carriage bodies. These strips are generally superposed in such a manner that the fibers of one strip are arranged in the opposite direction to the fibers of the other.

80. The following articles are included in this number: Moldings, caryatids rosettes, and other molded articles made of a composition of sawdust combined with glue, fibrin, stuc, sulphur, or other materials, and the surface or outward part of which is covered by an exceedingly thin sheet of wood, which gives to the whole article the appearance of wood carving.

81. In Nos. 237 and 237*a* are classed twine and cordage of hemp, jute, aloes, and vegetable fibers other than cotton and flax, provided the diameter thereof be less than 3 centimeters.

82. Old cordage for the manufacture of paper must be of a length unfit for a use other than as fibers. If, owing to their size, doubts exist as to their real application, it will be sufficient for the party concerned to consent that the cordage be cut into pieces not exceeding 1 meter, at his expense, in the custom-house.

83. The rags referred to in this number must consist of actual rags only fit for the manufacture of paper pulp.

84. *Articles of common wood roughly wrought.*—By articles of wood roughly wrought must be understood only ordinary articles not specified, which, even when planed, varnished, or painted, do not contain pieces of wood bordered, turned or perforated work, moldings, carvings, or other kinds of ornamentation or addition which are not of wood roughly wrought. When the articles under consideration contain parts of other material and come under Regulation IV, designated for the application of the tariff, even if the predominating materal be common wood roughly wrought, said articles are not classed under No. 207, but No. 208, provided the weight of the articles does not exceed 1 kilogram; if it does, then in No. 211.

*Articles of common wood which are not roughly wrought and weigh more than 1 kilogram.*—In No. 208 are comprised articles of common wood not specified, which weigh more than 1 kilogram, having moldings, carvings, turned work, pieces of bordered wood, or any other kind of work in wood which is not rough nor made with inlaid work or incrustations. If the wood of the articles has been turned solely to give it a form more or less cylindrical, entirely smooth, as happens, for instance, in broom handles, the turning is not counted in the classification of the articles.

*Articles of fine wood weighing more than 1 kilogram.*—In No. 209 are comprised articles not specified of massive, fine wood, or of common wood veneered with fine wood over the whole or part of the article, whatever may be the work of the wood, provided that it is not inlaid and that the articles mentioned weigh more than 1 kilogram.

*Articles of wood inlaid.*—By "inlaid," in wood referred to, is meant workmanship of marquetry. Accordingly, all articles of wood not specified, whatever may be the kind of wood and the weight of the article, which are inlaid or incrusted with wood, mother-of-pearl, ivory, tortoise shell, celluloid, common metal, or other material not fine metal, are referred to No. 210. Plates of metal or of other material set in the articles, and containing inscriptions, or prepared for engraving, or even to serve for key plates, are not considered as inlaid.

*Articles of wood with metal ornaments.*—Articles not specified, of any weight whatsoever, and of any kind of wood, having ornaments of bronze or of other metal, except gold, silver, or platinum, are referred to No. 210. By ornaments of metal on the articles are meant moldings, work perforated in plates, ornaments, or engraved figures, placed on or incrusted in them for the purpose of embellishment and not to serve as simple accessories. Said ornaments may be of any common metal, including nickeled, gilded, or plated. Plates of metal or other material, incrusted in the

Digitized by Google

articles or placed on them, with any inscription or destined to receive one; plates for key plates; small metal plates; catches or buttons for fastening; handles, or the simple knobs for closing or resting are not considered as ornaments.

*Articles of wood not specified.*—Articles of wood classified under 208 and 209 are referred to No. 211 when the weight of the article does not exceed 1 kilogram; also all classes of articles of fine or common wood not included in any other sections of the tariff fall under 211.

*The class of wood.*—The articles of wood referred to in this note and in whose manufacture both fine and common wood center in any proportion whatsoever shall, for the purposes of customs classification, be estimated as fine wood alone, unless the pieces comprising each kind of wood come dismounted, so that their weight can be verified. In this case each piece will be referred to the class of wood to which it belongs. (See notes 76 and 78 for the distinction between fine and common woods.)

*Articles of wood gilded.*—Picture frames and moldings of wood dressed, prepared, and ornamented with gypsum and afterwards gilded, silvered, or colored, as well as any other article of wood not specified and of the same kind of construction, will be referred to No. 211, even when the weight exceeds 1 kilogram. Articles imported with the wood prepared with gypsum only, ready for gilding, silvering, etc., and weighing more than 1 kilogram, will be included in 208.

*Statues or sculptures.*—Statues or carved work of wood alone, even when weighing more than 1 kilogram, are not included in sections 208 and 209, but in 211, as articles of wood not specified.

*Laquer.*—Articles of wood japanned, called laquer on account of being covered with the varnish of this name, much used in China and Japan, must not be included in sections 208 and 209, even when the weight of each article exceeds a kilogram, but in 210 or 211, according as they have incrustations or not. In the articles above referred to the varnish, which has a polish and a hardness difficult to confound with any other, must cover the wood so that it disappears completely from view. This disposition is applicable as well to the real laquer of Japan and of China as to the imitations of the same. These imitations must not, however, be confounded with articles made from the pulp of paper, called papier-maché, in which, it is observed, that besides the varnish not having the polish of the laquer, the outlines, surface, and edges do not show the regularity and perfection of works executed in wood.

*Maces for billiards.*—Maces of wood for billiards without incrustations will be comprised in No. 211, as articles of wood not specified, without taking into consideration the leather tips. Maces having incrustations not of fine metal will be referred to No. 210, and those adorned or inlaid with fine metal to 856.

85. *Furniture of common wood, roughly wrought.*—Furniture of common wood roughly wrought, and which, even when painted or varnished, does not contain pieces of wood bordered, turned work, moldings, carvings, ornaments of metal, inlaid work or incrustations is included in section 247. Neither should it contain parts of cloth or any material other than common wood roughly wrought. Consequently furniture for sitting purposes, having carved backs or arms, or backs or seats made with strips of joined wood, with ordinary stuffs, such as canvas, ticking, sailcloth, carpeting, or of leather, even when the greater part of the article is of common wood roughly wrought, is not referred to in section 247, but to 249. In the same manner, beds or cots with canvas, ticking, sailcloth, or with covered springs of copper called wire mattresses; wardrobes with glass or wire network; refrigerators or other articles of furniture having linings or component parts of common metal, marble or mirrors, even when from the kind of wood they would be classed under 247, are referred to 248.

*Furniture of common wood, not for sitting purposes, and not roughly finished.*—The section 248 cited above refers to furniture of common wood, not for sitting purposes, not roughly finished, and having moldings, carvings, turned work, or any other kind of work in wood, not roughly wrought nor made with inlaid work or incrustations. These articles of furniture may contain glass, wire network, linings of zinc, plates of tin or iron, and also parts of common metal not for ornamental purposes, provided always that the predominating part is of wood. Wool or felt cloth or leather glued to writing desks, card tables, or other like furniture, or canvas, ticking, or sailcloth, for beds or cots, will not be a reason for changing the classification of the said articles.

*Furniture of common wood, for sitting purposes, not roughly finished.*—In section 249 are included chairs, armchairs, sofas, lounges, and the like, as couches and foot rests. The wood of these articles may show any kind of work except inlaying and incrustations, and the backs and seats must be of common wood, of latticework, or other weave of reeds, or of canvas, ticking, sailcloth, carpeting, papier-maché or leather; but without being covered with silk or mixed-silk textiles, and without being cushioned or having metal ornaments.

*Furniture of common wood, cushioned.*—In section 249*a* are included articles of furniture for sitting purposes of common wood without inlaid work or metal ornaments,

Digitized by Google

having their backs, seats, or arms cushioned with wool, cotton, istle, shavings, straw, or other suitable material commonly used for this purpose, or which, without being cushioned, have springs in the seats; provided, always, that the covering or lining of the furniture is not of silk or mixed-silk tissues. The silk used in the garniture, borders, fringes, and braids of the said furniture will not be considered in deciding the customs classification, provided the covering, as a whole, properly so called, does not contain silk.

*Furniture of fine wood, without cushions.*—Are included in section 250 all kinds of furniture made of massive fine wood or of common wood veneered with strips of fine wood over the whole or a part of the furniture, which do not contain inlaid work, metal ornaments, or cushions. Even when the veneering of the furniture is made ordinarily of fine wood some parts may be veneered with strips of common wood to cover the interstices of said wood on the edges where it is most visible. In this case the veneering of wood will not be considered in the classification of the furniture. To the furniture of section 250 are applicable all the regulations in this note for articles comprised in sections 248 and 249, with the difference consequent on the class of wood.

*Furniture of fine wood, with cushions.*—Furniture comprised in section 251 must unite the same conditions as that classed under 249*a*, with the difference that the kind of wood employed must be fine, or common wood veneered with fine.

*Furniture of wood, inlaid or with metal ornaments* —Section 252 refers to furniture of wood of every class when they contain inlaid work or incrustations of wood, mother-of-pearl, ivory, tortoise shell, celluloid, or other material not fine metal; or, indeed, ornaments of bronze or other common metals. (See in a former note as regards inlaid work, and what is meant by ornaments of metal.) Are not considered as inlaid work or as ornaments the metal plates or plates of other material, incrusted in furniture or placed upon it, with any inscription, or destined to receive one; plates for keyholes; small metal plates, catches and tassels for drawers, holds, tacks to fasten linings or coverings, or simple knobs for closing or supporting.

*Furniture of wood, with silk.*—Are included in section 252 furniture of every kind of wood and make, containing pure or mixed-silk tissues, whether in the covering of the cushions or in any other part of the furniture.

*Mirrors.*—Mirrors which form part of an article of furniture are those which can not be separated from it without the furniture remaining incomplete. Mirrors that, even when forming part of furniture comprised in section 250, measure more than 75 centimeters (29.5 inches) in their greater dimension, as well as those of any other measure, coming in furniture comprised in section 248, will be dutiable as mirrors with frames, including the frames or pieces which frame or hold them; for which they must be declared with separation of the furniture or furnitures to which they correspond. This separation of the mirrors will not be considered a reason for estimating the articles of furniture as incomplete in applying the customs duties. In like manner they shall be referred when for the convenience of the importers the plate glass of the mirrors is sent separate from the frames or pieces of furniture for the purpose of declaring them, or importing them, as mirrors without frames. To appraise the greatest measure fixed for mirrors in furniture, included in section 250, the frames or pieces which inclose them will not be included in the measure, but simply the visible part of the glass. Mirrors corresponding to the furniture referred to in section 252 will be subject to the same duty.

*Marbles.*—Marble tops or other pieces of marble, forming part of furniture, will be subject to duty separately, without altering the classification of the furniture. Only when the pieces of marble are united or set in any part of the furniture, or when they are not entered as separate, they are dutiable according to the corresponding furniture.

*Key plates, handles, and other accessories.*—Key plates, handles, or catches or knobs of furniture, even when they are of a different wood from that of the furniture and carved or turned, will not be taken into account in the classification of said articles of furniture, not even when the key plates, handles, knobs, and castors are of common metal or of other material not fine metal, nor locks, hinges, or other accessories, which are of common metal and do not constitute ornamentation.

*Class of wood in furniture.*—Furniture made with parts of fine wood and other parts of common wood in any proportion whatsoever must pay duty as fine woods. (See Notes 76 and 78 for the difference between fine and common wood.)

*Furniture of gilded wood.*—Furniture of wood prepared with gypsum and gilded is included in sections 250 or 251 according as they are upholstered or not; provided that the upholstery is not of pure or mixed-silk tissues, which case they are referred to section 252 according to the description in said note. Simple fillets, ornaments, or any kind of gilding executed directly on the wood of the furniture or upon its varnish or paint, will not alter the classification.

*Furniture of osier, reed, or cane.*—Furniture of osier or reed, of Chinese style as well as that of bamboo, even when they have some pieces of wood, would not be included in the sections to which this note refers, but will be referred to Nos. 228 and 229,

Digitized by Google

according to the class, as such articles of osier, reed, or cane not specified. This furniture must not be confounded with bent-wood furniture, known as Vienna furniture, which is dutiable as furniture of common wood not roughly wrought.

86. Massive furniture of fine wood and furniture of ordinary wood, veneered with fine wood, whether fitted or not with marble tops or mirrors, provided that the same be not upholstered, shall be dutiable according to this number.

For the classification of mirrors, see Article VII of the general regulations.

87. This number shall comprise massive furniture of fine wood or furniture of ordinary wood veneered with fine wood, also furniture of gilt wood when covered with leather or any kind of tissue not containing silk, whether fitted or not with mirrors or marble tops. The same régime shall apply to furniture covered with leather or tissue not containing silk, even if only furnished with a simple silk band ornament, or fringe, provided that the entire covering proper contain no silk.

For the classification of mirrors, see Article VII of the general regulations.

88. This number applies to furniture of fine or ordinary wood, upholstered with pure or mixed silk tissues.

89. This number shall comprise furniture of any kind and of all materials inlaid with wood, mother-of-pearl, ivory, tortoise shell, or metals other than gold, silver, or platinum. If, for instance, this furniture were combined with any part of such last-named metals it would be dutiable according to No. 856 of the tariff.

By "inlaid," above referred to, is meant the most delicate workmanship of marquetry. Accordingly, furniture inlaid with celluloid, coral, mosaic, onyx, wood, or composition must be classed in this number. This duty is not applicable to furniture merely provided with inlaid plates, handles, or key guards, or to those with ordinary metal applications in the form of moldings, rosettes, or carved ornaments.

90. Are included in this number filings, clipping waste, ingots, grains, and plates of gold, silver, or platinum, neither engraved, stamped, open worked, nor rolled in such manner as to be employable as silver or gold beaten in leaves for gilding.

91. The tariff includes in this number as wire-drawn articles metals specially prepared for the manufacture of galloons, trimmings, and embroideries, such as purl, spangles, leaves, threads, lamellas, etc., but not wares manufactured therewith.

92. Under the denomination of galloons are understood galloon makers' products woven or manufactured with articles obtained by metal drawing. This number, therefore, only applies to galloons properly so called, fringes, bullions, trimmings, tapes, puffs, tassels, lace and embroidery of metallic thread or purl.

93. This number includes square, octagonal, or round bars exceeding 10 millimeters in diameter, serving for the manufacture of bolts and other articles.

By white metal is meant white alloys of different metals with copper, other than silver alloys, which are considered as pure silver.

This category of metals includes copper and zinc alloys known under the name of Pinchbeck, oreide, Tournay, chrysorin, Japanese Sin chu, Muntz's metal, Aich metal, Bath metal, Metchts's metal, Bristol metal, and Kessler's alloy, brass-platinum, and Mallet's brass; alloys of copper, zinc, tin, and lead, such as statue bronze, Stolberg's, Jackson's et Polin's brass, white Chinese bronze, Japanese Kara-Kane; metal for friction pieces; alloys of copper, tin, zinc, antimony, and nickel, such as electrum, alfenide, packfong, alpaca, German silver, tutania, achberrium, spelter, Sheffield, Britannia, Pholin, and Algerian metals; alloy of copper and aluminum known under the name of aluminum and phosphor or phosphorous bronze.

94. Only such plates and sheets as are destined to industrial purposes, but not thin sheets, such as tinsel, enamel (smalt), and imitation gold in booklets, specified in the tariff, are included in this number.

95. By wire described in this number is meant round wire, the largest diameter of which does not exceed 9 millimeters, i. e., No. 00 Birmingham gauge.

96. Under the head of jewelry are classed small fancy articles exclusively used as ornaments, such as earrings, rings, brooches, breastpins, collar and shirt studs, sleeve links, chains, trinkets, medallions, bracelets, etc., but not goldsmiths' wares, canes, watches, or other like articles specified in the tariff.

97. Tinsel is a small sheet of beaten brass, which is so thin that it is exceedingly flexible, although being somewhat thicker than gilders' gold leaf. On being simply moved tinsel sheets produce a metallic sound. Smalt in leaves consists of a sheet of beaten copper analogous to tinsel, from which it differs on one side, this being whitened and coated with a varnish of transparent color. Mosaic worked smalt consists of small designs in relief chiseled upon the aforesaid sheets. Thin hammered metal leaf for gilding, commonly known under the name of gilders' silver or imitation gold, is likewise classed under this number.

98. This number includes metallic powders for bronzing used by printers, lithographers, and painters to imitate dull gold, silver, or bronze on the articles to which applied.

Varnish already prepared with the powders referred to, also cups and shells containing silver or gold paste for painters, are dutiable according to this number.

Digitized by Google

99. Steel cast into square sectional bars of any thickness, for industrial purposes, and round or octagonal steel rods of a diameter of from more than 9 and up to 18 millimeters, or exceeding 32 millimeters, are classed in this number.

100. By bars for mines are understood cylindrical or octagonal steel rods, cut to lengths, having one end sharpened or tapered, tempered according to the hardness of the rock to be bored, and used in mines by miners. These tools are generally whetted on the spot, so that at the time of their importation they are 3 meters or more in length, and their extremities are not cut. Mining bars must be of a diameter of at least 19 millimeters (three-fourths of an English inch) and 32 millimeters (1¼ of an English inch) at the utmost; therefore, steel bars under 19 or over 32 millimeters shall not be considered as comprised in No. 306. Bars which are already cut and sharpened, of a diameter between 19 and 32 millimeters, shall enjoy the exemption as uncut mining bars.

101. Iron or steel wire, specified in Nos. 307 and 308, shall, for the collection of duty, be treated in like manner, whether the same be galvanized (zincked) or not, or tinned or not. The diameter of the wire specified in No. 307 must be over 1 millimeter, i. e., it must exceed No. 20 Birmingham gauge, but not more than 9 millimeters, viz, No. 00 of said gauge. Wire of a larger diameter shall, if of iron, be classed under No. 323 as round iron, and if of steel under No. 305 as steel in bars. Strings for musical instruments of iron or steel wire, not covered with thread, are, according to thickness, dutiable in accordance with the regulations established in this note.[1]

102. This number is applicable to iron wire which, having passed through the rolling mills, has lost its round shape and is slightly flattened and fit for mechanical book or pamphlet binding. According to the kind of apparatus in connection with which it is to be used, this wire is imported in coils or on bobbins, or even in the form of small hooks. Generally, at its thinnest part, the wire referred to measures Nos. 24 to 26 of the Birmingham gauge, and at its flat part or width, Nos. 20 to 23 of said gauge. Hooks made from such wire follow the same régime.

103. Iron wire for fences consists either of a double galvanized (zincked) wire, twisted into an open spiral provided at its interstices with a sharp-pointed barb, or an iron strip with points, or of a galvanized iron strip in lieu of the iron wire, of 1 or 2 centimeters in width, spirally twisted and barbed. Under No. 311 are also classed, as being used as fencing, bands composed of galvanized iron wire netting, provided that they do not exceed 5 centimeters in width. Hooks for fastening fence wire are dutiable according to No. 340 (see note 111). A double iron wire, twisted into an open spiral, unbarbed, consisting of galvanized telegraph wire.

104. The hoops referred to are pieces of hoop iron intended to bind, once around, bales of fiber or other materials. They are either perforated at their ends to be riveted or provided with special clasps. These hoops are sometimes furnished with triangular holes at intervals in the length, to economize metal or to lessen the weight.

Clasped iron wire for baling packages is imported in pieces, cut so as to go around same once, and securing bales of different vegetable fibers in lieu of cords or hoops. These fasteners are usually of galvanized iron wire, sometimes single, sometimes double, and twisted in very open spirals.

105. By iron cables is meant cordage formed by the twisting of different wires.

106. Only axletrees whose ends are turned on the lathe can be considered as such, whether provided with nuts or not.

107. Iron ingots described in this number must be of first fusion, i. e., proceed from the first casting of the ore. Filings may be of any thickness, and scales and shavings shall be considered as such. By scrap metal must be understood irregular fragments of metal and old iron destined to fusion.

First fusion iron can be distinguished from rough wrought iron on account of its being brittle. For instance, a piece of cast iron measuring from 3 to 4 square inches or 3 to 4 inches in diameter, placed on the ground, is liable to break under five or six blows of a hammer weighing 15 pounds, or of a sledge hammer, whereas, under like conditions, it is quite impossible to break wrought iron.

108. By hoop iron is understood the strips of iron generally employed for baling goods, from 25 to 60 millimeters in width, and corresponding in thickness to Nos. 14 to 20, inclusive, Birmingham gauge. Round iron means cylindrical iron rods, exceeding 9 millimeters in diameter, and by square iron is meant square-sectioned iron rods, of whatever thickness. By flat iron bars are understood prismatic bars whose section has the form of a parallelogram. Owing to its thickness, which must be over 2 millimeters or exceed No. 14, Birmingham gauge, such iron must not be confounded with hoop iron. Solid bars, whose section has the form of a half circle or segment of a sphere, are called semiround rods.

---

[1] To calculate the gauge of flat iron wire, and for its classification in Nos. 307 and 308, the thickness and width of the wire must be added together, and one-half of the total shall be taken for the basis. (Circular of April 23, 1897, Diario oficial, No. 97, of April 23, 1897.)

Digitized by Google

The following shall be liable to the same régime, viz, all solid bar iron destined to industrial purposes, whether hexagonal, octagonal, triangular, or elliptic.

109. This number includes flat iron bars, folded along the entire length, whose section represents any kind of angle formed by the longitudinal halves of the bar. T-iron consists of two flat bars superposed in such a manner that one is perpendicular in plane to the other and forms two straight angles. These two kinds of iron, which are of a light weight, must not be confounded with roofing beams or joists, which may be of the same shape. This number further comprises light rods whose section has the form of a stanchion or the like, used for window frames in iron buildings, also mushroom shaped bar iron.

110. By beams and joists for roofs are understood solid iron pieces, capable of supporting, without bending, a comparatively heavy weight. Their sections, according to their application or the resistance to be offered, has different forms, such as T, I, L, U, etc.[1]

Half round or quarter round iron with perforated edges, for columns, and iron corbel heads for buildings, are likewise included in this number.

111. In this number are included nails of all kinds, with or without heads, bolts and nuts, threaded or not, and rivets, together with their washers. Double-pointed nails, such as hooks, and those of undulated steel plate for frames, shall follow the same régime. Special nails or spikes for rails are excepted, these being exempted from duty as railway material.

112. This number is applicable to steel rods or strips of any shape or size, coiled or cut, even with holes, coverings, hooks or eyes of brass or other common metal, covered or not with tissue or skin, for corsets, dress improvers, or clothing.

113. Clay and sand of all kinds, employed as raw materials for industrial purposes, are classed in this number.

Clay, the constituent parts of which are silica and alumina, can be yellowish white or bluish white, gray or greenish.

It absorbs water, and with it forms a more or less ductile mass according to the quantity of sand it contains. It is divided into fatty clay, which is unctuous to the touch, and its mass is elastic and may be drawn out, and poor clay, with a hard mass to the touch, and can not be drawn out without being disaggregated.

There are several kinds of clay, viz, fire clay, pipe and porcelain clay, called "china clay" or "kaolin," which is very ductile, and resists high temperatures; common clay, called potters' or plastic clay, which softens at great heat and vitrifies; fuller's earth, which disaggregates with the contact of water, and is chiefly employed in fulling, for scouring cloth and for the clarification of certain products; calcareous clay or lime marl, which disaggregates with the contact of water and produces a strong effervescence when in contact with acids; loam, a mixture of clay and sand, is employed for the manufacture of common bricks.

114. Jet is a hard, compact, black lignite, analogous to coal, and susceptible of a bright polish. Like lignite, it is combustible, but in burning it produces ashes and not coke. This number only applies to unpolished and unwrought jet.

115. By sulphur is understood the metalloid in a native state, cast into irregular lumps, into sticks or sublimate; in the latter case it is called flowers of sulphur.

116. Carbonate of baryta is found in a native state under the name of witherite, in hard, white masses, formed of radiated concretions. It is completely soluble in diluted hydrochloric acid, and this solution, when hot-treated with sulphuric acid, gives a white precipitate of sulphate of baryta. Carbonate of baryta is poisonous.

Carbonate of magnesia is found in a native state under the names of magnesite, saussurite, and dolomite. It is a milky-white body, sometimes having colored spots. It dissolves in diluted sulphuric acid, when it will effervesce and emit carbonic acid. Carbonate of strontia is found in a native state under the name of strontianite. It is of a light gray color, and gives a purple-red hue to the flame of alcohol or the blowpipe.

The above-named carbonates, whether natural or artificial, follow the same régime.

117. This number applies to chalk or carbonate of calcium, to Vienna or Bologna lime, and Spanish white. This product occurs in the form of a white, granular powder. When treated with acids it produces a strong effervescence while emitting carbonic acid. It is soluble in diluted hydrochloric acid and leaves no sediment. When red-hot, it does not appear to alter; sediments, when placed on curcuma reactive paper, blacken the same.

118. Emery is a variety of impure alumina. It contains magnesia, silica, oxide of iron or corundum. Its color varies between bluish gray and dark brown. By means

---

[1] As this note is insufficient to distinguish iron roofing beams and joists from angle and T-iron, which, although less bulky, is sometimes of the same form, it has been decided that in order to be classed under No. 303 of the tariff, iron or steel beams or joists must weigh at least 5 kilograms per linear meter, and that iron or steel beams and joists, weighing less, shall be dutiable under No. 324 of the tariff as angle and T-iron, even when not sectioned in such shapes, but in the form of I, U, or ⊔. (Circular No. 48, of February 23, 1897.)

Digitized by Google

of loadstone, a certain quantity of oxide of iron can be extracted from its powder. Although heavy, fine-powdered emery floats on the surface of water, when spread on a wet pane of glass and crushed with a small muller, it completely dulls the surface of the glass.

This number only applies to emery in powder or grains and not to emery applied on paper or cloth, or to emery wheels.

119. This number includes heavy spar or native sulphate of baryta, a white, heavy, insoluble, insipid, and odorless powder, which, when red hot, assumes a grayish-yellow color and exhales an odor of sulphuretted hydrogen when moistened with hydrochloric acid; fluor spar or fluoride of calcium, a white, heavy powder, employed in glass engraving; calcareous or Iceland spar, whose crystals are always rhomboidal shaped and which is a carbonate of lime, and Greenland spar or cryolite, which is a fluoride of aluminum and sodium.

120. Coal is a mineral or earthy substance used for fuel, whether in lumps, dust, or compressed.

Bituminous schist, anthracite and peat, are liable to the same régime.

121. All earths which are colored by mineral salts and especially employed in the preparation of paints are classed under this number. Such are Armenian bole, Sienna, Cologne, Cassel, Italian, Sinope, and Van Dyck earth.

122. This number includes black plumbago, graphite or black lead, a black powder with a steely luster, greasy to the touch and adhesive, and red plumbago or bloodstone, which is merely ocher tinted red by sesquioxide of iron.

123. This number refers to Venetian talc or pulverized silicate of magnesia, a brilliant, nacreous, white powder, greasy and unctuous to the touch. It is used inside of gloves and boots to facilitate entrance, and also in the manufacture of soap. In perfumery it serves to prepare certain fards. Sheet talc and white or colored mica, in sheets or powder, are subject to the same régime.

124. Tripoli, fossil flour or infusorial earth, is a white powder, soft to the touch and of a yellowish, reddish, or slaty color. It is formed by the agglomeration of wastes of various microscopic seaweeds and particularly of diatomic fossils of the navicular kind, whose siliceous shells or wrappers can be discerned to a large extent when tripoli is examined through a good microscope.

Tripoli serves to polish and it is likewise used in the manufacture of enamel, soap, light bricks, and as insulating material to prevent the radiation of heat.

As a polishing material, rotten stone is assimilated to tripoli; it is of a slaty-gray color and very soft to the touch.

Fire clay is an infusible clay, rough to the touch and of a yellowish color, and very rich in silica.

125. By unrefined mineral oil is meant the product of the first distillation of schist and crude petroleum. It is of a brown or reddish color by transparency and green by reflexion. It is unctuous, has a strong smell, and is unfit for illuminating, even when containing a certain quantity of volatile products.

126. Refined mineral oil is the product of the refining or distillation of crude oil. According to degree of refining, it is more or less light and more or less colorless. Common oils fit for illuminating are generally of a specific gravity of 0.790 degree; the color is yellow and, like all mineral oils, they have a greenish reflex. The highest refined mineral oil is colorless with violaceous reflections, and of a specific gravity of 0.778 degree. Lighter oils are called ethers, petroleum, naphtha, gasoline, solar oil, etc. They are colorless, very volatile, inflammable, and their average specific gravity is 0.650 degree.

127. This number solely includes tar obtained from the distillation of coal. When liquid it is viscous, when in the mass it is black, and if in thin sheets it is greenish. It exhales a strong odor of carbolic acid and contains oily, empyreumatic and coaly matter. If stirred in water it floats on the surface in the form of greasy filaments, which decompose light into rainbow-colored reflexions. It is also called coal tar.

128. Asphalt or Jew's pitch is a black, brilliant substance, of an odor strongly resembling tar, hard and vitreous when broken. When heated, it is soluble in common turpentine oil and forms a black, bright varnish employed for coating oxidable metals and for preserving wood from damp and insects. It is insoluble in water and in alcohol, it is soluble in sulphuret of carbon. In burning, asphalt produces a strong odor and leaves a spongy coal as a residue.

129. Mineral wax is simply a variety of paraffin. It is extracted from ozocerite, a mineral bitumen likewise known under the name of Moldavian mineral wax or native paraffin. When in the state of bitumen or impure ozocerite, it is of a deep-yellow color with greenish reflexions, it is soft, wax-like and greasy to the touch. It melts at a temperature over 50° without producing the odor of asphalt and in burning gives a flame without leaving coaly residues. Its specific gravity is between 0.85 to 0.90. When thoroughly purified it turns white and is very analogous to paraffin. It is indiscriminately called mineral wax, ozocerite, and ceresine.

Digitized by Google

One of the distinctive features between beeswax and ceresine is the following: When submitted to the action of a moderate fire, by fuming sulphuric acid in the presence of amylic alcohol, beeswax will carbonize while ozocerite remains unimpaired. Ozocerite is soluble in ether.

130. Paraffin is a waxy substance, white, slightly transparent, and greasy to the touch. It is extracted from mineral oils, and retains a feeble odor of petroleum. It does not saponify under the action of alkalies and melts at 42 or 43°. It is insoluble in cold alcohol, but it dissolves in a certain quantity of alcohol in ebullition and crystallizes into thin needles while cooling. Paraffin is soluble in ether, petroleum, and essential oils.

This product is also found in a liquid state, colorless, odorless, and tasteless; soluble in ether and chloroform. Absolute alcohol dissolves small quantities of liquid paraffin, but when mixed with water the mixture becomes troubled and of a milky color. Amylic alcohol, iodine, and chlorides, bromides, and iodides of phosphorus dissolve in liquid paraffin.

Although only paraffin in cakes is mentioned in the tariff, paraffin in the mass in no determined shape and liquid paraffin are also included in this number.

131. This number applies to pastes of emery, English red, rotten stone, etc., which, when mixed with a small quantity of grease or oil, serve to polish metals. The pastes in question must not be confounded with lubricating greases or tallows mixed with plumbago.

132. Vaseline is a greasy substance derived from mineral oils. It retains a slight odor of petroleum. Its color is yellow with a greenish tint or dull white with a bluish tint. It is very unctuous, melts between 37 and 40°, and its specific gravity is from 0.84 to 0.85. It is insoluble in water, slightly soluble in alcohol, and soluble in essential oils, ether, and glycerin. By adding water to the solution of vaseline in glycerin, these two bodies separate. Hydrochloric acid does not effect it and potash does not saponify it. Examined at a low temperature with a microscope it presents crystals in very thin needles. Only pure vaseline is comprised in this number and not that mixed with any kind of perfume for toilet purposes, nor vaseline mixed with medicinal substances to form a pomatum or ointment.

133. Bricks not baked in the kiln and which, simply sun dried, have retained their earthy color, are classed in this number.

134. This number applies to stones for paving streets.

135. By ceramic or Dutch tiles (azulejos) are meant small tiles of compact clay, pressed, the surface of which, covered with bright colors, is enameled in the oven with a glazing similar to that of porcelain. They are generally square and the sides do not exceed 15 centimeters. Formerly they were employed for covering the fronts and cupolas of certain monuments; at present they are exclusively used for lining water reservoirs, baths, etc. The above-mentioned size is not exclusive, and for the classification of these tiles only the enamel or glazing similar to porcelain must be considered. Tiles of enameled iron are subject to the same duty.

136. This number only applies to bricks of fire clay employed for building furnaces and ovens and not to bricks made of more or less fine clay which may be used for other purposes. Fire bricks rich in silica and alumina resist the action of fire without fusion or contraction, as well as alkaline steams and fusion agents. Dina bricks for foundry furnaces are also included in this number.

137. Are classed in this number earthen paving tiles and baked building bricks, whether solid or hollow, polished, colored or not. The same régime is likewise applicable to tiles or squares of artificial stone or cement, even when on their surface they have figures obtained by pastes of different colors entering into their composition.

138. The grindstones and whetstones enumerated in the present number may be flat or round, and their classification is not modified, whether they be mounted or not, provided or not with their planks, cranks, stands, etc.

Soft whetstones, without grit (hones), and rough, unpolished emery stones, are subject to the same duty.

139. This number applies to small tiles of different shapes, sizes, and colors which, when assembled, represent on pavements patterns similar to those of linoleum, and even of certain carpets. They are of very fine and compact earth, artificially colored, very hard, and their thickness rarely exceeds 10 to 15 millimeters. The finest are of china clay or kaolin, and the commonest of artificial stone or cement, but their sizes hardly equals one-third or one-fourth of those of tiles of 20 centimeters, and their shape is square, prismatic, round, or triangular.

140. Muffles are small retorts shaped like a half cylinder, with flat bottoms, and furnished with openings for the escape of gas.

The stoves or ovens of fire clay mentioned in the present number are those employed in laboratories, or which are used for enameling, even when hooped with iron and provided with muffles, cupels, or crucibles. These stoves, only destined to industrial or scientific purposes, can not be confounded with forges nor with portable cooking stoves, even when the latter have parts of fire clay.

Digitized by Google

141. The pipes of earthenware mentioned in this number are those which are placed inside of walls of buildings for the drainage of rain from the gutters.

142. By insulators are meant the pieces of glass or porcelain on which telegraph or telephone wires are attached to prevent their contact with the soil. The wooden brackets or supports on which they are affixed and the iron branches for the same purpose are parts of insulators, whether they be assembled or imported separately.

143. No. 419 only applies to ordinary bottles of common glass, light colored or dark, the form of which is exclusively adopted for bottling and selling wine, brandy, liquors, beer, vinegar, etc., and not to bottles furnished with indelible inscriptions, marks, designs, etc., impressed in the mass of glass.

144. Glass and crystal in sheets is considered as flat glass. Flat glass and crystal, of whatever size, the surface of which has been partly ground or engraved to form, by means of any chemical or mechanical process, patterns, ornaments, or letters visible through daylight, is classed under No. 441*a*. Glass and crystal with polished edges known as beveled, because their edges are cut slanting, as well as flat glass and crystal with mountings or settings of common metal for assembling them to form windows representing mosaics or figures, landscapes, etc., are likewise comprised in the same number.

Flat glass or crystal, striated, channeled or wrought by casting, that ground on the entire surface, glass in the shape of tubes more or less closed, provided that it forms no cylinder or tube, and common glass and crystal, plain, not engraved or ornamented in any manner, are classed, whatever be their size, under No. 441.

In the classification of the glass and crystal mentioned in the above numbers, no distinction is made in the tariff between that white and that of a uniform color applied on the surface or obtained in the mass. Should the color, however, not be uniform, either because some parts have not been colored or that the original colors have again been given to the glass and crystal, even when the glass has been ground, or because other colors have been wholly or partly applied to the glass or crystal, or because the color, although uniform, presents different tints or shades, the glass and crystal must be considered as decorated and shall be dutiable according to No. 441*a*.

The glass for paving enumerated in No. 442 is not only of a thickness corresponding to its destination (always at least 1 centimeter), but its surface is smooth, if not ruffled, especially when of large size; as to its transparency, though light passes through it, you can not see through it owing to the dark color of the glass or the impurity of the mass. Flat glass not presented in the above-mentioned conditions shall, according to kind, be classed under Nos. 441 and 441*a*, even when the destination fixed in No. 442 is assigned to them.

Glass for paving may be square, polygonal, or round, and it is not necessary that the edges be cut straight.

145. Round glasses for watches, and glasses for spectacles or other optical instruments, imported separately, whether concave, convex, or mixed, are included in this number.

146. The tariff classes under the denomination of cotton the white and silky fiber which grows on the seed of the cotton plant, plant of the genus Gossypium.

Although in trade cotton is divided in different kinds, the tariff establishes no distinction between them.

There are several means to distinguish which are the cotton threads in a tissue, but none is so sure as an examination by means of the microscope. Seen with the microscope, the cotton fibers are in the shape of translucent ribbons, twisted in very open spirals, a characteristic which is found in no other vegetable fiber. Sometimes it is observed that some of the fibers on one side of the tissues instead of being in the shape of ribbons and in spirals, are round, which indicates that the fiber proceeds from a capsule not entirely ripe. Cotton filaments are never longer than 40 millimeters.

147. Yarn or twine is a soft spun web, little twisted, and without dressing or starch. It is distinguished from thread, which has always two or more cords in its composition, while yarn has only one, which, as soon as cut, permits the fibers of which it is composed to separate. The yarn referred to in 499*a*, is the fine cord made of the fibers enumerated in said number, oiled, of soft twist, and of structure equal to that defined in speaking of yarns in general, and which is known in England and the United States as "binding twine."

148. Cotton wicking for candles or tapers is a twisted assemblage of yarn, very supple, without size, and of a thickness proportionate to its destination. This article is generally composed by uniting several ends of thick yarn which, without forming skeins, are parallely wound in balls.

Plaits for stearine candle wicks, even when prepared with borax or other substances, and yarn assembled in fine, very little twisted cords, destined to the manufacture of vestas, are included in this number.

149. Canvas is a strongly sized tissue, composed of thick threads of two or more ends, strongly twisted, with some space between each other and generally running in pairs. Canvas is only used as a ground for woolen embroideries.

Digitized by Google

150. Nos. 453 and 504 are applicable to lace and blondes of all kinds, hand or machine made; to tulle, embroidered or plain, and to all articles of lace or network not specially mentioned in the tariff or the repertory.

Tulle is a tissue with hexagonal meshes, of a uniform appearance, and in which the threads of the tissue are entwined on the six sides of the mesh. In embroidered tulle uniformity in question is only interrupted by the embroidery forming patterns. Fancy tulle, composed of meshes of two or more sizes, is classed under these two numbers, as well as bands or insertions of tulle known under the name of antolar (borders for dresses), even when their edges contain threads of a material other than that composing the tulle, provided that it be not silk.

The above-mentioned lace and tulles, as well as articles of lace or tulle not specially mentioned, are likewise liable to the same duty, even when trimmed with beads or pearls of glass, common metal, or composition.

151. The curtains, bed, and furniture covers of mesh points or lace, mentioned in Nos. 454 and 505, are generally of guipure or of meshes of thick thread representing fancy patterns, similar to lace and generally imitating crochet work.

The tissues in question, i. e., those employed for window and other curtains, bed and furniture covers, as well as mesh point tissues of all kinds, other than tulle, are classed in the numbers corresponding to the present note, whether plain, embroidered, or figured, and even when in the figured part they are openworked or composed of hexagonal meshes, provided that these meshes do not constitute the entire ground of the tissue, i. e., of tulle. (See note 150 )

The above-mentioned articles, whether hand or machine made, are dutiable according to Nos. 454 or 505.

The bands, insertions, and lace for trimmings, classed under the same numbers, are fancy articles similar at the same time to lace and trimmings owing to their mode of manufacture, and which generally imitate certain hand-made goods, such as lace (randa), articles crocheted, openworked embroidery on tissues, and even embroidered bands, accessories usually employed for trimming ladies body linen and dresses.

Although the trimmings in question are sometimes like lace, they differ owing to their edges (one of the edges, when concerning borders (edgings), or both edges when relating to insertions) which are plaited in ornamental lace work (espiguillas) or composed of a full and close tissue similar to the close-woven parts of the article in general, or even closer and stronger.

Should the aforesaid ornaments weigh more than 150 grams per square meter, they shall be dutiable as trimmings, provided that their width does not exceed 7 centimeters, but should they be wider, they shall be classed under Nos. 454 and 505, even when their weight per square meter exceeds the above-mentioned minimum.

To determine the surface or width of the ornaments in question, the widest part of the tissue must be measured together with the festoons or cords on the edges.

To facilitate the distinction to be made between ornaments which, according to the provisions of this note, must be classed as trimmings, the Department of Finance will publish tables giving the limit of weight which must be attributed to trimmings in the piece according to their measure.

152. The cambric muslin enumerated in the present number is a tissue exclusively employed in bookbinding. It is a cotton stuff, plain, twilled, or goffered, dyed, strongly sized and generally hot-pressed to give it an appearance imitating twilled tissues or the grain of certain leather. Owing to its stiffness, the cambric muslin in question can not be fulled without losing its aspect and without slitting, and it can only be employed for covering the binding of books.

153. By tissues of smooth texture must be understood tissues composed of single yarn in which the woof threads, in crossing from one side to the other, pass above all the pair threads and below all the odd threads of the warp, these threads crossing each other in a contrary direction to return to the point of departure, i. e., then passing above all the odd threads and below the pair threads.

Tissues obtained by any other process of weaving, as well as those woven in the above manner but which, instead of being composed of single yarn, comprise either two or more parallel threads entwining at the same time the woof or warp threads, or threads of several ends, shall not be considered as tissues of smooth texture.

To ascertain the number of threads composing a tissue of smooth texture the thread counter having a space of one centimeter side must be employed. The warp and woof threads found in this space are added together, ignoring fractions of threads, and if the total can be exactly divided by two, the quotient represents the number of threads composing the tissue in a square of one-half centimeter side, but when the total can not be exactly divided by two, the fraction of thread found in the quotient shall be considered as a thread and added as a unit to those obtained in the quotient. In this operation care should be taken that the edge of the square or space to be examined by the thread counter corresponds as near as possible with the space separating one thread from another.

Digitized by Google

No account shall be taken of a difference of two or three threads when, in any part whatever of the tissue, the number of threads tallies with the declaration of the importer.

151. Tissues which, to form the openwork part of their patterns, have the warp or woof threads, or both at the same time, cut in certain places and present a real solution of continuity, must be classed as openwork tissues. Tissues in which some threads are completely lacking or are partially drawn in, must not be considered as such; these tissues shall be dutiable as figured tissues, i. e., tissues which are neither of smooth texture or openwork.

By embroidered tissues are only meant tissues which, either on the edges as borders, or on the body of the tissue, have embroidered designs. Embroidery is a work in relief, made on the tissue by hand or machine, with threads other than those entering into the composition of the warp and woof.

The embroidering threads are sometimes disposed in the sense of the woof on the reverse of the tissue and appearing on the surface only to form the design, or also on the surface of the tissue at the place where the design is to be represented, even when the latter only appears on the reverse as simply outlined or entirely filled. Should the embroidering threads be cut and removed, the tissue on which applied must appear smooth and without solution of continuity. Indeed, as abovementioned, the embroidering threads form part neither of the warp nor woof of the tissue.

For the purposes of the law, tissues with designs in relief, filled or outlined, composed of chains or cordons of any material, or obtained by means of beads of glass, porcelain, metal, gum, or composition, or by means of the application of parts cut from other tissues, shall be considered as embroidered.

155. Tissues combined with nonprecious metal, the metal forming woven or embroidered patterns, and tissues in which the metal threads, generally in the form of lamellas, either in the composition of the warp, the woof, or the warp and woof at the same time, without forming patterns, are classed in this number.

156. By drops (lluvia) are meant a series of spots placed at regular distances on the surface of a tissue and obtained by means of a single thread.

Instead of spots the presence of a thread forming a simple stripe may likewise be admitted, but in the latter case the space between the threads must be the same as those for forming the spots. Spots which in the pattern of the tissue are obtained by winding in open spirals a light-colored thread on another twisted dark-colored thread, or vice versa, are likewise assimilated to drops.

157. Note 155 is applicable to this number, with the only difference that the tissues therein mentioned are combined with threads and lamellas of silver, gilt silver, or platinum.

158. Carpets are composed of a tissue of thick and strong yarn, generally hempen, which serves as a foundation or ground for other yarns of cotton, wool, or other materials, slightly wound around the woof. When these yarns form a series of loops on the surface, it is called with uncut pile, but when the loops are cut and give to the carpets an appearance of velvet, the velvety tissue is known in commerce as shaggy or cut pile carpets.

The word "rugs" (tapetes) as employed in the tariff designates carpets of small size.

By extension, certain very thick and strong tissues with patterns similar to those of woolen carpets and which serve for the same purpose, as they are only employed as floor coverings instead of carpets, are likewise known under the name of carpets.

There exists another kind of woolen carpet, of fulled hair, similar to felt, on which the patterns are simply printed and imitate the patterns of shaggy carpets.

159. Are classed in this number: Articles of elastic tissue known as hosiery, whether relating to articles woven in one piece, articles cut out and sewn, or articles furnished with some bands of tissue destined to strengthen some of their parts.

The first and second case applies to stockings, socks, chemisettes, bonnets, gloves, bands, etc.: the latter to drawers, jerseys, slip-bodices, etc. When these articles are trimmed with small ornaments and even with ribbons of other materials appropriated to the article, the classification is not changed. Articles of hosiery imitating openworked wares are likewise classed in this number, and this is also the case for those having embroideries. The hosiery in question must not be confounded with articles of cassimere or tissues imitating hosiery. These kinds of tissues are thicker and only show the loops on the face of the hosiery, while the reverse is plushy and without the characteristic loops of hosiery.

160. The tassels enumerated in the present number have different applications and are of all sizes. The duty leviable thereon is not changed even when they are furnished with cords for suspending the same, provided that the cords do not exceed 40 centimeters.

161. This number is applicable to tassels attached to a cord of the same material forming a whole, destined to a special use; such are cordons for carriages, bells, curtain loops, beds, sword knots, etc.

Digitized by Google

162. Only drawers of tissue the lower part of which are not trimmed with lace or embroidery are included in this number. The ornaments or embroidery on the waistband are not taken into consideration.

163. Cotton shirts for interior or exterior use, with fixed or detachable bosoms, collars, and cuffs. Said article is distinguished from the blouse in that the latter is an outside garment exclusively, and when it has a skirt it is not of the peculiar form appropriate to shirts.

164. For the application of the tariff, the dress patterns must be presented in the conditions stipulated in Article XXI of the general regulations, bearing in mind that if the part of the pattern which must be considered as ornament can not be subjected to fixed rules, it can, nevertheless, in each case, be determined not only by means of the models of the dresses in question, but also by considering that the ornament, only being a simple accessory, must, as such, represent but a small part of of the tissue composing the dresses. The denomination "woolen stuffs mixed with silk in the tissue," established in tariff No. 573, applies to woolen tissues with only a small part of the silk in the stripes, checks, or designs, and in such a proportion that the wool represents the predominating material.

The denomination "silk tissues mixed with cotton, linen, or wool," stipulated in No. 634, applies to tissues in which the silk constitutes the predominating material on the surface, both the warp and woof being taken into consideration.

165. Although some trimmings are in the shape of ornaments of a tissue similar to lace, they can not, however, be confounded with lace, as trimmings of this kind may not exceed a weight of 150 grams per square meter, and their width must not exceed 7 centimeters. (See note 151.)

Nettings are mesh trimmings, one border of which is generally furnished with round tassels or fringes.

Ornaments composed of a galloon or band of tissue having at one of its borders free cord-like filaments are considered as fringes. Ornaments consisting of a galloon or band of tissue, plaited or undulated, or which have one border festooned, pointed, or with similar designs, are likewise included in this number.

166. Are considered as embroidered, handkerchiefs with embroidery of cotton, linen, wool, or silk, on all their borders, or at least in the corners. Handkerchiefs with a simple initial, a name, or a small ornament embroidered in one of the corners are not considered as embroidered.

167. The material composing the lining of made-up articles shall not be considered for the assessment of the duty applicable, according to the kind of tissue, on the exterior part of said articles.

For this purpose, by lining is meant any tissue covering the interior part of an article of clothing, and not the stuff serving as a transparent in skirts or overskirts of guipure or lace; the material of which these underskirts are composed must, in the latter case, serve as a basis for the assessment of duty. The designation "woolen stuffs mixed with silk in the tissue," employed in No. 595, applies to woolen tissues with only a small part of silk in the stripes, checks, or designs, and in such a proportion that the wool represents the material predominating on the surface of the tissue. The designation "silk tissues mixed with cotton, linen, or wool," employed in No. 648, applies to tissues in which the silk predominates on the surface.

168. The duty applicable to strips or bands, embroidered or open-worked, remains the same, whether such strips be cut or imported, reunited by series, or in the piece uncut.

169. For the application of duty, all vegetable fibers other than cotton must be classed under the heading "linen and hemp." Those most generally employed are the following: Abaca or manila hemp, abelmosk, alpha or esparto, aloes, ixtle, pita, "lechugilla," agava, asclepias, "beaumontia," bombax, calotropis, coir, or cocoanut fiber, Cretan hemp, cordia, China grass, strophanthus, hibiscus, New Zealand flax or phormium tenax, pineapple, ramie, sunn, crotalaria or Bombay hemp, "thespesia," "typha," "urena," yucca, and jute or Calcutta hemp.

170. For tariff purposes, are classed, under category "wool," yarns, tissues or articles of hair which, like those of the Angora goat (mohair), alpaca, and others, are employed for the same purposes as sheep's wool.

171. The designation worsted yarn (estambre) applies to woolen yarns suitable for weaving. This kind of yarn is soft and spongious; it is composed of fine carded wool, slightly twisted; it may be of several ends and be combined with threads of common metal which generally, in such case, surround it in large open spirals.

172. The vests and jackets enumerated in the present number are articles generally known in commerce as hunters' jackets. They are knitted with thick wool like netted tissues, but with meshes which, owing to the thickness of the yarn, are so large that one centimeter of surface of the tissue incloses but three or four. The jackets are sometimes provided with pockets and facings of stuff. Some, for ladies, are fitted to the waist by the contraction of the meshes. Vests have no sleeves, and sometimes even no pockets.

Digitized by Google

Owing to the yarn with which the meshes are made, the size of th consequently the thickness of the tissue, the jackets and vests in que be confounded with knitted jerseys, the meshes of which are very fine a those of stockings, gloves, and chemisettes.

The cord comprised in section 444 is formed by the simple twisting of cords, made in their turn, with one or more twisted threads, equal i that of ordinary machine thread or crochet cord. The different tres drical form, compact or soft, which, although they are usually call included in the sections relating to laces.

173. Woolen felt is a pulp formed by the agglomeration of the matted ments of wool. As these filaments are not twisted like yarn, and do n other, felt is no tissue. Some felts for industrial purposes have a core woof threads to give consistency to the pulp and to prevent tearing, tension to which they must be submitted. As their sides or surfaces, sent the same appearances as all felts, the woven yarns in the core taken into consideration.

Endless woolen felt bands for machinery must be fulled in one sole they present no solution of continuity. Felts composed of a band th of which were united by sewing or with hooks shall, according to weig meter, be dutiable according to Nos. 577 and 578 of the tariff.

174. Chenille is composed of two or more strong yarns, through series of very short threads, generally of wool or silk. The longitu strongly twisted, form, with the small filaments of wool or silk, a kind brush with very close spirals. For the classification of chenille, only be taken of the material forming the plush, whether the interior par table or animal fibers or of metallic threads.

175. Silk tissues specially manufactured for bolting flour in mills this number. The disposition of the threads in this tissue is so chara it can not be confounded with silk tissues for other uses. As well No. 0000 or of 18 threads, called thus because they have 18 threads in a English inch, as in those of No. 13, which contain 130 threads in a simi will be observed that the warp threads are coupled and entwine the in such a manner that they are held above and below by each of t threads which cross each other first to the right then to the left throug woof threads, so that the same coupled chain thread always passes above all the woof threads, whilst the other coupled thread always pa

In finer sieves, from No. 14 of 139 threads to No. 17 of 163 threads alternatively formed of coupled and single threads.

176. This number applies to worsted yarn with spirals of silk threa such yarn is likewise surrounded by threads or lamellas of metals oth silver, or platinum.

177. Aniline oil is a product derived from coal tar; it serves as a bas artificial colors.

Very pure and newly prepared aniline is a colorless, astringent li strong, somewhat aromatic odor, and bitter to the taste. Impure, it is ored. Under the action of light its color becomes red and, finally, resinous consistency; heated, it dissolves sulphur and phosphorous, dissolve camphor, colophany, and caoutchouc. Its specific gravity is

Fuming nitric acid gives it a dark-blue color; an aqueous solutio acid produces, according to concentration, a green, blue, or black preci chlorite of soda colors it violet.

Aniline oil generally contains toluidine, which does not modify its

Like all bases it produces with acids usually colorless salts. These with concentrated sulphuric acid and several drops of a solution of b potash, take a dark blue coloration. Solutions of aniline salts give a color to marrow of the elder, and this color does not disappear under chlorine.

178. Acetate of alumina is liquid, white, uncrystallizable, with acid

Acetate of copper or verdigris is found in the form of thick dry lo lent, of a bluish-green color; it is little soluble in pure water, and en in acidulated water. Its taste is styptic and its odor acid.

Acetate of iron employed for industrial purposes is a dense liquid of color, a styptic taste, and an odor of acetic acid or wood vinegar. E air it oxidates and becomes of a yellow color.

Acetate of lead is found in the form of agglomerated prismatic c known under the name of sugar of lead or salt of Saturn, or under the vinegar when in a liquid state; colorless, yellowish, or greenish. It and of a styptic taste. Crystallized, it forms long, white, efflorescent soluble in water and in alcohol.

186. By natural alkaloids are meant the active principles of plants. Alkaloids are generally white, pulverulent or crystallized, with alkaline reaction and soluble in alcohol. They are bitter and poisonous, and, combined with some acids, they form the most active salts.

Artificial alkaloids, being chemical products and not the active principle preexisting in plants, are classed under No. 689.

187. Alcohol or spirits of wine is the product of the distillation of grape brandy. It is colorless, very fluid, lighter than water. Its odor is agreeable and its taste is piquant and burning; it is inflammable and volatilizes without leaving a residue.

For the application of duty, is considered as alcohol that which, at a temperature of 15° C., marks more than 88° according to Gay-Lussac's alcoholometer.

For correcting the alcoholic graduation and its reduction to the above-mentioned standard of a temperature of 15° C., three-tenths of an alcoholic degree for every thermometrical degree exceeding 15° shall be deducted.

Grain, fruit, and fecula alcohol, with the exception of wood alcohol (methylic alcohol) and potato alcohol (amylic alcohol), medicinal alcohol or alcoholates, as well as perfumed alcohol for toilet purposes and alcohol employed in the manufacture of fruit sirups or in confectionery, are likewise classed in this number.

188. Methylic alcohol (pyroligneous, formic, wood spirit or methylene) is a colorless liquid, very fluid, of an ethereous odor similar to that of vinegar. It is very inflammable and mixes with water, alcohol, and ether.

Amylic alcohol (fusel oil or hydroxide of amyl) is liquid, colorless, light, having a very disagreeable and ethereous odor resembling somewhat that of apples. It dissolves in phosphorus, sulphur, and iodine.

189. Alizarine, which is a coloring matter for industries, is found in two forms, viz, natural or artificial. Natural alizarine is extracted from madder; artificial alizarine is produced by the action of sulphuric acid on binitronaphthaline, which is a product derived from coal.

Alizarine is generally in prismatic crystals or in scales varying from a yellow to an orange-red color.

An ammoniacal solution of the two kinds of alizarine gives a purple precipitate with salts of baryta and lime.

Alizarine from madder dissolves in alcohol by producing a yellow coloration and in ether by coloring it gold-yellow. Alizarine produces a violet coloration with alcohol and a bluish-red with ether.

This latter is also known under the name of naphthazarine and is often found in the form of paste, thick liquid, or in powder of a cinnamon, reddish or black color.

190. By antiseptic cotton is meant carded cotton saturated with iodoform, carbolic or boric acid, bichloride of mercury, or other antiseptic products.

191. Ammonia or volatile alkali is gaseous, but as it is soluble in water, in industry and medicine its aqueous solutions are employed.

By solid ammoniac is meant carbonate of ammonia or white volatile salts, in loaves or lumps exhaling a strong ammoniacal odor.

According to the repertory, hydrochlorate of ammonia or sal ammoniac, sulphate and nitrate of ammonia, are classed under No. 666.

192. Anthracene, solid product from the distillation of oils derived from coal, is found in the shape of lamellas. In a very pure state it is yellow. Nearly insoluble in alcohol and in sulphuret of carbon, it is soluble in crystallizable acetic acid, which it colors yellow.

193. Milk sugar or lactose is in the shape of irregular crystals of a white color, slightly sweet and hard, nearly sandy. It is insoluble in ether and alcohol, soluble in acetic acid and in three times of its weight in boiling water. It does not ferment directly, and, even when cold, it reduces Fehling's solution.

194. Benzine (hydride of phenyl, benzol, or benzene) is at present extracted from oils derived from the distillation of coal tar. Benzine is liquid, colorless, and of a tar-like odor. Its specific gravity at 15° is 0.85. Nearly insoluble in water, to which neve theless it gives a part of its odor, it is very soluble in alcohol, ether, methylic alcohol, and acetone. It is inflammable, slightly dissolves sulphur and phosphorus, and more so, heavy and essential oils, camphor, wax, and caoutchouc.

195. Medicine chests or boxes containing the most indispensable substances to substitute, at a given moment, the more complete elements of a pharmacy, are dutiable according to this number. These chests may contain solutions, ointments, and even salts, as well as emplastic cloth, lint, articles composing Lister's treatment, and surgical instruments.

It is understood that portable pharmacies must contain a real assortment of medicines, and boxes or chests only containing alkaloids or solely substances liable to a higher duty than the boxes in question, can not be admitted as portable pharmacies.

Homeopathic pharmacies contain granules or tinctures, and dosimetric chests only inclose granules.

Chests furnished with empty vials shall be dutiable as if the vials were filled.

Digitized by Google

196. This number applies to cases with chemical reagents for analyses, containing the various substances generally employed for this purpose, and even the test glasses or test tubes, vases, capsules, tubes, and other accessories for labora ories. When the vials contained in these cases are empty, the régime applicable to the same shall not be modified.

197. Medicinal capsules are small spheric or elliptic globes of gelatin, gum, or gluten, serving as an envelope for a medicinal substance of any kind. These envelopes are also known under the name of pearls, and when very small they are called "perlinas" and "globulinas." Very small capsules, of an elliptic shape, are also called "capsulinas."

Globules are very small globes of sugar employed in homeopathic medicine. They are called inert when containing no medicinal substances, and medicinal when already prepared with a medicinal substance. In both these cases these globules are dutiable according to this number.

Drops are medicines prepared in small doses. Their shape is spherical or elliptic, and they are covered with one or more layers of gum, starch, and sugar, giving them the appearance of bonbons, and disguising the taste and odor of the medicinal substance contained therein.

Grains are small drops nearly always spheric and of uniform size. Their interior is composed of a medicinal substance covered with one or several layers of gum, starch, and sugar, or simply of gum or gelatin, or a silver foil. Grains must not be confounded with granulated salts which are simply agglomerations of irregular shape, not exactly dosed and not composed of an interior of medicinal substance covered with other substances destined to disguise the taste.

Pills are pasty medicines reduced to small balls, covered or not with sugar and starch, and destined, like capsules, drops, grains, and granulets, to be swallowed whole, to prevent them from dissolving in the mouth.

Medicinal confections are in the same conditions as drops and subject to the same duty. Empty gelatin capsules, Limousin wafers, and other similar products, are likewise classed in this number.

198. Carbonate and bicarbonate of potash occur in white rhomboidal crystals, soluble in water, with alkaline reaction, of a salty and caustic taste.

With chloride of platinum they produce a yellow precipitate, and with perchloric acid or perchlorate of soda, a white crystalline precipitate. They give a violet color to the flame of the blowpipe, color which can be perceived through a cobalt crystal, even in the presence of soda.

Carbonate of potash is deliquescent and insoluble in alcohol.

Carbonate of soda is colorless, odorless, salty, and bitter to the taste. It crystallizes into thick rhomboidal or summitless, quadrangular, pyramidal prisms, generally covered with efflorescences.

Bicarbonate of soda crystallizes into colorless, rectangular prisms; it is not efflorescent; its taste is salty and sometimes ammoniacal, and its reaction is very alkaline; it gives no precipitate with sulphate of magnesia.

Sal soda is neither precipitated by carbonate of ammonia nor by chloride of platinum and alcohol, while it is by antimoniate of potash. It colors the flame of the blowpipe an intense yellow.

199. Newly prepared cyanide of potassium is odorless, but when having absorbed some moisture it exhales an odor of hydrocyanic acid. It is white, deliquescent, and generally found in sheets or thin rolls. It is slightly soluble in concentrated alcohol and becomes effervescent with concentrated acids, emitting a prussic vapor having the characteristic odor of bitter almonds. Mixed with caustic soda lye and treated with a solution of protoxide of iron and hydrochloric acid it gives a blue precipitate.

Yellow prussiate of potash or ferrocyanide of potassium, in flat crystals of a pale yellow color, transparent, odorless, soluble in water and insoluble in alcohol, the solution of which, under the action of an iron salt, takes an intense blue color, and red prussiate of potash or ferricyanide of potassium, in elongated garnet-red crystals, are included in this number. Salts of protoxide of iron in solution produces a blue precipitate; those of peroxide produce a red liquid which gives a blue color to iron.

200. Common collodion is a rather thick liquid, colorless, inflammable, with an etherous odor, formed by a solution of pyroxilin in sulphuric ether mixed with alcohol. Evaporated on glass it leaves a thin, translucid, and elastic coat thereon. Photographic collodion takes a yellow color under the action of metallic or alkaline iodides entering into its composition.

201. This number is applicable to vegetable or mineral colors in crystals, powder, or paste, or to colors prepared or dissolved in a proper material and destined to be immediately employed for coloring, either as dyes or as paints.

Colored varnish such as Soehne's, or varnish for carriages, leather, or other uses which, being combined with some resins changing them into bright varnish, can not be considered as colors and are not included in this number.

Digitized by Google

202. Chloral or trichloride of aldehyde is a colorless, oily liquid, of a strong and pungent odor and harsh taste. It is very soluble in water, alcohol, and ether, and in the presence of an alkaline carbonate it emits chloroform. It dissolves iodine by taking a purple color.

Solid chloral, known under the name of chloral hydrate, is crystalline, opaque, white, prismatic, rectangular, or rhomboidal and deliquescent. Mixed with bichromate of potash and treated hot with nitric acid, it produces a blue color, which changes to red when ammoniac is added.

Chloral hydrate treated with peppermint essence takes a rosy tint before becoming dark red, color which chloroform transforms into violet.

203. Chlorate of potash is white. It occurs in sheets or flat, hexagonal crystals, odorless, of a salty taste. Insoluble in alcohol, it is slightly soluble in water; mixed with sulphur, it detonates and produces a violent shock; placed on incandescent coals, it burns rapidly while producing a dazzling light. Sulphuric acid colors it dark yellow.

Chlorate of soda crystallizes in small white cubes. It is soluble in three parts of cold water. At a high temperature it might inflame spontaneously.

204. Chloroform or carburet of chlorine is a colorless liquid exhaling a special agreeable ethereal odor, which produces a sweet sensation in the throat. It is denser than water, in which it is insoluble, while it is soluble in alcohol, ether, and oils. It dissolves phosphorus, iodine, sulphur, camphor, wax, resins, and gutta-percha. It neutralizes the odor of assafœtida, and mixed with albumen it coagulates into a jelly.

205. Chloride of soda or hypochlorite of soda is a colorless liquid with a strong odor of chlorine, which increases in contact with an acid. Chloride of lime in a dry state is a white deliquescent powder, having a strong smell of chlorine, and is incompletely soluble in water. Hypochlorite of lime is liquid, colorless, and has the same properties as hypochlorite of soda.

Chloride of potash, which greatly resembles chloride of soda, is liquid, sometimes slightly colored by permanganate and exhales a strong odor of chlorine. It is also called Javelle's water.

206. Chloride of zinc is found in colorless deliquescent melted sheets. Well diluted, it forms a powerful disinfectant. It dissolves silk and copper, but not silver.

Protochloride of tin, commonly known as tin salts, crystallizes into transparent needles. It has a styptic taste and is very soluble in water, in which it produces intense cold. A solution of protochloride of tin in warm water, treated with crystallized chromic acid, gives an emerald-green color.

207. This number applies to acid tartrate or bitartrate of potash in very white prismatic crystals, of an acid taste. Insoluble in alcohol, it is slightly soluble in cold water.

208. Creoline is a powerful liquid disinfectant, of a very dark color and in the composition of which a great quantity of crude carbolic acid enters. It smells like tar. It is likewise prepared in powder.

209. Diastase or maltine is the azotic principle obtained from germinated barley. It is found in white or slightly gray powder. It is soluble in water and insoluble in concentrated alcohol. It transforms feculæ into dextrine and sugar.

210. This number applies to medicinal drugs and chemical and pharmaceutical products, not specially mentioned in the tariff.

The following compositions or preparations are considered as "drugs and pharmaceutical products:"

Alcoholates: Alcoholic remedies containing in dissolution the medicinal principles of one or more substances obtained by maceration, digestion, dissolution, or distillation.

Compound balsams: Officinal medicaments, unctuous or liquid, not presented in sufficiently exact conditions to allow their classification. Indeed, compound balsams are sometimes alcoholic solutions and sometimes oily solutions, whilst they are always aromatic and composed of various substances.

Cigarettes: Round tubes containing, instead of tobacco, different medicinal plants, cut.

Preserves: Medicaments which are generally of a soft consistency and contain an admixture of sugar and vegetable substances.

Cerates: Unctuous medicaments for external use, composed of oil, spermaceti, wax, and some medicinal substances.

Elixirs: Alcoholic medicinal solutions the taste of which is neutralized by the admixture of a certain quantity of sugar.

Plasters: External medicaments of a consistency harder than ointments; they melt under the action of heat and have adhesive qualities. Their basis is a fatty and resinous substance, and the medicinal principle is added as a powder or an extract. Plasters must not be confounded with emplastic cloths, which are tissues on which plasters are spread.

Digitized by Google

Medicinal extracts: All solutions of a medicinal substance or the juice of some vegetables reduced by evaporation to a sirupy consistency or to a dry paste.

By soft extracts are meant those having the consistency of honey or of a soft paste; extracts are solid if they break when cold or can be pulverized, and dry, when in sheets or scales absolutely anhydrous.

Medicinal sirups: Sirups containing in dissolution medicinal principles which can only be employed as medicaments and never to sweeten refreshing beverages or for confectionery.

Medicinal liqueurs: Liquid medicaments of no proper character, being sometimes real alcoholates and sometimes elixirs, but always containing in dissolution one or more medicinal principles, which prevents them from being classed as table liqueurs.

Liniments: Liquid medicaments, alcoholic, oily or fatty, for external use.

Medicinal pomades: Soft medicaments for external use, having for a basis a fatty substance.

Solutions: Liquid medicines the medicinal principles of which are dissolved in water, alcohol, ether, glycerin, vinegar, etc., such as tinctures, drops, and other similar products.

Ointments: Soft medicaments for external use, in which a grease mixed with resin serves as an excipient for the medicinal substances.

The chemical products included in the present number are all those, not specially mentioned in the tariff, which can only be classed as preparations, and not as well-defined products nor as real salts. Artificial alkaloids and glucosides are included in this number.

211. This number applies to tow of linen or hemp impregnated with disinfectant medicinal substances and generally employed by veterinary surgeons.

212. Alcoholates and etherolates containing the aromatic principle of fruits or a substance artificially replacing the same are classed in this number.

213. Ether is a liquid product, volatile, proceeding from the distillation of alcohol mixed with a small quantity of an acid of which it takes the name.

The ethers most generally employed are the following:

Acetic ether or acetate of oxide of ethyl, which is liquid, colorless, of an agreeable odor similar to that of vinegar, inflammable, soluble in seven parts of water and in any proportion of alcohol. Its specific gravity is from 0.900 to 0.920 and it boils at between 70° and 74°.

Amylnitrous ether or nitrite of amyl, which is liquid, yellowish, and volatile. Its specific gravity is 0.887. It boils at between 93° and 99°. Its odor is agreeable and has some analogy with the smell of apples, but its inhalation is dangerous, because it accelerates the beating of the heart and provokes congestion of the brain.

Hydrobromic ether or bromide of ethyl is liquid, colorless, volatile, of a strong odor. Its specific gravity is 1.460 and it boils at about 40°.

Butyric ether or butyrate of oxide of ethyl, which is liquid, light, colorless, inflammable, little soluble in water and very soluble in alcohol. Its specific gravity is 0.904 and it boils at about 110°. Its odor being somewhat similar to that of pine apples, it is employed in the preparation of artificial essences of pineapples and bananas.

Hydrochloric ether or chloride of ethyl, which is a colorless liquid of an agreeable odor, sweetish taste, very volatile. It dissolves resins, sulphur, and phosphorus. Its specific gravity is 0.874 and it boils at 11°. It is mixed with alcohol to diminish its volatility.

Formic ether or formiate of oxide of ethyl, which is a colorless and inflammable liquid. Its specific gravity is 0.915 and it boils at between 53° and 54°. Its odor resembling that of peach stones, it is employed in the preparation of artificial fruit essences.

Nitrous ether or oxide of ethyl, which is a yellow liquid, inflammable, of an agreeable apple-like odor, and very volatile. Its specific gravity is from 0.880 to 0.945 and it boils at 21°.

Nitric ether or spirits of niter, which is liquid, colorless, of an agreeable odor, and of a cold and sweetish taste.

Sulphuric ether, oxide of ethyl or simply ether, which is colorless, inflammable, of an agreeable odor, very diffusible, volatile, of a burning taste, producing intense cold owing to its rapid evaporation. It emits heavy vapors which descend instead of ascending. In a pure state its specific gravity is from 0.715 to 0.720. It dissolves greases, camphor, caoutchouc, iodine, phosphorus, sulphur, paraffin, and mixed with alcohol it dissolves gun cotton. It boils at 35°.

Valerianic ether or valerianate of oxide of ethyl, which is a liquid with a penetrating smell of the valerian. Its specific gravity is 0.890. It boils at between 133° and 134°. It is used in the preparation of some artificial fruit essences.

Hydriodic ether or iodide of ethyl, which is a colorless liquid with a strong ethereal smell. Its specific gravity is 1.970 and it boils at between 65° and 70°. When

Digitized by Google

thrown on incandescent coals it produces, without burning, violet vapors. Light decomposes it by making it darker.

Œnanthic ether, which is simply an etherolate of oils produced by the fermentation of grape skins, must not be classed in the present number, but as fruit essences, as it is exclusively employed in the manufacture of artificial wines.

214. The following are classed in this number: Extracts for dyeing, proceeding from dyewoods such as logwood, India or Nicaragua wood, Brazil wood, braziletto, Saint-Martha's wood, fustic, wood of Cuba, Gualda, the chestnut, Lima, and quercitron. Coloring materials extracted from lichens and vegetables, in powder or paste, such as orchil, garancine extracted from madder, extract of safflower or carthamine, extract of turmeric or curcumine, extract of alkanet or anchusine, and extract of sumac are likewise comprised in this number.

215. White phosphorus occurs in small, translucid, opaque or yellowish sticks. It is very soft and has an odor like garlic. In contact with air, it smokes until it inflames, and for this reason it is preserved in receptacles filled with water. In the dark it emits a bluish light. It is very soluble in sulphuret of carbon and slightly in ether, alcohol, benzine, and chloroform.

Red or amorphous phosphorus is opaque, pulverulent, of a dark-red, nearly violet color. Insoluble in sulphuret of carbon, it is not inflammable in contact with air, although it inflames under the rays of the sun. Amorphous phosphorus is neither poisonous nor phosphorescent.

216. Common wooden matches and those called safety matches, matches of wax or stearin (vestas), matches on cardboard or tinder, even when their paste is perfumed or prepared to produce colored lights, are included in this number.

217. This number includes gum, glue, and mucilage in solution employed for office purposes or for domestic use, such as repairing china, crystal, etc.

218. Hyposulphide of soda, or sulphureted sulphide of soda, is a colorless salt, crystallized in rhomboidal prisms. It is odorless, insoluble in alcohol, and dissolves in water by therein lowering the temperature. Hydrochloric and sulphuric acids decompose the same by producing therein a precipitate of sulphur and emitting sulphurous gas. Hyposulphite of soda dissolves gold or silver chlorides.

219. By medicinal soaps are meant soaps containing medicinal or antiseptic substances, such as phenic, boric, or salicylic acids, thymol, eucalyptus, tar, soaps combined with sulphur, arsenic, bichloride of mercury, or the like, wherein medicinal substances, other than those commonly entering into the manufacture, are added to the soap. Soap of this description follows the régime of this number even when perfumed for toilet use, but if not actually containing medicinal properties, or if only used to soften or whiten the skin, such as glycerin, gall, almond, lettuce, or saxoline-milk soap, etc., such products must not be considered medicinal, but as ordinary soaps dutiable, according as to whether the same are perfumed or not, conformably to the number of the tariff applicable thereto.

220. All kinds of yeast and leavens, whether liquid, in paste or powder, are classed under this number.

221. Nitrate of silver occurs in crystallized form or melted in round bars. The crystals take the form of colorless rhomboidal sheets. When melted, it is a dull grayish-white color and absorbs the moisture in the air; in this condition it is also called lunar caustic. Light blackens nitrate of silver. This product is caustic, and its solutions, under the action of light when spread on the skin or on any other organic matter, reduce by producing a dark spot with a metallic reflection. It is highly soluble in water, wherein it forms, under the action of hydrochloric acid, a precipitate of chloride in white masses, which, on being exposed to the sun, assume a violet color. These white masses of chloride of silver are soluble in ammoniac, hyposulphite of soda, and cyanide of potassium.

222. This denomination applies to the coloring material, presented in powder or paste, extracted from lichen and known under the name of orchil or cudbear.

223. (Repealed.)

224. Medicinal pastes are solid medicaments for internal use, generally employed as a medium of slowly and constantly administering medicinal, and particularly pectoral principles. In general the medicinal principle is mixed with gum or gelatin, together with a large quantity of sugar. Certain pastes are coated with crystallized sugar and are known under the name of candied pastes (escarchadas). Pastilles are pieces of medicinal pastes. They are of various shapes, hemispherical or flat; they are soft or elastic when composed with gelatin, and hard and dry when composed with tragacanth gum and compressed; in the latter case they are called tablets. Medicinal jellies are medicaments for internal use in which the medical substance is combined with a large quantity of gelatin, which gives them a very soft and elastic consistency. Generally, jellies contain a large quantity of sugar.

Pulps, being the soft and fleshy part of certain vegetable products, reduced into paste and containing an admixture of sugar or other substances, and likewise chocolate and biscuits prepared with medicinal substances and fit only for use as medicaments, are likewise included in this number.

Digitized by Google

225. Pepsin is an azoted matter extracted from the glandular layers of pigs' or sheep's stomachs. When in a pure state, it occurs in small yellowish sheets of an animal odor analogous to that of gelatin or clarified glue. Pepsin is soluble in acidulated water, but is less so in pure water and in diluted alcohol; it is, however, insoluble in pure alcohol and ether. It will decompose when submitted to a temperature over 45°. Its solutions give a precipitate with tannin and with alcohol, but not with nitric acid or bichloride of mercury. It will dissolve large quantities of fibrin. When presented in powder, it generally contains an admixture of starch, lactic acid, or milk sugar.

Vegetable pepsin, or papain, a substance extracted from the milky juice of the papaw (carica papaya), is a substitute for animal pepsin and is dutiable according to this number.

226. Permanganate of potash crystallizes into dark-colored prismatic needles having a metallic, steel-like reflection. It is soluble in water, to which it communicates a fine purple-violet coloration, which becomes green under the action of alkalies. When with sugar it gets green to afterwards become yellowish-brown. Oxalic acid containing an admixture of sulphuric acid discolors a solution of permanganate of potash. It is likewise known under the name of chameleon mineral.

227. This number applies to glass plates for photographers, which are sensitized by means of a light coating of gelatin or bromide of silver. Owing to the extreme sensitivity of these plates, the inspection thereof by the customs must be effected with the precautions necessary to prevent them from being altered by coming into contact with a white light, and packages inclosing the same can only be opened with the light of a lamp provided with red glasses. Like precautions must be adopted for sensitized paper and films, which are dutiable according to this number.

228. This number includes powders which, after being prepared according to any special formula, are mixed in such manner as to form a compound medicine, whatever be the proportion and nature of the substances employed. Saccharolates and saccharides, i. e., medicinal powders into which pulverized sugar enters, are dutiable according to this number, which, however, is not applicable to powders composed of one single pulverized material or to effervescent salts.

229. Tin ashes, or oxide of tin, occur in the form of a white, sometimes grayish, powder. They proceed from the oxidation produced by the contact with air on a surface of tin in fusion. They are used for polishing glass and metals and in the manufacture of white enamel.

230. Quinine is white, crystallized in very fine and silky needles, and resembles small cotton flocks. It is odorless and very bitter. The most used quinine salts are sulphate, which crystallizes in very fine colorless needles; it is exceedingly light, odorless, bitter, soluble in water, alcohol, and acids and insoluble in ether; hydrochlorate, crystallizing in long white needles, odorless, bitter, soluble in water, but much more so in water acidulated by hydrochloric acid; hydrobromate, crystallizing in long, pearly-white needles, and soluble in water and alcohol.

This number not only includes quinine and its salts, but also cinchona alkaloids and their salts. Cinchonine, cinchonidine, and quinidine or quinoidine, are the alkaloids most in use. Others are obtained, however, such as aricine or "cusconine," "cinchogénine," and "cinchonicine," "huanoquine," "paricine," paytine, "quinamine," quinicine, and a few derivated alkaloids, such as ethyl quinine, methylcinchonine, and iodoquinine.

231. This number refers to all salts and oxides not specially mentioned.

232. Nitrate of potash, or saltpeter, generally occurs in crystals of prismatic-hexahedral shape, colorless, odorless, and having a fresh, slightly bitter taste. It is soluble in four parts of cold water and in one-third or one-fourth of its weight of boiling water. It is insoluble in pure alcohol, and when treated by platinum chloride its solution gives a yellow precipitate insoluble in alcohol.

When thoroughly stirred with a tartaric acid solution, nitrate of potash gives a white granular or crystalline precipitate of bitartrate of potash soluble in ammonia.

Nitrate of soda, commonly called Chile or Peru saltpeter, is a colorless product, crystallizing in prisms of a rhombohedral nearly cubical shape. It is odorless, has an acrid cold taste, very soluble, and nearly deliquescent.

Its neutral and very extensive solutions precipitate under the action of antimoniate of potash, but not under that of carbonate of ammonia or chloride of platinum.

233. Silicate of soda, which is obtained by melting silica with caustic soda, occurs in glassy masses slightly colored green or blue, very hard, odorless, of a saline taste, and soluble in boiling water. In a liquid state this product has the consistency of sirup, is almost colorless, and of a specific gravity of at least 1.530. In this state it is very soluble in water. When treated by hydrochloric acid its solution gives a gelatinous precipitate, which is a characteristic property of silica.

Silicate of soda, which has the same characteristics as potassium, is generally known under the name of soluble glass. In a liquid state its specific gravity is 1.320.

234. Caustic soda occurs in an amorphous state, white, and even gray, melted in very hard, thick sheets. Its reaction is alkaline.

Digitized by Google

When in a liquid state, as a concentrated lye, it has a specific gravity of 1.334.

Caustic potash occurs melted, white, odorless, with a very alkaline reaction. When highly purified it will melt in small molds, which gives it the shape of a lentil, or of round sticks; if less purified it can be melted into thick plates. It saponifies vegetable oils and fat substances. It also occurs in a liquid state like concentrated lye, and its specific gravity varies between 1.075 and 1.334.

235. Sulphate of bioxide of copper occurs in large transparent crystals, having a doubly oblique crystallization, and being of a fine blue color, odorless, of a metallic taste, soluble in four parts of cold water and more soluble in boiling water. When spread its solution is pale blue, and when stirred in ammoniac it assumes a dark-blue shade. Under the action of caustic potash its solutions precipitate in sky-blue flakes.

On stirring its slightly acid solution with a very clean wire the latter will be covered with a pellicle of metallic copper.

Sulphate of copper is commonly known under the name of blue vitriol.

Sulphate of protoxide of iron occurs in rhombohedral crystals, transparent, and of a watery-green color. Under the prolonged action of air these crystals become partly covered with peroxide of iron of a yellow ocher-like color. It is strongly styptic, is soluble in its weight of cold water, and still more soluble in boiling water. When treated with ferrocyanide of potassium, its solution produces a flaky blue precipitate and colors the liquid bright blue. Solutions of nitrate of silver precipitate the same into a metallic form. Sulphate of iron is commonly called green vitriol.

Sulphate of ammoniac occurs in hexahedral, colorless crystals, having a bitter taste. It is soluble in its weight of boiling water and also in a larger quantity of cold water. When treated with potash or soda its solutions emit abundant vapors of an ammoniacal odor, which, in contact with a stick steeped into hydrochloric acid, transform into a white smoke, which enables the presence of ammoniac to be detected. In order to ascertain the presence of sulphuric acid corresponding to the sulphate, the solution is treated with chloride of barium, which must produce a white precipitate of sulphate of baryta.

236. Sulphate of magnesia (Epsom salts or sal de higuera) crystallizes in straight rhomboidal, colorless, transparent prisms, of a bitter and salty taste. When treated with carbonate of ammoniac or soda its solution gives a white precipitate of magnesia. It is soluble in water.

Sulphate of soda, or Glauber's salts, crystallizes in oblique rhomboidal, four-sided prisms. It is soluble in water, slightly soluble in alcohol, and nearly insoluble in water at a temperature below zero. Its solution will neither give a precipitate with carbonate of soda nor nitrate of silver.

237. Sulphites of soda and of lime are salts obtained by the combination of sulphurous acid with the above-mentioned bases. Neutral sulphite of soda, with a slightly alkaline reaction, crystallizes in oblique prisms. Bisulphite, which has an acid reaction, occurs in irregular opaque crystals. It is likewise imported in concentrated solution. The sulphites in question are called antichlor, because they are used in industry for removing the excess of chlorine remaining in paper pulp or stuffs after bleaching.

238. Sulphooleine, mentioned in this number, is a liquid substance prepared with oleic acid extracted from fats. It is thick, red, and its odor resembles that of saponified greases.

239. Sulphide of carbon, or carburet of sulphur, is a colorless, volatile liquid, having a strong, offensive odor; it is highly inflammable, insoluble in water, and soluble in alcohol and ether. It dissolves fats, resins, phosphorus, sulphur, iodine, and caoutchouc. Its inhalation is dangerous and its specific gravity is 1.260 to 1.270. It will boil at 45°, and its steam, mixed with air, forms a detonating gas.

240. This number refers to raw tartrate of potash of a dirty-white or wine-lees color, being a sediment of small irregular pieces settling at the bottom of wine vats during manufacture.

Raw tartrate is crystallized and slightly soluble in water, crude tartrate proceeding from the sediment of wine and which has not been purified, is bluish red, without crystallization. It resembles a dry paste reduced into flat fragments and readily dissolves in water.

241. Poison for the preparation of hides has white arsenic for its principal basis, and may be presented in powder or in the form of arsenical paste. Other preparations exist having a like application; their basis is naphthaline and even mercury. Owing to the purposes for which employed they are likewise classed under this number.

242. This number comprises wines containing certain medicinal substances, such as cinchona, cod-liver oil, iron, peptone, etc., and unfit for table use.

243. Iodine is a solid, heavy metalloid, of a bluish-brown color, metallic, having a strong and disagreeable odor similar to chlorine. It is slightly soluble in water,

Digitized by Google

unless mixed with iodide of potassium, but it is very soluble in alcohol, ether, chloroform, sulphuret of carbon, and greases. Iodine gives a yellowish color to the skin.

When submitted to heat it volatilizes into violet-colored vapors. Iodine sublimate occurs in small dark sheets having a metallic-blue reflection.

Starch solutions are colored blue under the action of iodine.

214. Iodoform occurs in very small, pearly, sulphur-colored crystallines, having a very strong and very diffusible odor, somewhat resembling that of saffron. It is nearly insoluble in water and acids and soluble in alcohol, ether, sulphuret of carbon, and essential oils.

245. By brandy is understood the spirituous product obtained by the distillation of fermented juices of fruits, of grain, or other saccharine substances. For the collection of duty, all more or less spirituous liquids wherein Gay-Lussac's alcoholometer, at a temperature of 15° C., marks at its line of floatation from 16° to 88°, inclusive, shall be considered as brandy.

If the observation is effected at a higher temperature, the degrees of the alcoholometer must be reduced to the standard of 15° C. by deducting three-tenths of an alcoholic degree per thermometrical degree exceeding 15°, and the degrees of the alcoholometer must be increased in like proportion when the temperature is below 15° at the time of the observation.

Brandies dutiable according to this number must contain no medicinal substances, sirups, toilet scents, or fruit essences.

246. Cider, ordinary hop beers or ginger ales, concentrated beers called extract of malt, and aerated refreshing beverages are included in this number.

247. This denomination refers to various bitters employed as appetizers, either in the form of drops or mixed in stronger doses with other liquids. Such are the Honduras, Hostetter, Paris, Secrestat, Kina, and like bitters.

248. By liqueurs are meant all alcoholic beverages which, either by the maceration or distillation of seeds, peels, fruits, or aromatic plants, or even by the simple dissolution of their essential oils, have, in addition to the aroma of such vegetable products, a very sweet taste due to the quantity of sirup entering into their manufacture.

The mere presence of the aromatic principle without admixture of sirup would not be sufficient to class a liquid under liqueurs. Accordingly, Majorca anise brandy and the like are not brandies, notwithstanding their aromatic odor and taste, as they are not prepared with sirups.

On the other hand, the mere presence of a sirup in a liquid could not justify its classification as liqueur. For instance, sweet wines, generally known under the name of "liqueur wines," although composed of sirups or sugar of more or less inferior quality, are only dutiable as wines.

249. Wines included in this number are table wines—red, white, dry, or sweet—other than sparkling wines, even if containing an admixture of other aromatic vegetable substances, such, for instance, as vermuth.

Pure wines, containing no other admixture beyond a little tannin, such as St. Raphael's, Bagnols, St. John's wines, and the like, are considered as natural or table wines, and the régime of medicinal wines shall only apply to wines with an admixture of medicinal substances rendering them unfit for table use as ordinary wines.

250. No. 742 of the tariff applies to paper waste which can only be utilized as stock for the manufacture of paper and to pulp of vegetable fibers destined to the same purpose, even if rolled, provided that they be undyed and perforated at spaces not wider apart than 10 centimeters. Rolled dyed pulps are dutiable as pressed cardboard, and those of a natural color and not perforated as aforesaid shall likewise be dutiable as pressed cardboard, unless, at the request and expense of the importers, the sheets be rendered unfit for any other use by making incisions therein.

251. In No. 743 by unsized or half sized paper is meant white paper used for printing books and newspapers, provided that it be not satiny, and that, owing to its comparatively rough surface, it be unfit for use as letter paper or manuscript documents. If unsized, or blotting, or filtering paper is written upon with ordinary ink, the ink will run and the border of the pen strokes will be more or less deformed. On this account, and owing also to the paper not being glazed, the paper in question is utterly useless for writing purposes, and must be distinguished from paper specially mentioned as fit for writing purposes. While it may be possible to write on half sized paper without deforming the handwriting, it happens that on scratching the surface and writing over the erased part the ink strokes run and the outlines lack precision, which does not happen when using sized paper. (See note 253.)

Thick blotting paper must not be confounded with the board specified in No. 764*a*. This latter, although apparently similar, contains no sizing in the mass, and owing to its special manufacture it has not, like blotting paper, the property of absorbing ink from writing without altering the strokes.

No. 743*a* applies to unsized or half-sized paper, white and satiny on one or both sides, and to unsized or half-sized paper, dyed in the paste, satiny or not, when such paper is fit for printing books and newspapers or any other kind of printing, such

Digitized by Google

as notices, posters, prospectuses, etc. The white paper specified in No. 743*a* only differs from the white paper mentioned in No. 743 by the latter not being satiny.

Under No. 743*a* must also be classed packing paper of one single color, i. e., only exhibiting one shade throughout the whole surface, even when slightly tinted with a hue different to that of the mass, and if such tint should appear on the surface of the paper and modify the uniformity of the ground color, provided always that the impurities contained in the mass do not render it unfit for ordinary printing. The blotting paper referred to in this note may be used not only for making covers for papers or pamphlets but also for ordinary printing.

As the above-mentioned packing paper may be satiny or not and be of any thickness, it follows that the aforesaid white paper and paper dyed in the mass for printing may show transparent lines without being on that account subject to a different duty.

252. The tracing paper specified in No. 744 is paper which, after having been treated with varnish, wax, castor oil, or any other analogous substance, shows a transparency enabling it to be used in tracing plans or other drawings. This paper must not be confounded with paraffin paper used for packing, which, although transparent, can not be used for tracing and which the repertory classes under No. 755. According to the repertory, paper prepared with ferro-prussiate for heliographic reproductions and gummed or varnished cloth employed for tracing plans follow the régrime of tracing paper.

Paper known under the name of "Chinese paper" (tissue paper), white or colored, and the like, and letter or manuscript press-copying paper, classed under this number owing to their thinness, brilliant or satiny surface and natural transparency, can not serve for any of the purposes intended for the paper specified in other numbers of the tariff, and accordingly can not, by reason of their application, be confounded therewith.

253. In No. 745 is included sized paper for writing. By sized paper is meant that in which the sizing is mixed with the pulp throughout its whole thickness, so that if the surface is slightly scratched, the scratched part may be be written upon without the ink running or the the handwriting deforming.

254. No. 746 applies to blotting paper of an unbleached gray or yellowish color, manufactured with straw or wood pulp, even when with colored lines, and, generally, to all packing paper not specially mentioned, of whatever thickness, whether satiny or not, provided it be of raw pulp or, if of colored pulp, it be not of a clear and uniform color, but somewhat presents a surface entirely or mostly maculated by the impurities of the paste or any other flaw of manufacture, or even shows roughness and be, owing to all such imperfections, unfit for printing.

Black or colored lined packing paper, even when the ground is of one single plain color, and likewise paper coated with tar or resin, are dutiable according to this number.

Paper on cloth, waterproof paper, parchment paper, and paraffin paper are classed under No. 775, although some of these papers are also used for packing purposes.

255. This number applies to advertisements destined to advertise or recommend a manufactured product, the address of an establishment or factory, or to bring any particular information to the notice of the public. In such case the said advertisements are dutiable according to the quality of the paper on which engraved, lithographed, or printed. If framed, however, the advertisements shall be liable to the régime of the frames. Advertisements which are engraved, stamped out, or adhere to plates of glass, metal, wood, etc., are dutiable according to the material of such plates.

Labels or posters, even with a motto or address, and headings appearing on papers for use as documents, letters, or orders, are not considered as advertisements.

256. Paper which, being intended for specified purposes, bears a heading, a firm or special monogram, printed, engraved, or lithographed thereon, is included in this number. Paper furnished with a simple letter, a flower or design, as is often seen on fancy envelopes and paper for intimation letters, or papers simply provided with borders, do not come under this régime.

257. This number solely applies to paper on which are printed one or more engravings exclusively destined to serve as illustrations to the text which must be printed on the blank portion of the leaves destined to form the illustrated books, pamphlets, or journals.

In order to enjoy this régime the paper in question must not only comply with the aforesaid conditions, but further, in case of doubt, the interested parties must justify the use for which it is intended, i. e., prove that it is to serve for printing illustrated books, pamphlets, or journals, and that the text of such publications refers to the engravings printed on the said paper.

258. The glazed paper specified under No. 753 is paper coated on one surface with white lead or other thoroughly smooth color and used for bookbinding or other purposes, such as bonbon or capsule wrappers for medicine bottles. Paper colored on one side is that suitable for bookbinding, even if mottled or raised, imitating the

Digitized by Google

grain, tissue, skin, or otherwise manufactured. This paper must not be confounded with paper provided with engravings or lithographs nor with wall paper.

259. By gilt or silvered paper is meant not only paper covered with the foil of these metals, but also analogous paper, which, smooth or not, is covered with bronze or tin.

Gilt or silvered strips of raised paper, known under the name of "yardes," whether destined to be applied flat or as a border, are classed in this number.

260. No. 755 applies to paper to which a strengthening cloth adheres to oiled, varnished, or wax paper, and to paper prepared for copy-letter books, and to parchment papers of all kinds.

261. Paper one side of which is coated with gelatin, pure or mixed with coloring materials, such as paper substituting lithographic stones, paper employed for reproducing manuscripts in the apparatus called "autocopist," paper used for so-called "crayon" photographic proofs, and albumenized paper for photography are classed under this number.

262. In No. 761 is included all paper cut to the letter size, for intimation letters, memoranda, or documents, in single or double folded sheets, such as writing paper called "florete," foolscap, etc., and all ink-ruled paper, for letters, documents, accounts, or music.

263. This number applies to articles of paper or cardboard covered with silk or leather. Articles only ornamented in some of their parts with ribbons, pure or mixed silk tissues or leather, but whose surface is not trimmed with such materials, are not considered as covered.

264. The maps and charts specified in this number must fulfill the scientific conditions required to be considered as the exact reproduction of the surface of the globe or of one of its parts. They must indicate the form, size, and position of mountains, rivers, seas, cities, currents, reefs, soundings, altitudes, meridians, degrees, scales, etc., whether it concerns maps or marine or topographical charts.

The maps and charts referred to may, at their upper or lower parts, be provided with rods and be glued upon cloth and varnished. The classification of maps and charts is not modified when they bear on their borders advertisements or engravings, provided that the map or chart be within the stipulated conditions and constitute the principal part of the printing.

265. No. 770 applies to printed, engraved, or lithographed sheets, bearing alphabets, maxims, figures for studying geometry, natural history, etc., as used in schools. Like maps and charts, these school maps may be provided with rods; if completely framed, they shall be dutiable according to the frames.

266. Copybooks containing models of handwriting or drawing, for schools, are classed under this number, which also applies to blocks or cubes bearing figures or letters for use in primary education, to sets of solids made of wood or paste for studying geometry, to sets for objective instruction, and to assortments of rods, ribbons, cardboard, and wire for recreative instruction according to Frœbel's method.

267. This number includes all envelopes for letters or documents without addresses, headings or monograms, printed, engraved, or lithographed.

Small envelopes for visiting cards, even goffered or open-worked, and canvas envelopes are classed under this number.

The same régime is applicable to envelopes simply ornamented with a letter, flower, or design, printed, engraved, or lithographed, used for fancy or congratulatory letters.

268. Visiting cards of paper-board, called porcelain, celluloid, gelatin, wood, or similar materials, when impressed, engraved or lithographed with the name, address, or profession of any person, are included in this number.

269. No. 783 applies to cards of cardboard or paper, ornamented with pictures, engravings, or figures in relief, cut out or applied, known as congratulation cards, even when with ornaments of tissues, lace, ribbons, or flowers, or when made in such manner as to be folded and to show figures in perspective. It is understood that these cards can not bear the name of persons or commercial firms, and consequently they can not be classed under No. 782. No. 783 is likewise applicable to birth, christening, mourning, etc., intimation cards or letters, of any form or quality, on paper or cardboard, simply printed, engraved, lithographed, or ornamented in relief, with the necessary blank parts to be filled up with printing, as the case may be.

Envelopes for the intimation cards or letters mentioned in No. 783, which ought to be dutiable according to No. 780, shall, however, be subject to the same duty as the aforesaid cards or letters, provided they can not be separated from them into packets, and consequently it be not possible to verify the weight of each article without separating the same.

No. 783*a* applies to cards called porcelain, celluloid, gelatine, wood, and the like, even with gilt edges or borders in relief or gilt, provided they be not printed, engraved, or lithographed with a name or address of any person or commercial firm.

270. This number refers to portable fire-extinguishing gasogenes, whether fed by means of charges consisting of packets of carbonate and flasks of sulphuric acid.

271. Various apparatus called hectographs, copygraphs, chromographs, autocopists, and the like, employed in offices or administrations for reproducing manuscripts, are classed under this number.

272. This number includes all kinds of sucking and forcing pumps, whether propelled by hand, steam, hot-air, or any other means.

Turbines, injectors, pulsometers, and compressed-air pumps are liable to the same régime.

275. By incandescent light pears are meant small lamps, such as Swan's, Maxim's, Edison's, and the like, consisting of a closed bulb containing a carbonized filament.

The exemption from duty enjoyed by these articles does not apply to candelabra or chandeliers to which such pears are adapted, but to commutators, sockets, chimneys, and shades connected therewith.

This number likewise applies to electric light lamps, whether of the arc, incandescent, open-air, or any other system, such as Brush's lamps, etc.

274. The elevators or lifts specified in this number are apparatus used to conveniently ascend or descend in high-storied houses. All iron, steel, or wooden parts composing such apparatus are liable to the same régime, together with the chains, pulleys, and counter-weights used for running them, but not the furniture, carpeting, and accessories in connection therewith.

275. A crane is an apparatus for raising heavy weights and transporting the same from one spot to another. Being provided with a more or less inclined lift arm rotating on an axis so as to describe a circle, cranes raise the weights by means of a chain sliding on a pulley placed at the end of the arm along which such chain runs and is then wound round a windlass turned by a crank or a piston worked by steam or hydraulic power.

Diving apparatus consists of a complete dress of caoutchouc with lead-soled boots and a copper helmet provided with glasses and intended to cover the diver's head. This apparatus is usually imported with a pump for supplying air to the diver through a caoutchouc tube and with the cordage necessary for working it.

276. By tool is meant any instrument which, being operated by hand or treadles, is employed for the purpose of manufacture of any material in arts and industry. Owing to their application, burins, files, boring machines, cog-wheel and crank machines, and foot lathes, must all be considered as tools.

277. By scientific instruments are understood any apparatus of a more or less professional application and solely intended for the study or practice of any science, such as surgical, engineering, physical, and chemical. Under this denomination are also classed instruments which, although being of common use, are only destined to special scientific purposes, such as areometers, thermometers, barometers, etc. (See note VI of Regulations for the application of the tariff.)

273. Only mechanical toys, fitted with a key, spring, or clockwork are included in this number, but not those which are set in motion by pulling a wire or cord, or twisting springs or caoutchouc threads or by simple air-pressure.

279. Although Davy's lamp is the model miner's lamp, it has been the subject of numerous modifications. The mostly known systems are divided into two classes, according to the principles on which based. In some the flame is surrounded by a thin metallic gauze. Should any quantity of explosible gas enter the lamp through this gauze the explosion will only take place inside the metallic gauze envelope and extinguish the light without outwardly communicating fire. In others the light is produced by an electric current inside a tube or small bulb filled with extremely rarefied gas. The breakage of the bulb instantaneously causes the extinction of the light.

Miners' lamps of all kinds, either fire-damp safety, or for ordinary underground work, are included in this number.

280. This number includes type, vignettes, presses, and other accessories for printing and lithography. The following must be considered as accessories, viz, iron-frames, rollers, and their axes, molds for casting the rollers, proof-drawing presses, galleys, composing sticks, and wooden or metal bats, rulers, brushes for washing the forms and wooden or horsehair brushes for striking of proofs, composition tables, and their iron or marble tops, cases, and chases of wood or iron.

Lithographic stones and their rollers of leather are dutiable according to this number, as well as clichés and roller-glue paste.

This number is not applicable to varish, bronzing powders, oils, pencil brushes, sponges, and other articles which, although used in printing and lithography, are employed for other purposes and are specially mentioned in the tariff.

281. The cases of watches plated with gold, specified in this number, are of common metal covered with one or two sheets of gold to protect them against acids.

282. As this number only refers to watches of any material other than gold or common gilt-plated metal, silver watches, even gilt, and those of common metal, gilt or silvered, are classed under this number. Gilding is a gold covering applied upon the metal by galvanism or mercury. In such cases the coating is extremely

Digitized by Google

superficial and does not resist the action of nitric acid which, in a cold state, will in a few seconds attack the gold-coated metal by penetrating the pores of its covering.

283. By carts, wagons, and cars are understood vehicles which only serve to convey goods and which are, therefore, unfit for carrying passengers and more so as private pleasure carriages.

284. Small two-wheeled cars are exclusively used for carrying goods in warehouses; wheelbarrows serve to transport soil and materials in works, etc.

285. Under the denomination of carriages are understood vehicles used for town or country driving. Such vehicles, whether with flat-bottomed bodies, such as spring wagons, and road wagons, etc., or whether they can be utilized for conveying small parcels or valises, shall, notwithstanding, be considered as carriages, provided that they do not come under the category of vehicles described in notes 283 and 287.

286. Skeleton carriages, neither upholstered nor painted, are those whose woodwork is neither painted nor varnished and whose cushions are not covered with cloth, leather, oilcloth, etc., are unfinished and, before being used, still require painting, varnishing, or upholstering.

287. By diligences, omnibuses, stagecoaches, and covered vans (guayines) are understood massive, strong carriages used for conveying passengers. Carriages of this description may or may not be provided with hoods, but must have seats for at least eight persons.

Delivery wagons are likewise classed under this number, they being, owing to their construction and form, unfit for pleasure driving.

288. Lubricating oils are heavy mineral oils, sometimes crude, sometimes clarified, and most always rich in paraffin or mixed with animal fats or olein. The purest, whose specific gravity does not exceed 0.920, are of a reddish color with greenish reflection. Gilt and paraffin oils are of a limpid yellow, with greenish reflection, their specific gravity being at least 0.898. Such oils are unfit for illuminating. Greases containing an admixture of plumbago, also Frazer's tallow, used as carriage-axle greases, are liable to the same régime. Animal fats and vegetable oils are not included in this number.

289. Celluloid is a mass formed by the combination of camphor and gun cotton. With this substance, which has the odor of camphor and burns rapidly, are imitated gutta-percha, amber, bone, tortoise shell, and ivory.

290. All leaves, calyxes, petals, and other accessories not specially mentioned in the tariff or repertory are included in this number, together with dyed or painted caoutchouc tubes for flower stems, but not the metallic threads, covered or not, nor natural moss, even when dyed.

291. Machinery belting is dutiable at the rate of 1 centavo per kilogram gross weight when imported together with the machinery to which destined, i. e., when arriving with the machine or apparatus it is intended to drive or with a set of axles or pulleys to which it can be adapted, and provided that such belting never be wider than the pulleys they are destined to run.

292. This number applies to metal or silk strings for musical instruments, covered with metal thread.

293. This number includes buildings of all kinds, not fitted together and complete, of iron, steel, or wood; also their complete roofs of iron or steel. Glass windows, laths for roofing and floors, roofing tiles, faience tiles, mosaics, bricks and paving tiles, nails, screws, rivets, bolts, nuts, iron door and window fastenings; also paints, varnishes, and, generally, everything relating to decoration and ornamentation, shall be liable to the special régime assigned thereto by the tariff according to material and kind and must accordingly be the subject of a detailed declaration. Reservoirs, vats, fountains, water-closets, cooking stoves, chimney pieces or stoves, baths, etc., shall not be considered as forming part of the buildings.

In order to establish that the unfitted buildings or roofs are complete, the importers must produce to the customs the respective plans and drawings of the constituent parts thereof. In default of such proof the duty provided in No. 886 shall not be applicable, and the special duties leviable under the tariff on the different parts of the buildings and roofs shall be collected. If stonework or brickwork should be necessary for the erection of unfitted buildings of wood, iron, or steel, the absence of the materials destined to such stone or brick work shall not prevent the imported unfitted building from being considered as complete, provided, however, that it be established that the wooden, iron, or steel parts of such building are entirely complete.

294. Are considered as cases, wooden or cardboard boxes, covered with tissue or leather or padded; also wooden boxes, varnished and polished, trimmed in the inside with leather or tissue, capable of containing one or more articles. Caskets imply all cases fitted with requisites for toilet, sewing, and similar purposes not specially mentioned in the tariff. Cases and caskets ornamented with gold, silver, or platinum are subject to the régime of No. 856. Cases and caskets are dutiable

Digitized by Google

separately from the articles contained therein only when their contents are jewelry or articles of gold, platinum, or silver, or the articles mentioned in said No. 856, and consequently liable to the special duties applicable thereto.[1]

295. This number includes interior bands and linings of paper, tissue, or other material used for finishing the inside of hats, but not bands of leather or oilcloth, rubbered cloth covers, and paper envelopes used for packing and covering hats.

296. This number applies to parasol and umbrella sheaths, whatever be their component material, even if trimmed with small accessories of gold, silver, or platinum.

297. Sticks or pieces of india rubber or caoutchouc, sheathed or not, in glass, porcelain, wood, or common metal, and used by draftsmen to erase pencil marks, are classed under this number.

298. Various sheets of asbestus, cardboard, felt, silicate, and other waterproof or incombustible materials destined to cover roofs of buildings are comprised in this number.

299. No. 904 applies to all kinds of night lights, composed either of a cork, porcelain, or wooden float, furnished with a small wick kept burning by the oil on which it floats, or of disks of stearin, paraffin, wax, or other combustible substance provided with a wick which is fed by the matter composing the light.

300. This number includes billiard tables, but not the cloth, balls, cues, racks, and other accessories, all which must be declared separately. Slates for billiard tables, packed alone, may likewise be declared separately.

301. By perfumery is understood all products and fards for toilet use, aromatic waters with alcoholic basis, such as Florida, cologne, and like waters; opiates and dentifrice waters; lotions, oils, pomatums, and cosmetics for the hair; scented extracts for handkerchiefs; perfumed vinegars, creams, powders, and fards for the skin; depilatories and perfumed soaps.

302. Engravings and lithographs in detached sheets and all kinds of paintings on paper, cardboard, cloth, ordinary sheet metal, glass, or composition, with or without frames other than of silver or platinum, are classed under this number, as well as framed pictures fitted with glass.

This number does not apply to unframed pictures for schools, decalcomanies, models, and collections of engravings representing ancient costumes, to pictures for children, or building sheets with uncut parts.

303. In the denomination of artificial plants are included plants destined to figure in pots or vases and unfit for use as artificial flowers for dress, hair, hat ornaments, etc.

304. The duty of 20 centavos established in this number is not applicable to stakes or poles serving to erect field tents. If of rough wrought wood such stakes or poles are exempt from duty, even when provided with iron ferrules, hooks, and points, but should such accessories be finely wrought, with moldings, turned or otherwise ornamented, they shall be dutiable as manufactured articles of wood.

305. By "blasting powder for mines," specified in No. 849, is meant powder which, on being tested in the special Austrian rack instrument, charged with one and a half grams of powder, shows an explosive power not exceeding 35 degrees.

306. This note applies to No. 182 of the tariff, relating to refined cotton-seed oil, which, after being more or less clarified, is of a color varying between golden-yellow and straw-yellow to sometimes reach the colorless shade of refined oils. The aforesaid coloration only shall be taken into account, without considering whether such oil deposits or not lacks transparency or is troubled.

307. No. 182*a* of the tariff, to which this note refers, applies to unrefined crude cotton-seed oil, reddish, and not discolored even when after filtration it is transparent and does not deposit.

308. The exemption may be granted on the importation of thoroughbred animals for breeding purposes classed under No. 3*a*, when accompanied by their pedigree or certificate of origin attesting the purity of the breed. The Secretary of Agriculture must first, however, control the breed of animals in question, the authenticity of the certificates, and the faith to be given to the signatures appearing thereon. After such control, and on receipt of any other information which the Secretary of Finance shall deem fit in the matter, and for the purpose of satisfying himself of the destination to which are intended the animals claimed to be entered duty-free, exemptions for duty may be declared; but care must be taken to specify the number of animals intended to benefit of the exemption, and a sufficient bond must be required. Such bond shall accrue to the treasury if the animals receive a different destination to the purpose stated in the declaration, or if, after being accepted, the certificate be found not genuine; all this without prejudice to the application of the penalties provided in customs ordinances in cases of contraband.

---

[1] The provisions of this note to the effect that cases or caskets containing articles of gold, silver, or platinum shall pay the duties respectively charged upon the cases and their contents are likewise applicable to cases containing articles or accessories specified in No. 856 of the tariff. (Art. 3 of the decree of February 11, 1895.)

309. Velvet or plush tissues with silk nap on a part or the whole of their surface or with warp or woof exclusively of cotton, linen, or wool, and only having nap of silk, shall be dutiable according to No. 614 of the tariff, at the rate of 3.50 pesos.

The duty of 5 pesos provided in No. 615 is applicable to plush or velvet tissues with silk nap on a part or the whole of their surface, with warp of silk mixed with cotton, linen, or wool, and woof unmixed with silk, or vice versa.

The following shall be dutiable according to No. 615*a*, at the rate of 7.50 pesos, viz, plush or velvet tissues with nap of silk on a part or the whole of their surface and warp and woof of silk with an admixture of cotton, linen, or wool; also tissues of the kind with warp entirely of silk and woof of silk mixed with cotton, linen, or wool, or vice versa.

310. The duty applicable to the tissues specified in Nos. 508 and 508*a* will remain unchanged even when such tissues contain certain cotton threads in the shape of lists or borders. Any other tissue manufactured from the fibers specified in Nos. 508 and 508*a*, but which may not be clearly included in the above-quoted numbers or present note, shall be dutiable according to Nos. 508*b*, 508*c*, or 509 to 515 of the tariff, as the case may be.

311. No. 269 not only applies to ores proper, as extracted from the mines and of whatever shape, but also to products intermediate between the ore and copper of first fusion known under the name of copper mattes, provided that such products contain not more than 50 per cent of pure copper. When there is a higher proportion of copper the importer must state the fact, and the duties established in No. 266 shall be collected on the quantity of copper actually contained in the ore.

312. No. 438*a* of the tariff applies to wares of glass or crystal, the surface of which has been ground to form rough-edged facets, or the sides or facets of which have been smoothed in the same manner. Certain articles of molded glass present ornaments and facets imitating cutting, but these, which are classed under No. 438, must not be confounded with cut articles, because they do not present rough edges obtained by the grindstone, which completes the workmanship constituting the distinctive character of cutting. No attention shall be paid to the slight polishing which certain articles of molded or blown glass undergo in order to remove molding blisters or imperfections occurring in the blown article as it leaves the tube or pontee.

In specifying the articles classed under Nos. 438 and 438*a*, the tariff makes no distinction between articles of white glass or crystal and those of a single color. (For glass of several colors, see note 313.)

Crystal or glass articles partly engraved or ground by means of any chemical or mechanical process and representing fillets, designs, ornaments, initials, inscriptions, or trade-marks, on the interior or exterior, are dutiable according to No. 438*a*, unless otherwise specially mentioned, such for instance as glass bottles or flasks with labels, which are classed under No. 419*a*. Emery-polished necks and stoppers of flasks and bocals, and, in general, emery-work effected on glass or crystal wares for adjusting the same, also graduated scales and marks, figures, and letters indicating the capacity of flasks, bocals, test tubes, etc., the capacity or number of the articles engraved on such flasks, bocals, receptacles, etc., shall not be taken into consideration for the collection of any other duty except the rate provided in No. 438 for glass and crystal in wares not specially mentioned. The same duty shall likewise apply to glass and crystal wares entirely ground and to those ground at one end, as is the case with certain lamp or candlestick globes and chimneys, etc., provided that the further workmanship in question does not represent fillets, bands, designs, or flowers.

313. Number 438*b* includes glass or crystal articles of two or more colors, or one single color with different tints or shades, also articles entirely or partly gilt, silvered or colored, whatever be the form of such ornaments and kind of articles, provided that they be not specially mentioned.

No. 438*b* also includes crystal or glass wares imitating precious stones and those of very thin glass, inside of which are applied superficial coats of colored metal or colored varnish, such as garden balls, glass beads, etc., or articles which, by the likewise interior application of different substances, imitate tortoise shell, mother-of-pearl, pearls, etc.
